¹ Includes 6 wolves killed in control actions and 1 legally shot while depredating.

² Collared wolves that became missing in 2001

³ Additional losses listed as "probable" or "possible" described in text.

⁴ Underlined packs are counted as breeding pairs toward recovery goals.

⁵ Wolf numbers indicate collared lone wolves. Lone and dispersing wolves killed 1 cow and 1 calf and injured 1 colt.

⁶ One wolf from the Whitehawk pack was legally shot by a rancher while depredating. Others were taken in government control actions.
