

# Genomics Forum

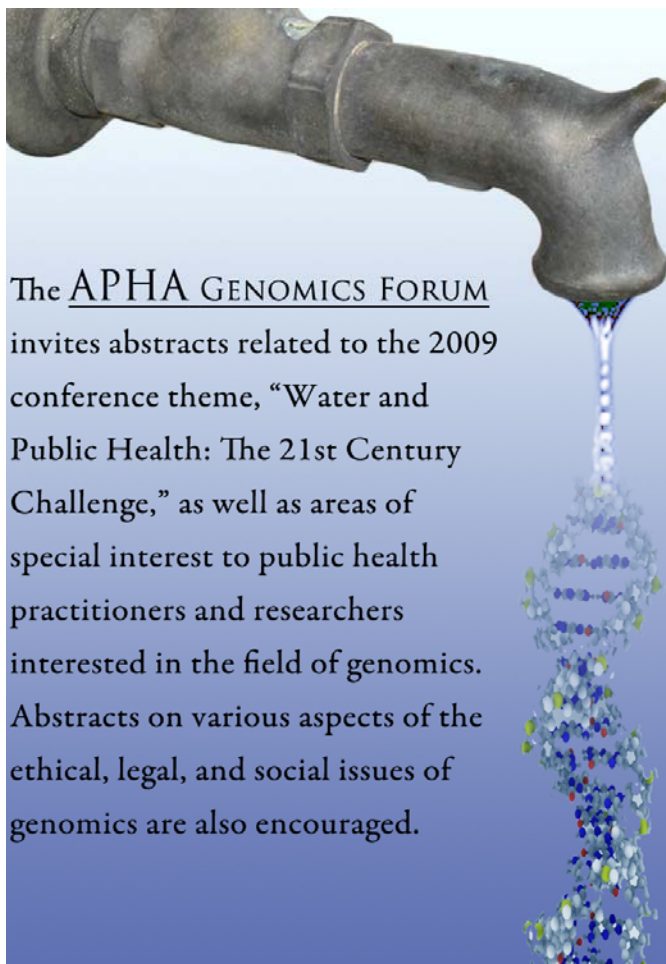

OF THE  
AMERICAN PUBLIC HEALTH ASSOCIATION

## CALL FOR ABSTRACTS

DECEMBER 19, 2008 - FEBRUARY 10, 2009

The APHA GENOMICS FORUM invites abstracts related to the 2009 conference theme, "Water and Public Health: The 21st Century Challenge," as well as areas of special interest to public health practitioners and researchers interested in the field of genomics. Abstracts on various aspects of the ethical, legal, and social issues of genomics are also encouraged.

### TOPICS OF INTEREST INCLUDE:

- Public health genomics in the developing world
- Environmental health
- Genomics and health disparities
- Public education and social justice/advocacy
- Communicating genetic and genomic risks to the public
- Translational research in genomics and public health education
- Genetic and molecular epidemiology
- Public health response to personalized medicine and pharmaceuticals
- Genomics and the use of electronic health records
- Novel applications of genomics to create partnerships and collaboration in public health
