August 26, 2007

This letter is in reference to  
docket number NIOSH-103.

I worked for IBM for  
years and retired

of I  
was born and my IBM  
serial number was I received  
a letter from IBM earlier this  
year saying that all my records  
were lost.

In of I was employed  
at their and was later  
transferred to in the  
plants. From I was  
in My job was

building from All IBM  
kept  
me busy from In  
I and  
took care of all the

equipment until my retirement in  
1974 11-11-52-30

Jim I was diagnosed with  
Melanoma. Since the operation I am  
checked yearly. My last check up was  
January of 2007.

Ida I was diagnosed with  
multiple Myeloma. I am checked  
every three months.

I worked with numerous  
employees in the  
building. I know of eight that have  
died of Cancer, two while working  
and six after retirement.

I was glad to hear that a  
study is being thought of. Good  
luck in finding all the missing  
records. If you wish any further  
comments I can be reached by  
phone or mail.
