

Proportion of Estimated AIDS Cases among Female Adults and Adolescents, by Transmission Category and Population of Area of Residence, 2002–2006—50 States and DC

Note. Data based on residence at time of AIDS diagnosis. Data have been adjusted for reporting delays and cases without risk factor information were proportionally redistributed.

* Includes heterosexual contact with a bisexual, a person with hemophilia, an HIV-infected transfusion recipient, or an HIV infected person whose risk factor is unknown or not identified.
