

compensation levels of management and/or support staff among companies of different sizes. Although financial, marketing, legal, and clerical personnel may be involved in the information collection process, FTC staff has assumed that mid-management personnel and outside legal counsel will handle most of the tasks involved in gathering and producing responsive information, and has applied an average rate of \$250/hour for their labor. FTC staff anticipates that the labor costs per company will range between \$55,000 (220 hours x \$250/hour) and \$100,000 (400 hours x \$250/hour). Nonetheless, as a conservative measure, staff estimates that the total labor costs per company will be \$100,000.

FTC staff believes that the capital or other non-labor costs associated with the information requests are minimal. Although the information requests may require industry members to maintain the requested information the Commission seeks, they should already have in place the means to compile and maintain it.

John D. Graubert,

Acting General Counsel.

SUPPLEMENTARY INFORMATION:

Proposed Project

"Evaluation of the Implementation and Impact of Pay-for-Quality (P4Q) Programs."

The P4Q Evaluation is a multi-method research project designed to evaluate the implementation and impact of P4Q programs on physicians across three programs operating in *health care* safety net settings. The P4Q programs participating in the evaluation are offering their health care providers financial incentives to achieve predefined quality targets. Data collected as part of this evaluation will have direct operational relevance to
