

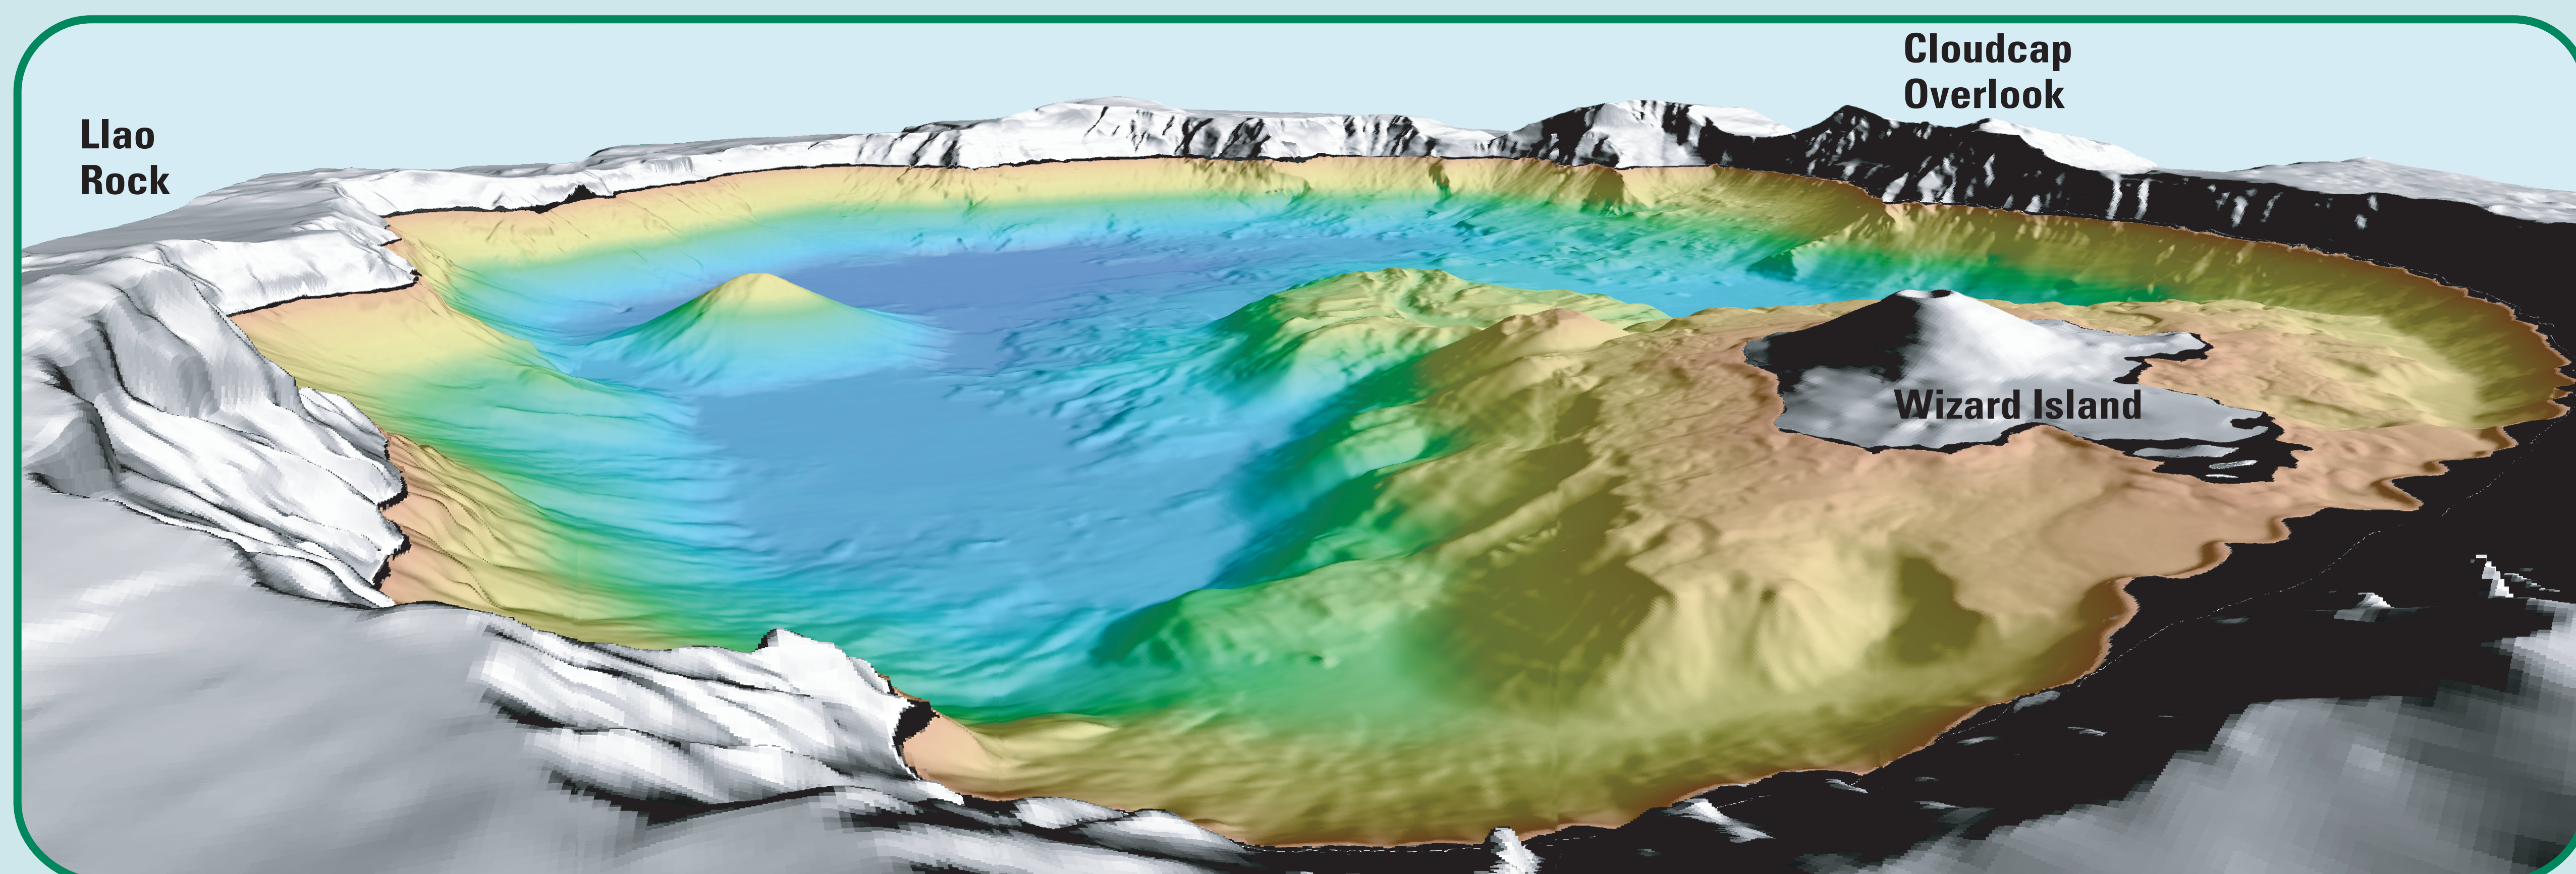

# Mapping Crater Lake, Oregon

Summer, 2000

Computer image of Crater Lake without water

Air photo of Crater Lake

The USGS mapped Crater Lake, Oregon using sonar, in cooperation with the National Park Service (NPS), the University of New Hampshire (UNH), and C&C Technologies (C&C).

Scientists will use the new map to study Crater Lake's biology, chemistry, geology, and other areas of interest. The new map is much more accurate than the last map made in 1959. The NPS will use this map to help preserve Crater Lake, and to help you enjoy the park on your next visit.

Location of Crater Lake National Park

## Crater Lake Mapping Team

James V. Gardner, USGS  
Larry A. Mayer, UNH  
Art Kleiner, C&C  
Mark Buktenica, NPS  
Scott Girdner, NPS  
Peter Dartnell, USGS  
Laurent Hellequin, USGS/UNH  
David Fitts, C&C  
John Petterson, C&C  
Drew Prudhomme, C&C  
Wes Kitts, C&C  
Greg Rothenour, Contractor
