SUPPLEMENTARY INFORMATION:**General**

This notice implements section 116 of the Carl D. Perkins Vocational and Technical Education Act of 1998 (Act)

(Pub. L. 105–332), enacted October 31, 1998. In section 116(e) of the Act, Congress expresses its intent to fund programs that improve vocational and technical education. Section 116, which continues support for the Secretary to provide grants, cooperative agreements, and contracts for Native Americans to operate vocational and technical education projects, also gives the Secretary a strong mandate to expend Federal funds under the Native American Vocational and Technical Education Program on projects that improve vocational and technical education.

Under the IVEP, the predecessor to the NAVTEP, the Congress authorized the Secretary to provide financial assistance to Indian tribes and certain schools funded by the Department of the Interior to plan, conduct, and administer projects, or portions of projects, that are authorized by and consistent with the Carl D. Perkins Vocational and Applied Technology Education Act of 1990 (20 U.S.C. 2301 *et seq.*). Based on requests from tribal entities, the Secretary generally funded three types of projects. First, many tribal entities used funds to provide tribal members with their initial opportunity to receive vocational and technical education in a tribal setting. Second, tribal entities used grants to improve or expand existing vocational programs or develop new ones. Third, some tribal entities received grants each year to provide continuous funding for the same vocational education programs, services, or activities.

Section 116 of the Act changes many requirements under which the Secretary must administer the vocational and technical education program for Indians. Past grant recipients under the IVEP will find that statutory changes will have a noticeable impact on how tribal entities plan for and operate projects.

The following summary is intended to help the reader to become familiar with the significant changes in section 116 of the Act and the way in which these changes are reflected in the administration of the NAVTEP as compared with the IVEP.

Changes to the Program

(a) *Eligibility.* (1) Applications from a tribal organization may be submitted directly to the Secretary. Under the IVEP, Indian tribes were required to submit the applications of tribal organizations.

(2) Alaska Native entities are eligible to apply for and receive an award under the NAVTEP whereas, under the IVEP, they were not.

(3)(i) Bureau-funded schools proposing to use their awards to fund secondary vocational and technical education programs are no longer eligible for direct funding from the Secretary under the NAVTEP.

(ii) Although Bureau-funded schools proposing to fund secondary programs are not eligible to receive an award directly from the Secretary, an Indian tribe, tribal organization, Alaska Native entity, or eligible Bureau funded school may use its award to assist a secondary school operated or supported by the Bureau of Indian Affairs to carry out vocational and technical education programs.

(4) A Bureau-funded school that is not proposing a secondary program is eligible for assistance under the NAVTEP. Under the IVEP, Bureau-funded schools proposing postsecondary programs were not eligible for funding. This change will enable the Bureau-funded schools for which assistance is provided under the Tribally Controlled Schools Act to receive an award under the NAVTEP. (20 U.S.C. 2326(b)(1),(3), and (6))

(b) *Appeals process.* (1) Any applicant may request a hearing to review the Secretary's decision not to make an award under the NAVTEP, whereas under the IVEP only tribal organizations could request a hearing.

(2) The Secretary will implement the appeals process in accordance with the procedures in 34 CFR 401.23, except that the Secretary will accept a request for a hearing from any applicant denied funding under the NAVTEP. Any applicant denied funding under the competition outlined in this notice has 30 calendar days to make a written request to the Secretary for a hearing to review the Secretary's decision.

(c) *Authorized projects, services, activities.* (1) *Improvement.* Section 116(e) of the Act requires the Secretary to ensure that activities funded under the NAVTEP "will improve vocational and technical education programs..." (20 U.S.C. 2326(e)). Through this new provision Congress has expressed its intent that the Department generally not continue support of ongoing Indian vocational and technical education programs. Further, the requirement in section 116(e) of the Act, that projects funded under NAVTEP serve to improve (rather than merely sustain) vocational and technical education programs, aligns the NAVTEP with other programs authorized under the Act that require recipients of funds under the Act to develop challenging academic standards and improve vocational and technical education.

In light of section 116(e) of the Act, the Department generally does not intend to provide continuous funding for the same vocational education programs, services, or activities. The Department will, however, continue to support projects that develop new programs, services, or activities or improve or expand existing programs, services, or activities. In other words, the Department will support "expansion" or "improvements" that include, but are not limited to, the expansion of effective programs or practices; upgrading of activities, equipment, or materials; increasing staff capacity; adoption of new technology; modification of curriculum; or implementation of new policies to improve program effectiveness and outcomes.

The Secretary believes that some programs, services, and activities, by their very nature, improve vocational and technical education and thus meet the requirement of section 116(e) of the Act. The notice provides, for the convenience of potential applicants, examples of these types of programs, services, and activities. It may become necessary for the Secretary to modify the examples as the body of knowledge improves and today's leading-edge techniques and methodologies become commonplace.

(2) *Start of services to students.* Under the IVEP, some applicants delayed the start of projects for as much as six months. Those applicants delayed services in order to recruit students and staff. In light of section 116(e) of the Act, applicants under the NAVTEP should plan to start their vocational and technical education programs as soon as possible after receiving notification of an award. The Secretary strongly encourages applicants to start their programs no later than two months after receiving notification. Under IVEP, many applicants were able to start projects soon after receiving funding because of pre-award planning. For example, while developing their applications, these applicants reached tentative agreements with prospective staff to work on the project in the event funding was received. The applicants also advertised the possibility of vocational and technical education services becoming available and, therefore, were able to quickly attract students.

(3) *Support services.* In section 3(25), the Act now uses the term "support services" to refer to services that are related to curriculum modification, equipment modification, classroom modification, supportive personnel, and instructional aids. The Carl D. Perkins

Vocational and Applied Technology Education Act of 1990 used the term "supplementary services" to refer to those services. This change in terminology may create confusion for former grantees under the IVEP who, as a matter of practice, generally used the term "support services" to refer to dependent care, transportation, books, and supplies. In order to avoid confusion, under the NAVTEP the Secretary will use the term "direct assistance to students" to refer to tuition, dependent care, transportation, books, and supplies.

While the Act does not explicitly authorize the use of funds for direct assistance to students, the legislative history of the Act indicates that Congress intended to give eligible entities the flexibility to continue these services to the extent they were previously provided. In view of the legislative history and amendments to the Act, the Secretary believes the Congress intended to give eligible entities the flexibility to provide direct assistance to special populations under certain, limited circumstances.

The Secretary realizes the importance of this direct assistance to students and strongly encourages potential applicants to strengthen and multiply their efforts to coordinate with Federal, State, and local entities for the provision of these services.

(d) *Integration of services.* Funds under the NAVTEP may be integrated with assistance received from related programs in accordance with the provisions of Pub. L. 102-477, the Indian Employment, Training and Related Services Demonstration Act of 1992. Integration of services was not authorized under the IVEP.

(e) *Supplanting.* In accordance with section 311(a) of the Act, funds under this program may not be used to supplant non-Federal funds used to carry out vocational and technical education activities and tech-prep activities. Further, the prohibition against supplanting also means that grantees are required to use their negotiated restricted indirect cost rate under this program. (34 CFR 75.563). A supplanting provision did not apply to grantees under the IVEP.

Each year a few applicants propose to supplant tribal and other non-Federal funds with Federal funds in order to pay the costs of students' tuition, dependent care, transportation, books, supplies, and other costs associated with participation in a vocational and technical education program. With the new statutory prohibition against supplanting, the Secretary cautions applicants not to plan to use funds

under the NAVTEP to replace otherwise available non-Federal funding for "direct assistance to students" and family assistance programs.

Further, the Secretary is concerned that funds under the NAVTEP may be used to replace Federal student financial aid. The Secretary wishes to highlight that the statute does not authorize the Secretary to fund projects that serve primarily as entities through which students may apply for and receive tuition and other financial assistance.

(f) *Limitation on services.* Section 315 of the Act prohibits the use of funds received under the Act to provide vocational and technical education programs to students prior to the seventh grade.

(g) *Evaluation.* In order to ensure the high quality of NAVTEP projects and the achievement of the purposes of section 116 of the Act, this notice includes a requirement for projects to evaluate their quality and effectiveness. Along with being consistent with the Act's requirement that recipients measure levels of performance, the notice is harmonious with the Department's promotion of accountability and performance measures under the Government Performance and Results Act (GPRA).

Eligible Programs, Services, and Activities

(a) *Authorized programs.* Under this competition—

(1) The Secretary awards grants to carry out projects that improve vocational and technical education programs that are consistent with the purposes of the Act.

(2) In order to ensure that grants awarded will serve to improve vocational and technical education programs, the Secretary funds a vocational and technical education program, service, or activity that—

(i) Is new—was not provided by the applicant during the instructional term that preceded the request for funding under the NAVTEP;

(ii) Will improve or expand an existing vocational and technical education program; or

(iii) Inherently improves vocational and technical education.

(3) A program, service, or activity inherently improves vocational and technical education if it proposes to—

(i) Strengthen the academic, vocational, and technical skills of students participating in vocational and technical education programs—

(B) Through the integration of academics with vocational and technical education programs through a coherent sequence of courses to ensure learning in the core academic and vocational and technical subjects;

(ii) Expand the scope, depth, and relevance of curriculum, especially content that provides students with a comprehensive understanding of all aspects of an industry and a variety of hands-on, job-specific experiences;

(iii) Offer—

(A) Work-related experience, internships, cooperative education, school-based enterprises, entrepreneurship, community service learning, and job shadowing that are related to vocational and technical education programs;

(B) Coaching/mentoring and support services, extra help for students after school, on the weekends, and/or during the summers so they can meet higher standards;

(v) Perform research, development, demonstration, dissemination, evaluation and assessment, capacity building, and technical assistance.

(b) *Assistance to Bureau-funded secondary schools.* An Indian tribe, a tribal organization, an Alaska Native entity, or eligible Bureau-funded school that receives an award under this program may use all or a portion of the funds to provide assistance to a secondary school operated or supported by the Bureau of Indian Affairs to enable that school to carry out vocational and technical education programs.

(c) *Student stipends.* (1) A portion of an award under this program may be used to provide stipends to a student to help meet the costs of participation in a NAVTEP project.

(2) The student must—

(i) Be enrolled in a vocational and technical education project funded under this program;

(ii) Be in regular attendance in a NAVTEP project and meet the training institution's attendance requirement; and

(iii) Maintain satisfactory progress in his or her course of study according to the training institution's published standards for satisfactory progress.

(iv) Have an acute economic need that—

(A) Prevents participation in a project funded under this program; and

(B) Cannot be met through a work-study program.

(3) The amount of a stipend may be the greater of either the minimum hourly wage prescribed by State or local law, or the minimum hourly wage established under the Fair Labor Standards Act.

(4) A grantee may only award a stipend if the stipend combined with

other resources the student receives does not exceed the student's financial need. A student's financial need is the difference between the student's cost of attendance and the financial aid or other resources available to defray the student's cost of attending a NAVTEP project.

(5) To calculate the amount of a student's stipend, a grantee would multiply the number of hours a student actually attends vocational and technical education instruction by the amount of the minimum hourly wage that is prescribed by State or local law, or by the minimum hourly wage that is established under the Fair Labor Standards Act.

Example: If a grantee uses the Fair Labor Standards Act minimum hourly wage of \$6.15 and a student attends classes for 20 hours a week, the student's stipend would be \$123 for the week during which the student attends classes ($\$6.15 \times 20 = 123$).

(d) *Direct assistance to students.* (1) A grantee may provide direct assistance to a student if the following conditions are met:

(A) The recipient of the direct assistance must be an individual who is a member of a special population and who is participating in a NAVTEP project.

(B) Direct assistance may only be provided to an individual to the extent that it is needed to address barriers to the individual's successful participation in a NAVTEP project.

(C) Direct assistance to individuals must be part of a broader, more generally focused effort to address the needs of individuals who are members of special populations. Direct assistance to individuals who are members of special populations is not, by itself, a "program for special populations".

(D) Funds must be used to supplement, and not supplant, assistance that is otherwise available from non-Federal sources. For example, generally, a postsecondary educational institution could not use NAVTEP funds to provide child care for single parents if non-Federal funds previously were made available for this purpose, or if non-Federal funds are used to provide child care services for single parents participating in non-vocational programs and these services otherwise would have been available to vocational students in the absence of NAVTEP funds.

(2) In determining how much of the grant funds may be used for direct assistance to a student, a grantee must consider whether:

(A) The specific services to be provided are a reasonable and necessary

cost of providing programs for special populations.

(B) The amount of the grant that would be used for these services (both on an item-by-item basis and in the aggregate compared to the amount of the entire grant) would be consistent with the predecessor authority to fund support services under the IVEP.

Integration of Services

(a) A tribe, tribal organization, or Alaska Native entity receiving financial assistance under this program may integrate those funds with assistance received from related programs in accordance with the provisions of Pub. L. 102-477, the Indian Employment, Training and Related Services Demonstration Act of 1992 (25 U.S.C. 3401 *et seq.*).

(b) A tribe, tribal organization, or Alaska Native entity wishing to integrate funds must have a plan that meets the requirements of the Indian Employment, Training and Related Services Demonstration Act of 1992 (25 U.S.C. 3401 *et seq.*) and is acceptable to the Secretary of the Interior and the Secretary of Education.

Special Considerations

In addition to the points to be awarded to applicants based on the selection criteria, under section 116(e) of the Act the Secretary awards—

(a) Up to 10 points to applications that propose exemplary approaches that involve, coordinate with, or encourage tribal economic development plans; and

(b) Five points to applications from tribally controlled colleges or universities that—

(1) Are accredited or are candidates for accreditation by a nationally recognized accreditation organization as an institution of postsecondary vocational and technical education; or

(2) Operate vocational and technical education programs that are accredited or are candidates for accreditation by a nationally recognized accreditation organization and issue certificates for completion of vocational and technical education programs. (20 U.S.C. 2326(e)).

Additional Factors

After evaluating applications according to the selection criteria in this notice, the Secretary may select other than the most highly rated applications for funding if doing so would—

(a) Permit the funding of more cost-effective projects;

(b) Prevent the duplication of an effort already being made;

(c) Create a more equitable distribution of funds under this competition among Indian tribes, tribal organizations, Alaska Native entities, or eligible Bureau-funded schools;

(d) Prevent the funding of an applicant who performed poorly under a previous award under this program, especially one who failed to accomplish the project objectives; or

(e) Permit the funding of a variety of approaches for carrying out the activities under the NAVTEP.

Program Requirements

To ensure the high quality of NAVTEP projects and the achievement of the goals and purposes of section 116(e) of the Act, the Secretary establishes the following program requirements:

(a) *Evaluation.* (1) Each grantee shall budget for and conduct an ongoing evaluation of its effectiveness. An

independent evaluator must conduct the evaluation.

(2) The evaluation must—

(i) Be appropriate for the project and be both formative and summative in nature;

(ii) Include performance measures that are clearly related to the intended outcomes of the project and the GPRA core factors for the NAVTEP;

(iii) Measure the effectiveness of the project, including a comparison between the intended and observed results, and a demonstration of a clear link between the observed results and the specific treatment given to project participants;

(iv) Measure the extent to which information about or resulting from the project was disseminated and the ease by which project activities and results were replicated at other sites, such as through the grantee's development and use of guides or manuals that provide step-by-step directions for practitioners to follow when initiating similar efforts and reproducing comparable results; and

(v) Measure the long-term impact of the project, *e.g.*, follow-up data on students' employment, sustained employment, promotions, advancement in the military, further/continuing education or training, or the impact the project had on tribal economic development or vocational and technical education activities offered by tribes.

(3) A proposed project evaluation design must be submitted to the Department for review and approval prior to the end of the first six months of the project period.

(4) As required in paragraph (b)(2) of the "PROGRAM REQUIREMENTS" section of this notice, the results of the evaluation must be submitted to the Secretary along with the annual performance report.

(b) *Reporting.* Each grantee shall submit to the Secretary the following reports—

(1) A semi-annual performance report, unless the Secretary requires more frequent reporting, summarizing significant project accomplishments and, if applicable, barriers impeding progress and steps taken to alleviate those barriers.

(2) A performance report must include—

(i) A comparison of actual accomplishments to the objectives established for the period. Describe any problems, delays, or adverse conditions that materially impair the ability of the project to accomplish its purposes, along with the reasons for slippage and

an explanation of any action taken or contemplated to resolve the difficulties;

(ii) A description of any favorable developments that will permit the project to accomplish its purposes sooner, at less cost, or more effectively than projected; and

(iii) A statistical report covering quantitative analyses of—

(A) The extent to which the project achieved its goals with respect to enrollment, completion, and placement (into additional training or education, military service, or employment) of participants for the most recently completed training cycle(s) by gender and by courses of study for which instruction was provided;

(B) The number and kind of academic, vocational and technical, and work credentials and competencies acquired and demonstrated by individuals participating in the project, including the number of those who have completed the education and training offered by the project. Grantees should also report students' participation in programs providing instruction at the associate degree level that is articulated with an advanced degree option; and

(C) The number of referrals to social or related services that were intended to improve the extent to which participants benefit from the project (*e.g.*, referring a student to an agency that will help her to obtain child care or health care, which would result in improved classroom attendance) or to prepare for or obtain employment.

(3) An annual evaluation report that is submitted along with the annual performance report. (Approved by the Office of Management and Budget under Control Number 1830-0542)

Indian Self-Determination Contracts

Section 116(b)(2) of the Act provides that grants or contracts awarded under section 116 are subject to the terms and conditions of section 102 of the Indian Self-Determination Act (ISDA)(25 U.S.C. 450f) and shall be conducted in accordance with the provisions of sections 4, 5, and 6 of the Act of April 16, 1934, which are relevant to the programs administered under section 116(b). Section 102 of the ISDA authorizes Indian tribes to request self-determination contracts. Accordingly, an Indian tribe or tribal organization that has applied to the Secretary for financial assistance under the NAVTEP and has been notified of its selection to be a recipient of financial assistance may submit a request to operate its NAVTEP project through a section 102 Indian self-determination contract.

In accordance with section 102(a) of the ISDA, any tribe or tribal

organization requesting to operate its project under an Indian self-determination contract must do so by tribal resolution. After successful applicants are selected under the competition announced in this notice, the Secretary will review any such requests pursuant to the ISDA. If a request for an Indian self-determination contract is approved, the Indian tribe or tribal organization submitting the request will be required, to the extent possible, to operate its project in accordance with the terms of the ISDA, as well as in accordance with the relevant provisions of the NAVTEP statute and the program requirements established in this notice. As with grants, self-determination contracts under the NAVTEP are limited to a 36-month period and subject to the availability of funds. The vocational and technical education programs, services, and activities provided through an Indian self-determination contract would have to be essentially the same as were proposed in the initial application and approved by the Department. Any tribe or tribal organization that is successful under the competition announced in this notice and is selected to receive funding, but whose request for an Indian self-determination contract is denied, may appeal the denial to the Secretary. If you have questions about ISDA self-determination contracts, please contact the staff listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

Government Performance and Results Act (GPRA)

The Government Performance and Results Act of 1993 (GPRA) places new management expectations and requirements on Federal departments and agencies by creating a framework for more effective planning, budgeting, program evaluation, and fiscal accountability for Federal programs. The intent of the Act is to improve public confidence by holding departments and agencies accountable for achieving program results. Departments and agencies must clearly describe the goals and objectives of their programs, identify resources and actions needed to accomplish these goals and objectives, develop a means of measuring progress made, and regularly report on their achievement. One important source of program information on successes and lessons learned is the project evaluation conducted under individual grants. NAVTEP grantees shall include the following core factors in evaluating the success of their projects:

(a) *Students master academic knowledge and skills that meet challenging State defined (at the secondary level) or program defined (at the postsecondary level) academic standards as measured by—*

(1) At the secondary level, an increase in the number of vocational and technical education students who show increased score gains in language arts, mathematics, science, and social studies; and

(2) At the postsecondary level, an increase in the number of vocational and technical education students who receive degrees, certificates, or credentials.

(b) *Students master the knowledge and skills that meet State established (at the secondary level) or program established (at the postsecondary level), industry-validated vocational and technical skill standards as measured by—*

(1) An increase in the number of programs with industry-recognized skill standards so students can earn skill certificates in those programs; and

(2) An increase in the number of programs offering skill competencies, related assessments, and industry-recognized skills certificates in secondary and postsecondary institutions.

(c) *Student attainment of a secondary school diploma or its State-recognized equivalent, proficiency credentials in conjunction with a secondary school diploma, or a postsecondary degree or credential as measured by an increase in the number of vocational and technical education students who—*

(1) At the secondary level—
(i) Attain high school diplomas; or
(ii) Attain a proficiency credential in conjunction with a secondary school diploma or its State-recognized equivalent; or

(2) At the postsecondary level, attain postsecondary degrees, certificates, and credentials.

(d) *Placement in, retention in, and completion of, postsecondary education or advanced training, placement in military services, or placement or retention in employment as measured by an increase in the number of vocational and technical education students who—*

(1) Graduate from secondary programs and enter postsecondary programs;

(2) Graduate from postsecondary programs and enter advanced degree programs or advanced training;

(3) Remain in and/or complete a postsecondary degree or certificate program;

(4) Are placed in military service; or

(5) Are placed in a job, upgraded in a job, or retain employment.

(e) *Student participation in and completion of vocational and technical education programs that lead to nontraditional training and employment as measured by an increase in the number of vocational and technical education students who—*

(1) Enroll in nontraditional training programs; and

(2) Secure employment in nontraditional job/careers. (Approved by the Office of Management and Budget under Control Number 1830-0542)

Waiver of Rulemaking

Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed program requirements before they are implemented. However, section 437(d)(1) of the General Education Provisions Act exempts from formal rulemaking requirements, regulations governing the first grant competition under a new or substantially revised program authority (20 U.S.C. 1232(d)(1)). The program authority for what was formerly known as the Indian Vocational Education Program was substantially revised on October 31, 1998 by section 116 of Pub. Law 105-332. In order to make awards on a timely basis, the Assistant Secretary has decided to publish this notice of program requirements without requesting public comment, under the authority of section 437(d)(1). Any requirements, criteria, or regulations that the Department establishes for future competitions will be published in proposed form in the **Federal Register** with an opportunity for interested persons to comment.

The Assistant Secretary is not promulgating any regulations through this notice applicable to section 116(b)(2) of the Act, relating to certain sections of the Indian Self-Determination Act and the Act of April 16, 1934. However, the Assistant Secretary is interested in receiving future public comment and suggestions on the Department's implementation of section 116 of the Act and on whether any regulations may be needed in the future. Please send written public comments on this issue to Sharon A. Jones, Division of National Programs, Office of Vocational and Adult Education, U.S. Department of Education, 400 Maryland Avenue, SW. (Room 4515, Mary E. Switzer Building), Washington, DC 20202-7242. Telephone (202) 205-9870. Internet addresses: sharon_jones@ed.gov.

Appendix B

Potential applicants frequently direct questions to officials of the Department regarding application notices and

programmatic and administrative regulations governing various direct grant programs. To assist potential applicants, the Department has assembled the following most commonly asked questions followed by the Department's answers.

Q. Can we get an extension of the deadline?

A. No. A closing date may be changed only under extraordinary circumstances. Any change must be announced in the **Federal Register** and must apply to all applications. Waivers for individual applications cannot be granted regardless of the circumstances.

Q. How many copies of the application should I submit and must they be bound?

A. Applicants are required to submit one original and two copies of the grant application. To aid with the review of applications, the Department encourages applicants to submit four additional copies of the grant application. The Department will not penalize applicants who do not provide additional copies. The binding of applications is optional.

Q. We just missed the deadline for the XXX competition. May we submit under another competition?

A. Yes, however, the likelihood of success is not good. A properly prepared application must meet the specifications of the competition to which it is submitted.

Q. I'm not sure which competition is most appropriate for my project. What should I do?

A. We are happy to discuss any such questions with you and provide clarification on the unique elements of the various competitions.

Q. Will you help us prepare our application?

A. We are happy to provide general program information. Clearly, it would not be appropriate for staff to participate in the actual writing of an application, but we can respond to specific questions about application requirements, evaluation criteria, and the priorities. Applicants should understand, however, that prior contact with the Department is not required, nor will it in any way influence the success of an application.

Q. When will I find out if I'm going to be funded?

A. You can expect to receive notification within 3 to 4 months of the applications received and the number of Department competitions with similar closing dates.

Q. Once my application has been reviewed by the review panel, can you tell me the outcome?

A. No. Every year we are called by a number of applicants who have a legitimate reason for needing to know the outcome of the panel review prior to official notification. Some applicants need to make job decisions, some need to notify a local school district, etc. Regardless of the reason, because final funding decisions have not been made at that point, we cannot share information about the results of the panel review with anyone.

Q. Will my application be returned if I am not funded?

A. No. We no longer return unsuccessful applications. Thus, applicants should retain at least one copy of the application.

Q. Can I obtain copies of reviewers' comments?

A. Upon written request, reviewers' comments will be mailed to unsuccessful applicants.

Q. If my application receives high scores from the reviewers, does that mean that I will receive funding?

A. Not necessarily. It is often the case that the number of applications scored highly by the reviewers exceeds the dollars available for funding projects under a particular competition. The order of selection, which is based on the scores of all the applications reviewed and other relevant factors, determines the applications that can be funded.

Q. What happens during pre-award clarification discussions?

A. During pre-award clarification discussions, technical and budget issues may be raised. These are issues that have been identified during the panel and staff reviews that require clarification. Sometimes issues are stated as "conditions." These are issues that have been identified as so critical that the award cannot be made unless those conditions are met. Questions may also be raised about the proposed budget. Generally, these issues are raised because an application contains inadequate justification or explanation of a particular budget item, or because the budget item seems unimportant to the successful completion of the project. If you are asked to make changes that you feel could seriously affect the project's success, you may provide reasons for not making the changes or provide alternative suggestions. Similarly, if proposed budget reductions will, in your opinion, seriously affect the project activities, you may explain why and provide additional justification for the proposed expenses. An award cannot be made until all issues under discussion have been resolved.

Q. How do I provide an assurance?

A. Except for SF-424B, "Assurances—Non-Construction Programs," you may provide an assurance simply by stating in writing that you are meeting a prescribed requirement.

Q. Where can copies of the Federal Register, Education Department General Administrative Regulations (EDGAR), and Federal statutes be obtained?

A. Copies of these materials can usually be found at your local library. If not, they can be obtained from the Government Printing Office by writing to Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. Telephone: (202) 708–8228. When requesting copies of regulations or statutes, it is helpful to use the specific name of the public law, number of a statute, or part number of a regulation. The material referenced in this notice should be referred to as follows:

- (1) The Carl D. Perkins Vocational and Technical Education Act of 1998.
- (2) Education Department General Administrative Regulations, 34 CFR parts 74, 75, 77, 80, 81, 82, 85, 86, 97, 98, and 99.

Copies of these materials may also be found on the World Wide Web at <http://www.access.gpo.gov/nara>.

This date must be no earlier than one year before the receipt date for which the application is submitted and must include the four (4) digit year (e.g., 2000). Check the type of IRB review in the appropriate box. An IRB may use the expedited review procedure if it complies with the requirements of 34 CFR 97.110. If the IRB review is delayed beyond the submission of the application, enter "Pending" in item 12c. If your application is recommended/selected for funding, a follow-up certification of IRB approval from an official signing for the applicant organization must be sent to and received by the designated ED official within 30 days after a specific formal request from the designated ED official. **If the applicant organization does not have** on file with GPOS or OPRR an approved Assurance of Compliance that covers the proposed research activity, enter "None" in item 12b and skip 12c. In this case, the applicant organization, by the signature on the application, is declaring that it will comply with 34 CFR 97 within 30 days after a specific formal request from the designated ED official for the Assurance(s) and IRB certifications.

13. **Project Title.** Enter a brief descriptive title of the project. If more than one program is involved, you should append an explanation on a separate sheet. If appropriate (e.g., construction or real property projects), attach a map showing project location. For preapplications, use a separate sheet to provide a summary description of this project.
14. **Estimated Funding.** Amount requested or to be contributed during the first funding/budget period by each contributor. Value of in-kind contributions should be included on appropriate lines as applicable. If the action will result in a dollar change to an existing award, indicate only the amount of the change. For decreases, enclose the amounts in parentheses. If both basic and supplemental amounts are included, show breakdown on an attached sheet. For multiple program funding, use totals and show breakdown using same categories as item 14.
15. **Certification.** To be signed by the authorized representative of the applicant. A copy of the governing body's authorization for you to sign this application as official representative must be on file in the applicant's office.

Be sure to enter the telephone and fax number and e-mail address of the authorized representative. Also, in item 15e, please enter the month, date, and four (4) digit year (e.g., 12/12/2000) in the date signed field.

PROTECTION OF HUMAN SUBJECTS IN RESEARCH (Attachment to ED 424)

I. Instructions to Applicants about the Narrative Information that Must be Provided if Research Activities Involving Human Subjects are Planned

If you marked item 12 on the application "Yes" and designated exemptions in 12a, (**all research activities are exempt**), provide sufficient information in the application to allow a determination that the designated exemptions are appropriate. Research involving human subjects that is exempt from the regulations is discussed under II.B. "Exemptions," below. The Narrative must be succinct. **Provide this information in an "Item 12/Protection of Human Subjects Attachment" and insert this attachment immediately following the ED 424 face page.**

If you marked "Yes" to item 12 on the face page, and designated no exemptions from the regulations (**some or all of the research activities are nonexempt**), address the following six points for each nonexempt activity. In addition, if research involving human subjects will take place at collaborating site(s) or other performance site(s), provide this information before discussing the six points. Although no specific page limitation applies to this section of the application, be succinct. Provide the six-point narrative and discussion of other performance sites in an **"Item 12/Protection of Human Subjects Attachment" and insert this attachment immediately following the ED 424 face page.**

(1) Provide a detailed description of the proposed involvement of human subjects. Describe the characteristics of the subject population, including their anticipated number, age range, and health status. Identify the criteria for inclusion or exclusion of any subpopulation. Explain the rationale for the involvement of special classes of subjects, such as children, children with disabilities, adults with disabilities, persons with mental disabilities, pregnant women, prisoners, institutionalized individuals, or others who are likely to be vulnerable.

(2) Identify the sources of research material obtained from individually identifiable living human subjects in the form of specimens, records, or data. Indicate whether the material or data will be obtained specifically for research purposes or whether use will be made of existing specimens, records, or data.

(3) Describe plans for the recruitment of subjects and the consent procedures to be followed. Include the cir-

cumstances under which consent will be sought and obtained, who will seek it, the nature of the information to be provided to prospective subjects, and the method of documenting consent. State if the Institutional Review Board (IRB) has authorized a modification or waiver of the elements of consent or the requirement for documentation of consent.

(4) Describe potential risks (physical, psychological, social, legal, or other) and assess their likelihood and seriousness. Where appropriate, describe alternative treatments and procedures that might be advantageous to the subjects.

(5) Describe the procedures for protecting against or minimizing potential risks, including risks to confidentiality, and assess their likely effectiveness. Where appropriate, discuss provisions for ensuring necessary medical or professional intervention in the event of adverse effects to the subjects. Also, where appropriate, describe the provisions for monitoring the data collected to ensure the safety of the subjects.

(6) Discuss why the risks to subjects are reasonable in relation to the anticipated benefits to subjects and in relation to the importance of the knowledge that may reasonably be expected to result.

II. Information on Research Activities Involving Human Subjects

A. Definitions.

A research activity involves human subjects if the activity is research, as defined in the Department's regulations, and the research activity will involve use of human subjects, as defined in the regulations.

—Is it a research activity?

The ED Regulations for the Protection of Human Subjects, Title 34, Code of Federal Regulations, Part 97, define research as "a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge." *If an activity follows a deliberate plan whose purpose is to develop or contribute to generalizable knowledge, such as an exploratory study or the collection of data to test a hypothesis, it is research.* Activities which meet this definition constitute research whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

—Is it a human subject?

The regulations define human subject as “a living individual about whom an investigator (whether professional or student) conducting research obtains (1) data through intervention or interaction with the individual, or (2) identifiable private information.” (1) *If an activity involves obtaining information about a living person by manipulating that person or that person’s environment, as might occur when a new instructional technique is tested, or by communicating or interacting with the individual, as occurs with surveys and interviews, the definition of human subject is met.* (2) *If an activity involves obtaining private information about a living person in such a way that the information can be linked to that individual (the identity of the subject is or may be readily determined by the investigator or associated with the information), the definition of human subject is met.* [Private information includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a school health record).]

B. Exemptions.

Research activities in which the only involvement of human subjects will be in one or more of the following six categories of *exemptions* are not covered by the regulations:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (a) research on regular and special education instructional strategies, or (b) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (a) information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and (b) any disclosure of the human subjects’ responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects’ financial standing, employability, or reputation. *If the subjects are children, this exemption applies only to research involving educational tests or observations of pub-*

lic behavior when the investigator(s) do not participate in the activities being observed. [Children are defined as persons who have not attained the legal age for consent to treatments or procedures involved in the research, under the applicable law or jurisdiction in which the research will be conducted.]

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior that is not exempt under section (2) above, if the human subjects are elected or appointed public officials or candidates for public office; or federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine: (a) public benefit or service programs; (b) procedures for obtaining benefits or services under those programs; (c) possible changes in or alternatives to those programs or procedures; or (d) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (a) if wholesome foods without additives are consumed or (b) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection Agency or the Food Safety and Inspection Service of the U.S Department of Agriculture.

Copies of the Department of Education’s Regulations for the Protection of Human Subjects, 34 CFR Part 97 and other pertinent materials on the protection of human subjects in research are available from the Grants Policy and Oversight Staff (GPOS) Office of the Chief Financial and Chief Information Officer, U.S. Department of Education, Washington, D.C., telephone: (202) 708-8263, and on the U.S. Department of Education’s Protection of Human Subjects in Research Web Site at <http://ocfo.ed.gov/humansub.htm>.

OMB Control No. 1801-0004 (Exp. 8/31/2001)

NOTICE TO ALL APPLICANTS

The purpose of this enclosure is to inform you about a new provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Pub. L. 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **ALL APPLICANTS FOR NEW AWARDS MUST INCLUDE INFORMATION IN THEIR APPLICATIONS TO ADDRESS THIS NEW PROVISION IN ORDER TO RECEIVE FUNDING UNDER THIS PROGRAM.**

(If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.)

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers

that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

- (1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.
- (2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.
- (3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

Estimated Burden Statement for GEPA Requirements

The time required to complete this information collection is estimated to vary from 1 to 3 hours per response, with an average of 1.5 hours, including the time to review instructions, search existing data resources, gather and maintain the data needed, and complete and review the information collection. **If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, please write to:** U.S. Department of Education, Washington, DC 20202-4651.
