Affected Public: Not-for-profit institutions; State, local or Tribal Gov't; SEAs or LEAs.

Abstract: The National Assessment of Educational Progress is mandated by 1994 legislation. The surveys and assessments allow NAEP to describe the educational attainment of students in grades 4, 8 and 12. Each assessment is designed to obtain comprehensive data on the knowledge, skills, concepts, understandings, and attitudes possessed by American students. This assessment will cover the subjects of math, reading, and science. The field test contains new cognitive items, and new and revised background questions to be field tested in mathematics and science. Cognitive items only will be field tested in reading. The field test is necessary to make certain that all of the materials for the 2000 NAEP are of high quality and meet rigorous content and psychometric standards. Also requested for clearance is the 1998-1999 long-term trend

assessment for mathematics, science, reading, and writing which is identical to those used previously in 1986, 1990, 1992, 1994, and 1996.
