SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Information Management Group, Office of the Chief Financial and Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment at the address specified above. Copies of the requests are available from Patrick J. Sherrill at the address specified above.

Title: School-level Expenditure
Survey Field Test.

Frequency: One time.

Affected Public: Businesses or other
for-profit; Not-for-profit institutions;
State, local or Tribal Gov't, SEAs or
LEAs.

*Reporting and Recordkeeping Hour
Burden:*

Responses: 525.

Burden Hours: 658.

Abstract: This field test would test the procedures and an instrument for collecting public school-level expenditure data from public school district financial officers and private school finance data from private school business officers. Currently, national school level finance data are not available from any source. The public

school component will satisfy the mandate from Congress for the development of school-level expenditure data collection. School-level expenditure data would allow for the comparison of per pupil expenditures, instructional and instructional support expenditures, and some program expenditures across school types, sizes, regions, and grade levels. Comparisons of the resource allocation and private schools could also be made.
