

# NAIP 3 Year Strategy

2008 NAIP Post Mortem

November 19, 2008

Kent Williams

NAIP Manager

# NAIP 2002-2007

- Annual coverage
  - 2 meter resolution
  - CLU coverage only
- “Base” replacement on 5 year cycle
  - GIS base imagery
    - Graphic for heads up digitizing, image interpretation
  - 1 meter resolution
  - Full state coverage

# NAIP 2002-2007

- Inconsistent funding
  - Full funding only happened once - 2006.
- 2 meter imagery had limited use
  - For FSA “Compliance”
    - If it was flown too early or too late, or delivered too late, imagery couldn't be used for compliance
    - Change on how FSA does “compliance”
  - For everyone else- Ag areas only

# NAIP 2009-2011

2008 is a transition year

- 3 year cycle for “base” imagery
  - Cost share model based on core (minimum) FSA requirements and fiscal realities
  - Build in more stability and consistency
  - 1 meter
  - Continually improve quality
  - Transition to better accuracy specification

# NAIP 2009-2011

2008 is a transition year

- 3 year cycle for “base” imagery
  - Represents FSA (core) minimum requirements
    - 3 year cycle
    - Natural color
    - 1 meter resolution
    - Agricultural coverage
  - Cost share model based on FSA core requirements
  - Represents fiscal realities in FSA

# NAIP 2009-2011

2008 is a transition year

- 3 year cycle for “base” imagery
  - Build in more stability and consistency
    - Stable funding target for partners
    - Enable better planning
      - Contractors
      - APFO
      - Partners

# NAIP 2009-2011

2008 is a transition year

- 3 year cycle for “base” imagery
  - Continually improve quality
    - Communication
    - Understand user requirements
    - Users need to understand constraints/risks
    - Control what we can
      - Display environment, for starters
  - Transition to better accuracy specification

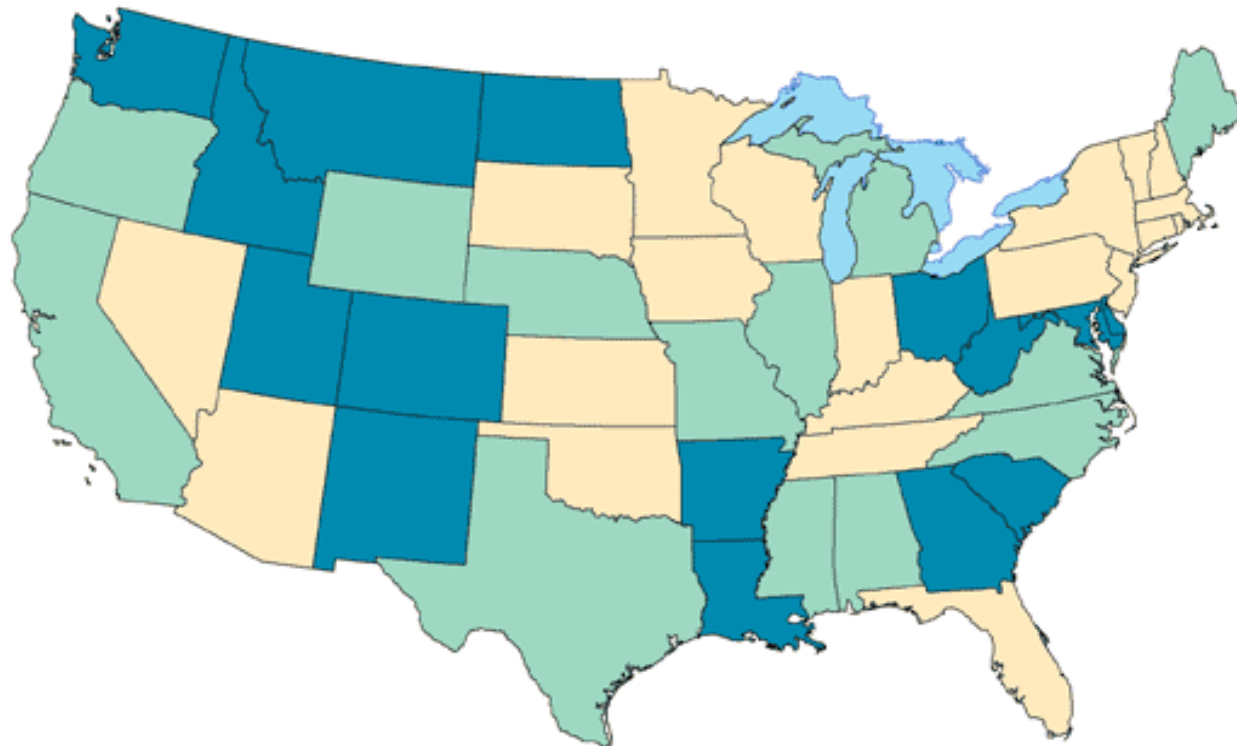

# NAIP 2009-2011

2008 is a transition year

- 3 year cycle for “base” imagery
  - Transition to better accuracy specification
    - Cautiously optimistic
    - May be problematic in some regions

## Proposed NAIP Acquisition Cycle

### Cycle Dates
