Please join us for an open house and tour to learn about the FEDLINK Federal Scanning Center – FedScan. Housed at the Library of Congress, the center is open to all FEDLINK members.

FedScan offers digitization of library materials with high quality output (images and metadata), quick turnaround, long-term preservation and hosted public access all at very reasonable prices.

The FedScan center sessions will feature a description of the service, Q & A session and a tour of the facilities in the Adams Building.

Select from one of three sessions and plan to network with other information professionals interested in digitization.

For more information about FedScan, see the FAQ at [http://www.loc.gov/flicc/contracts/pdfs/FEDSCAN\\_IAFAQs.pdf](http://www.loc.gov/flicc/contracts/pdfs/FEDSCAN_IAFAQs.pdf).
