Department of the Army

Final Environmental Assessment for BRAC 95 Disposal and Reuse of Hingham Cohasset (Hingham Training Annex), Massachusetts

AGENCY: Department of the Army, DOD.
ACTION: Notice of availability.

SUMMARY: In accordance with Public Law 101-510 (as amended), the Defense Base Closure and Realignment Act of 1990, the Defense Base Closure and Realignment Commission recommended the closure of Hingham Cohasset (Hingham Training Annex), MA.

The Final Environmental Assessment (EA) evaluates the environmental impacts of the disposal and subsequent reuse of the 125 acres.

DATES: Written public comments received by November 19, 1998 will be considered by the Army prior to initiating action.

ADDRESSES: A copy of the Final EA may be obtained by writing to Ms. Susan Holtham, Corps of Engineers, New England District, 696 Virginia Road, Concord, MA 01742-2751.

FOR FURTHER INFORMATION CONTACT: Ms. Susan Holtham at (978) 318-8536 or fax at (978) 318-8560.

SUPPLEMENTARY INFORMATION: Alternatives examined in the EA include encumbered disposal of the property, unencumbered disposal of the property, and no action. Encumbered disposal refers to transfer or conveyance of property having restrictions on subsequent use as a result of any Army-imposed or legal restraint. Under the no action alternative, the Army would not dispose of the property but would maintain it in caretaker status for an indefinite period.

While disposal of Hingham Cohasset (Hingham Training Annex) is the Army's primary action, the EA also analyzes the potential environmental effects of reuse as a secondary action by means of evaluating intensity-based reuse scenarios. The Army's preferred alternative for disposal of Hingham Cohasset (Hingham Training Annex) is encumbered disposal, with encumbrances pertaining to the possible presence of lead-based paint and asbestos-containing material, and the requirement for a right of reentry for environmental clean-up.

The Final EA will be made available for public comment during a 30-day waiting period after publication. A Notice of Intent (NOI) declaring the Army's intent to prepare an EA for the disposal and reuse of Hingham Cohasset was published in the **Federal Register** on September 22, 1995 (60 FR 49264).

Copies of the Final EA are available for review at the Hingham Library, 7 East Street, Hingham, Massachusetts and at the Paul Pratt Memorial Library, 106 South Main Street, Cohasset, Massachusetts.

Dated: October 14, 1998.

Raymond J. Fatz,
Deputy Assistant Secretary of the Army, (Environment, Safety and Occupational Health), OASA (IL&E).

SUPPLEMENTARY INFORMATION:

- I. Background
- II. Current Actions
- III. Request for Comments

I. Background

The Department of Energy Organization Act (42 U.S.C. 7101, *et seq.*), requires the Energy Information Administration (EIA) to carry out a central, comprehensive, and unified energy data and information program. This program involves the collection, evaluation, assembly, analysis, and dissemination of data and information related to energy resource reserves, production, demand, technology, and related economic and other statistical data, or information which is relevant to the adequacy of energy resources to meet demand in the near and longer term.

The EIA, as part of its effort to comply with the Paperwork Reduction Act of 1995, (44 U.S.C. Chapter 35), provides the general public and other Federal agencies with an opportunity to comment on collections of information. Any comments received during this process helps the EIA to prepare data requests that maximize the utility of information collected, and to assess the impact of collection activities conducted by or on behalf of the Federal Government on the public. The Director of the Office of Management and Budget (OMB) reviews and must approve (before the agency conducts) agency collections of information.

The Office of Fossil Energy (FE) of the Department of Energy is delegated the authority to regulate natural gas imports and exports under section 3 of the Natural Gas Act of 1938, 15 U.S.C. 717b.

In order to carry out its delegated responsibility, FE requires those persons seeking to import or export natural gas to file an application containing basic information about the scope and nature of the proposed import/export activity. FE collects, on a quarterly basis, certain information regarding import and export
