

# **Current Human Research Issues and Solutions**

## **Regulatory Overview and Hot Topics March 5, 2002**

This Town Meeting will be a Federal Interactive Teleconference is jointly sponsored by the University of Illinois at Chicago and the Office for Human Research Protections in collaboration with the U.S. Food and Drug Administration, the Department of Veterans Affairs, and the National Institutes of Health.

---

### **Audience**

This workshop is part of a national series of programs being designed for anyone involved in the conduct or oversight of research involving human participants.

---

### **Workshop Overview**

This workshop is a ½day session designed to give participants an overview of federal regulations with special emphasis on hot topics and solutions to problems.

Representatives from the Office of Human Research Protections, the U.S. Food and Drug Administration, the Veterans Health Administration and the National Institutes of Health will provide regulatory updates and interpretation of federal regulations. Participants will have the opportunity to ask for clarification and additional interpretation in the “Ask the Feds” session.

---

### **Objectives**

After completing this workshop, you should be able to:

- Discuss strategies to enhance recruitment of minorities
  - Identify special issues in behavioral research
  - Identify special research issues pertaining to vulnerable populations
  - Discuss the fundamentals of 45 CFR 46
  - Discuss the principles of The Belmont Report
  - Discuss the fundamentals of 21 CFR 50 & 38 CFR 16
  - Identify areas of institutional non-compliance
  - Discuss the fundamentals of HIPPA regulations
-

## **Continuing Education Credit**

The University of Illinois at Chicago will award 3 credit hours for full time attendance.
