

# 2009 Contract Changes

---

John Mootz

APFO

2008 NAIP Post-Mortem Meeting  
November 19, 2008

# Contract Changes

---

- Release copyright at 90% payment
  - Allows easier distribution in disaster
- Change “histogram peak” to median (or mean) for midtone brightness (Atch A, para 3.2(c))
- Sample imagery GFP paragraph will be deleted (para B-3.2)
  - Paragraph became obsolete with the pre-production sample requirement

# Potential Changes

---

- Require projection information in CCM header
- Require prime contractor to maintain copy of direct-digital capture data until ortho acceptance
  - What level of data?
  - Should it be a contractual requirement?

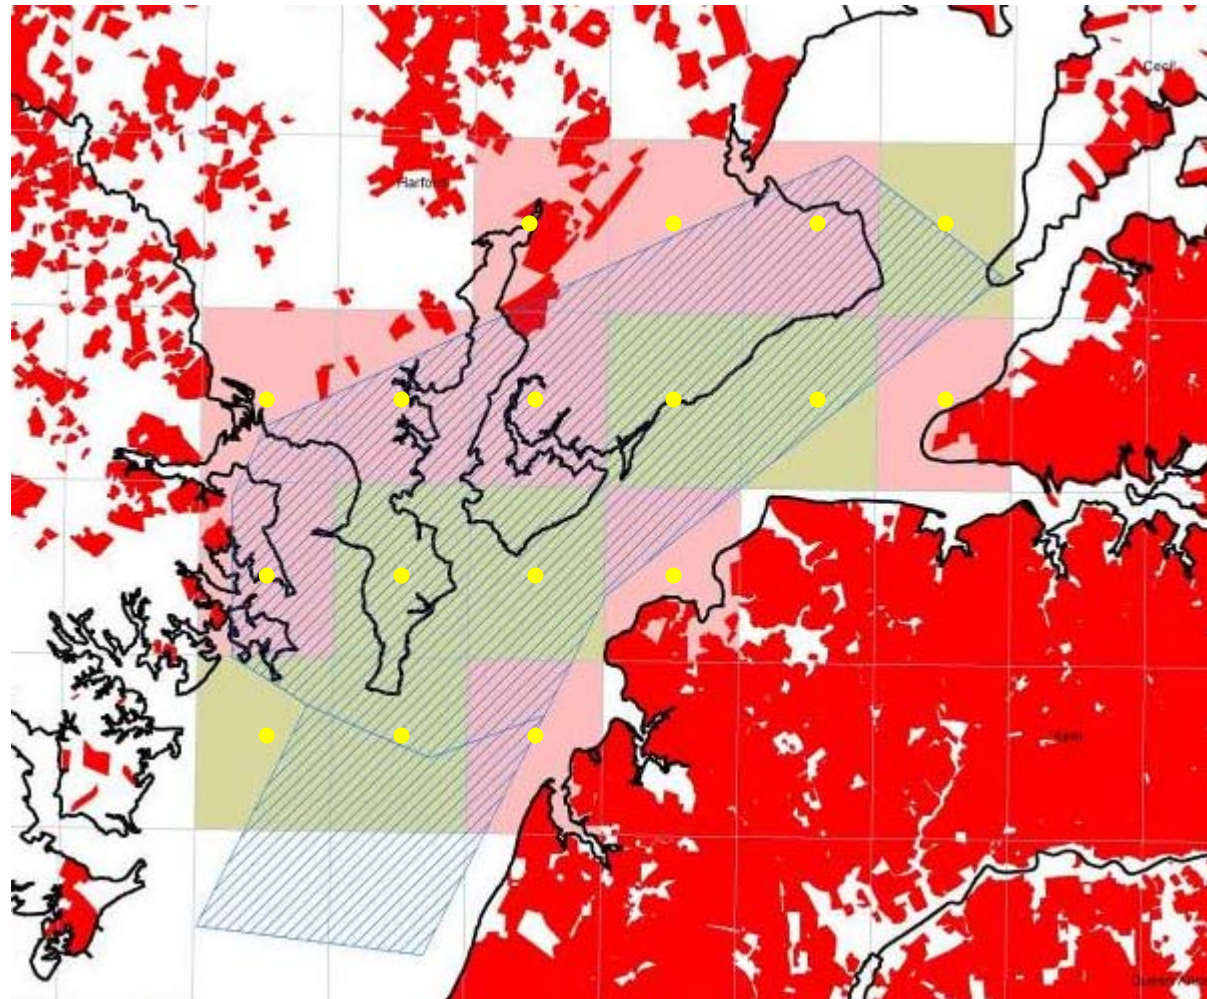

# Changes to Flight Planning

---

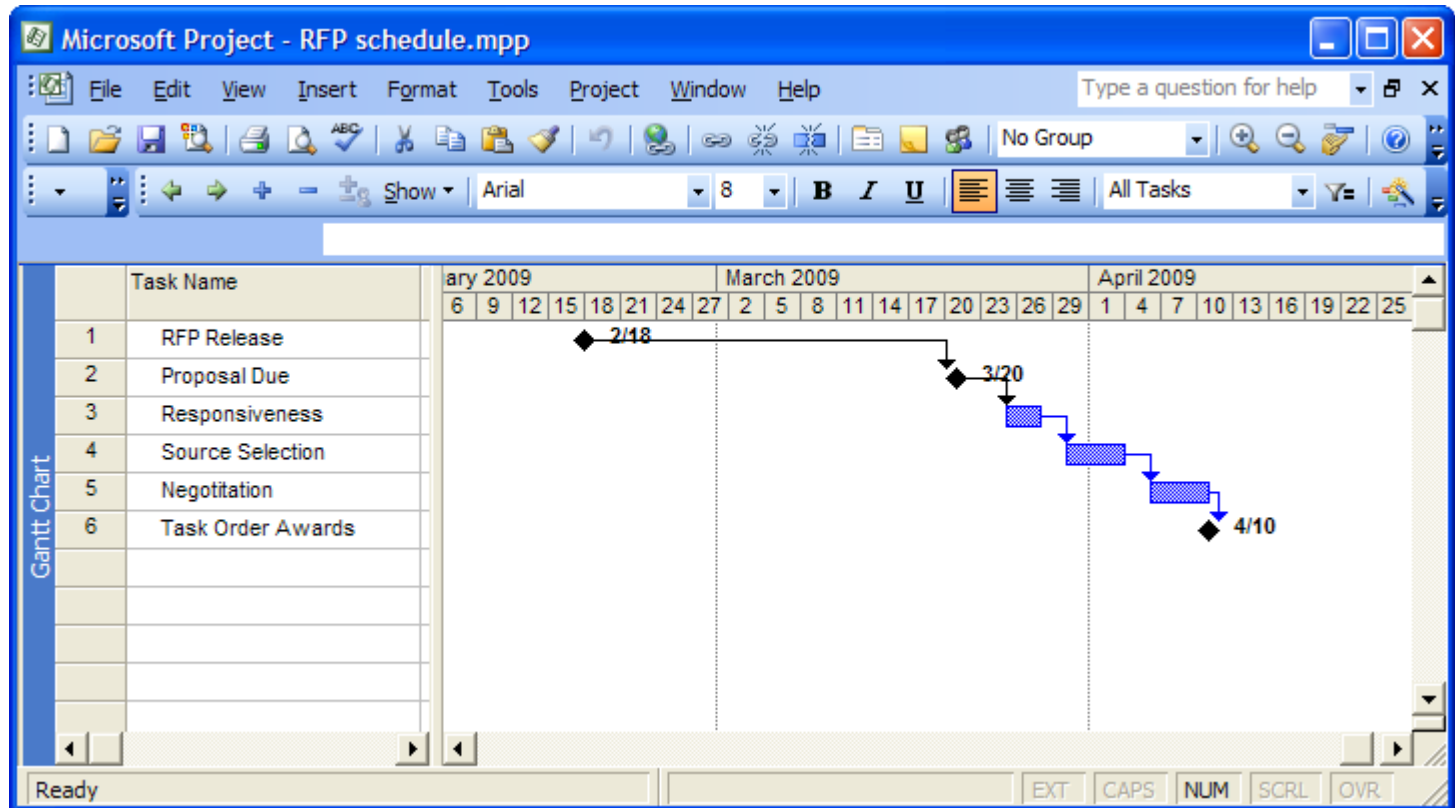

- Include “closer” coverage in restricted airspace
  - Non-acquisition will not impact past performance score
  - APG and Nellis AFB only known areas

# Aberdeen Proving Ground, MD

-  Originally planned
-  Added
-  Not planned

# 2009 RFP Schedule

**RFP release 18 Feb**

**Proposal Due 20 Mar**

**TO awards 10 Apr**
