Source: U.S. Department of Education, Federal TRIO Programs, Upward Bound Performance Reports: 2000–01 through 2005–06 and federal financial aid files 2000–01 through 2005–06.

Note: UB = classic UB; UBMS = Upward Bound Math-Science; PSE = postsecondary enrollment; HS = high school. Table excludes 88 UB and 17 UBMS projects that were first funded in 2003-04. Table also excludes projects that were not funded in the 2003-07 cycle. The 2003-04 expected high school grad cohort and associated data used the 5 year longitudinal file (years 2000-01 through 2004-05), so the reported enrollment rate is one year after high school graduation, making it comparable to the 2004-05 expected high school grad cohort using the 6 years of longitudinal data (2000-01 through 2005-06). The expected high school graduation year is determined by the expected graduation date reported by the project or the project entry date and grade level. Postsecondary enrollment was determined by examining postsecondary education variables on the APR (transcrip code, first enrollment date, institution codes, financial aid, enrollment status, grade level, and degree completion) and disbursement amount from the federal financial aid data. NSC enrollment data are excluded from determination of postsecondary enrollment. Postsecondary enrollment rate is calculated as the number with evidence of postsecondary enrollment divided by the number expected to graduate. Three projects (P047A990878, P047A030668, P047A031038) funded in 2003-04, but not in 2004-05 are included in the results for 2003-04 expected graduates, but not in the results for 2004-05 expected graduates.

- (a) This analysis includes those participants who were expected to graduate from high school in 2004-05 (n=22,736). A total of 17,805 or 78.3 percent enrolled in a postsecondary institution in 2004-05.
- (b) This analysis includes those participants who were expected to graduate from high school in 2004-05 and who enrolled in a postsecondary institution in 2005-06 (n=17,805).
- (c) This analysis includes those participants who were expected to graduate from high school in 2004-05 for whom there was information on length of participation (2004-05: n=21,476). A total of 1,148 UB and 112 UBMS participants expected to graduate in 2004-05 were excluded from the analysis due to missing information on length of participation. A total of 5,317 or 24.8 percent stayed in the same UB program for 36 months or more. Of those staying in the same UB program for 36 months or more, a total of 4,861 or 91.4 percent enrolled in a postsecondary institution in 2005-06.
- (d) This analysis includes those participants who were expected to graduate from high school in 2003-04 who were in projects that were first funded prior to 2003-04 (n=22,855). A total of 17,004 or 74.4 percent enrolled in a postsecondary institution in 2004-05.
- (e) This analysis includes those participants who were expected to graduate from high school in 2003-04 for whom there was information on length of participation (2003-04: n=21,691). A total of 1,007 UB and 86 UBMS participants expected to graduate in 2003-04 were excluded from the analysis due to missing information on length of participation. A total of 5,683 or 26.2 percent stayed in the same UB program for 36 months or more. Of those staying in the same UB program for 36 months or more, a total of 5,064 or 89.1 percent enrolled in a postsecondary institution in 2005-06.
- (f) The sector of grantee is 2-year for 2-year postsecondary institutions, 4-year for 4-year postsecondary institutions and CBO for community based organizations.
- (g) Unknown level of postsecondary institution indicates that the postsecondary institution code provided on the APR or financial aid data did not match to the Integrated Postsecondary Education Data System.

Table 2. Efficiency of UB and UBMS Projects during the 2005–06 academic year

Award Number	Grantee	State	Sector of grantee (a)	Total participants	Percent of successful participants	2005-06 Funding	Annual cost per participant	Annual cost per successful participant	Efficiency gap (b)

Source: U.S. Department of Education, Federal TRIO Programs, Upward Bound Performance Reports: 2000–01 through 2005–06 and federal financial aid files 2000–01 through 2005–06.

Note: UB = classic UB; UBMS = Upward Bound Math-Science. Participants are defined as those who were new, continuing, or re-entry participants in 2004-05 (PartCD0405=1, 2, or 3). Persisters are defined as those who were continuing or re-entry participants in 2005-06 (PartCD0506=2 or 3) or prior-year participants in 2005-06 who are either still in high school or enrolled in postsecondary education. Postsecondary enrollment was determined by examining postsecondary education variables on the APR (transcript code, first enrollment date, institution codes, financial aid, enrollment status, grade level, and degree completion) and disbursement amount from the federal financial aid data. NSC enrollment data are excluded from determination of postsecondary enrollment. Calculations for the table exclude participants who were not served in 2004-05 (either because they were prior-year participants in 2004-05 or because they were first served in 2005-06) and those who did not have 2005-06 APR data. Table excludes 13 projects: P047A030145, P047A030153, P047A030214, P047A030285, P047A030384, P047A030611, P047A030624, P047A031184, and P047A040416 did not submit 2004-05 APR data for any participant; P047A030035 and P047M030265 did not submit 2005-06 APR data for any participant; P047M030055 did not submit APR data in 2004-05 and 2005-06 for any participant; P047A030209 had no cases with 2005-06 APR data that were new, continuing or re-entry in 0405. Funding for these 13 projects totals \$4,180,373. This amount is excluded from the total funding amount for all projects at the top of the table. In addition, table excludes 125 projects that had data for both years for participants, but with significant omissions in fields critical to calculating persistence. Fifteen percent or more of the 2004-05 participants (PartCD0405=1, 2, or 3) in these projects either 1) had no 2005-06 APR record, 2) had an invalid PartCD on the 2005-06 APR data (values 0, 255), or 3) were prior-year participants in 2005-06 with no evidence of postsecondary enrollment and with an invalid HSGrad variable on the 2005-06 data (values 0, 255). The numbers from these 125 projects are included in the first set of totals but are excluded from the second set of totals at the top of the table. A list of these projects, their numbers of participants and persisters, funding amount, and rate of missing data can be found on the Excluded Projects worksheet. Table also excludes project:

(a) The sector of grantee is 2-year for 2-year postsecondary institutions, 4-year for 4-year postsecondary institutions and CBO for community based organizations.

(b) The efficiency gap is the difference between the annual cost per participant and annual cost per successful participant.

Table 2. Efficiency of UB and UBMS Projects during the 2005–06 academic year

Award Number	Grantee	State	Sector of grantee (a)	Total participants	Percent of successful participants	2005-06 Funding	Annual cost per participant	Annual cost per successful participant	Efficiency gap (b)
--------------	---------	-------	-----------------------	--------------------	------------------------------------	-----------------	-----------------------------	--	--------------------

* Project with high annual appropriation per participant (\$5,500 or more) that did not meet its number funded to serve.

** Project whose high annual appropriation per participant (\$5,500 or more) the Department approved due to special circumstances of the project, or project that apparently had data errors or missing data leading to high apparent appropriation per project.

Table 3. Projects excluded from project-level efficiency measures by reason for exclusion

Project Number	Grantee	2005-06 Funding	Reason for exclusion
Regular Upward Bound projects			
P047A031116	Alvin Community College District	\$220,000	Missing 15% or more on items needed to calculate participants' success
P047A030661	American Samoa Community College	\$220,000	Missing 15% or more on items needed to calculate participants' success
P047A030131	Arkansas State University	\$456,476	Missing 15% or more on items needed to calculate participants' success

Source: U.S. Department of Education, Federal TRIO Programs, Upward Bound Performance Reports: 2000–01 through 2005–06 and federal financial aid files 2000–01 through 2005–06.

Note: UB = classic UB; UBMS = Upward Bound Math-Science. Missing 15% or more on items needed to calculate participants' success signifies the project had data for 2004-05 and 2005-06, but with significant omissions in fields critical to calculating participants' staying in high school or enrolling in postsecondary education. Fifteen percent or more of the 2004-05 participants (PartCD0405=1, 2, or 3) in these projects either 1) had no 2005-06 APR record, 2) had an invalid PartCD on the 2005-06 APR data (values 0, 255), or 3) were prior-year participants in 2005-06 with no evidence of postsecondary enrollment and with an invalid HSGrad variable on the 2005-06 data (values 0, 255).
