Subject: US Dept agriculture - public comment on Commodity credit corp

conservation inovation grants -federal register of
3/29/04 vol 69 no 60 page 16400 -

this group doesn't seem to know what it is doing, why
it is doing it but it has its hands on hard earned
taxpayer dollars and is determined to spend every last
cent of it. I oppose and object to this program and
feel it is a waste of taxpayer dollars.
