

## **Appendix C**

### **BRAC 2005 Closure and Realignment Impacts by State**

#### **Note**

The listing of installations in this appendix does not include BRAC actions for where there are no (zero) net job changes. In a limited number of cases, the impact of National Guard or Reserve facility job changes were aggregated with those of the closest active military installation, or of a nearby National Guard or Reserve facility.

#### **Definitions**

**Economic Area** is the economic region of influence assigned to each installation for BRAC 2005. Details on the assignment of installations to economic areas can be found in the description of the activities of Joint Process Action Team 6.

**Installation** is the common name of the installation. In a limited number of cases, the impact of National Guard or Reserve facility job changes were aggregated with those of the closest active military installation, or of a nearby guard or reserve facility.

**Action** is the BRAC 2005 action for the installation, such as close, realign, or gain.

**Out Mil** is the number of military personnel authorizations that are either eliminated or re-located from the installation to a new location outside of their current economic area. Relocations within the same economic area do not constitute a BRAC economic impact.

**Out Civ** is the number of civilian personnel authorizations that are either eliminated or re-located from the installation to a new location outside of their current economic area. Relocations within the same economic area do not constitute a BRAC economic impact.

**In Mil** is the number of military personnel authorizations relocating into the installation from another economic area.

**In Civ** is the number of civilian personnel authorizations relocating into the installation from another economic area.

**Net Gain/(Loss) Mil** is the net change in the number of military personnel authorizations by installation.

**Net Gain/(Loss) Civ** is the net change in the number of civilian personnel authorizations by installation.

**Net Mission Contractors** is the change in the number non-government employees who perform one or more of the *military* missions on the installation, and whose work tasks are virtually identical to government civilian employees or military personnel, expressed in full time equivalents.

**Total Direct** is the sum of Net Gain(Loss) Mil, Net Gain(Loss) Civ, and Net Mission Contractors.
