Appendix G: Resources

FEDERAL AGENCIES WITH MAJOR INDOOR AIR RESPONSIBILITY FOR PUBLIC AND COMMERCIAL BUILDINGS

U.S. Environmental Protection Agency

Conducts a non-regulatory indoor air quality program that emphasizes research, information dissemination, technical guidance, and training. Issues regulations and carries out other activities that affect indoor air quality under the laws for pesticides, toxic substances, and drinking water.

Public Information Center

(PM-211B) 401 M Street, SW Washington, DC 20460 202-382-2080 Distributes indoor air quality publications.

National Pesticides Telecommunications

Network National toll-free number: 1-800-858-PEST In Texas: 806-743-3091 Provides information on pesticides.

202-554-1404 Provides information on asbestos and other toxic substances.

TSCA Hotline Service

Occupational Safety and Health Administration

Promulgates safety and health standards, facilitates training and consultation, and enforces regulations to ensure that workers are provided with safe and healthful working conditions. (For further information contact OSHA Regional Offices.)

National Institute for Occupational Safety and Health

Conducts research, recommends standards to the U.S. Department of Labor, and conducts training on various issues including indoor air quality to promote safe and healthful workplaces. Undertakes investigations at request of employees, employers, other federal agencies, and state and local agencies to identify and mitigate workplace problems.

OTHER FEDERAL AGENCIES WITH INDOOR AIR RESPONSIBILITIES

Bonneville Power Administration

P.O. Box 3621-RMRD Portland, OR 97208 503-230-5475

Provides radon-resistant construction techniques, source control, and removal technology for indoor air pollutants.

Consumer Product Safety Commission

5401 Westbard Avenue Bethesda, MD 20207 1-800-638-CPSC

Reviews complaints regarding the safety of consumer products and takes action to ensure product safety.

General Services Administration

18th and F Streets, NW Washington, DC 20405 202-501-1464

Writes indoor air quality policy for Federal buildings. Provides proactive indoor air quality building assessments. Assesses complaints and provides remedial action.

U.S. Department of Energy Office of Conservation and Renewable Energy

1000 Independence Avenue, SW, CE-43 Washington, DC 20585 202-586-9455

Quantifies the relationship among reduced infiltration, adequate ventilation, and acceptable indoor air quality.

U.S. Department of Health and Human Services

Office on Smoking and Health

National Center for Chronic Disease Prevention and Health Promotion Centers for Disease Control 1600 Clifton Road, NE Mail Stop K50 Atlanta, GA 30333 404-488-5705

Disseminates information about the health effects of passive smoking and strategies for eliminating exposure to environmental tobacco smoke.

Tennessee Valley Authority

Occupational Hygiene Department 328 Multipurpose Building Muscle Shoals, AL 35660 205-386-2314

Provides building surveys and assessments associated with employee indoor air quality complaints.

STATE AND LOCAL AGENCIES

Your questions and concerns about indoor air problems can frequently be answered most readily by the government agencies in your State or locality. Responsibilities for indoor air quality issues are usually divided among many different agencies. You will often find that calling or writing the agencies responsible for health or air quality control is the best way to start getting information from your State or local government. The EPA and Public Health Foundation publication, *Directory of State Indoor Air Contacts*, lists State agency contacts. (See publications list for information on ordering this publication.)
