

# Division of Adolescent and School Health (DASH)

## Summary of DASH Tools

Tool	Purpose	Who Uses It	How It Is Used	Support Materials
<b>Food-Safe Schools Action Guide (FSSAG)</b>	To help schools work with Cooperative Extension, health departments, and families in efforts to make schools food-safe.	<ul style="list-style-type: none"> <li>Local-, regional-, and state-level school food service directors and managers</li> <li>Child nutrition program directors</li> <li>College/university food service professionals</li> <li>Health departments and Cooperative Extension staff</li> <li>School nurses, teachers, administrators, and parents</li> </ul>	A school-level team assesses the school environment by reviewing the information, resources, and recommendations contained in the multi-media toolkit. Various audiences (e.g., nurses, administrators, parents) use the customized materials to determine actions they can take to prevent, manage, and strengthen response to foodborne illness.	<ul style="list-style-type: none"> <li>Brochures</li> <li>How-to guides</li> <li>PowerPoint presentations</li> </ul>
<b>Improving the Health of Adolescents and Young Adults: A Guide for States and Communities</b>	To help guide individuals and organizations through public health processes that address the 21 Critical Health Objectives identified in Healthy People 2010 for adolescents and young adults.	Individuals and organizations at the state and local levels	This guide provides a process for defining problems, identifying solutions, and evaluating the impact of a coalition's work. It provides information on using data to shape programs, bringing stakeholders together, and sustaining a coalition.	<ul style="list-style-type: none"> <li>Promotion and evaluation materials</li> </ul>
<b>Making It Happen!</b>	To provide examples and success stories of 32 schools and school districts that have implemented innovative approaches to improve the nutritional quality of foods and beverages sold outside the school meals program.	School health advisory committees, wellness committee members, parents, students, administrators, and food service personnel	Any individual (e.g., principal, parent, school nurse, food service director, student) who wants to improve the food and beverage offerings outside of school meals can use MIH for practical ideas and examples of how to accomplish changes, how to overcome obstacles that may arise, and whom to involve.	<ul style="list-style-type: none"> <li>Fact sheets</li> <li>FAQs</li> </ul>

# Division of Adolescent and School Health (DASH) Summary of DASH Tools

Tool	Purpose	Who Uses It	How It Is Used	Support Materials
<b>Physical Education Curriculum Analysis Tool (PECAT)</b>  	To enable users to analyze written physical education curricula based on alignment with national standards, guidelines, and best practices for quality physical education programs.	<ul style="list-style-type: none"><li>District-level physical education coordinators, curriculum specialists, curriculum committees</li><li>School-level physical education departments, individual teachers</li><li>College/university physical education professionals</li></ul>	A committee completes the preliminary curriculum analyses (accuracy, acceptability, feasibility, and affordability), analyzes the content and student assessment components of the written curriculum, and develops a curriculum improvement plan.	<ul style="list-style-type: none"><li>Brochure</li><li>FAQs</li><li>PowerPoint presentations</li><li>User guides</li></ul>
<b>School Health Index: A Self-Assessment and Planning Guide (SHI)</b>  	To help schools assess and improve their health and safety policies and programs in the context of a coordinated school health program.	<ul style="list-style-type: none"><li>School-level health teams, councils, or committees consisting of administrators, teachers, parents, students, and community members</li><li>College/university health education professionals</li></ul>	A school health team completes eight self-assessment modules to identify strengths and weaknesses of school health policies and programs. A step-by-step action plan to improve prioritized areas is developed. The SHI currently addresses physical activity, healthy eating, tobacco use prevention, unintentional injury and violence prevention, and asthma.	<ul style="list-style-type: none"><li>Brochure</li><li>FAQs</li><li>Training manual</li></ul>
