DEPARTMENT OF EDUCATION

[CFDA No. 84.926B]

Office of Elementary and Secondary Education—Arts in Education Competitive Grant Program; Notice Inviting Applications for New Awards for Fiscal Year (FY) 2000

Purpose of Program

The goal of this grant competition is to provide assistance to local educational agencies (LEAs) on behalf of eligible schools to support media

literacy projects. "Media literacy" refers to the ability to understand and interpret the artistic content of images, including violent messages, transmitted through the electronic media.

SUPPLEMENTARY INFORMATION:

Background

Many studies have explored the relationship between children's viewing of violence through the media and their engaging in violent behavior. While there is little consensus among these studies regarding the impact that the electronic media have on youth violence, the Secretary believes that instruction that helps young people to critically analyze media messages about violence can help to prevent youth violence. Accordingly, this grant competition focuses on media literacy projects that include opportunities for youth to engage in non-violent, innovative arts programming. These projects will support model partnerships between schools and arts-based organizations to demonstrate new methods of improving the interpretive and creative skills of young people in dealing with the media arts. Young people will learn how to interpret the messages they receive on a daily basis through the media, and also how to engage in the creative process in developing better alternatives to media programming that include violent content.

Today's students—tomorrow's citizens and leaders in our democracy—will need a different set of understandings and skills in communications if they are to succeed in the global society and economy that are fueled by new media technologies. CD-ROMs, video games, music videos, interactive communications facilitated by personal computers, and the World Wide Web, as well as such older electronic media as television shows, movies, and recorded music, command an increasing amount of the attention and time of our children. We must help them learn to "read" and evaluate images as well as text. These technologies can be used to create and communicate ideas that portray alternatives to violence, drug use, and disrespect.

Eligible Applicants: LEAs with one or more schools where 75 percent or more of the children are from low-income families, based on the poverty criteria described in Title I Section 1113(a)(5) of the Elementary and Secondary Education Act. Applicants must submit evidence of their eligibility. For this purpose applicants may submit records kept for the purpose of Title I of the Elementary and Secondary Education

Act that demonstrates that proof of eligibility.

Note: Potential applicants are reminded that, under the absolute priority published elsewhere in this notice, the Secretary will only fund under this competition media literacy projects in *schools* where the number of children from low-income families equals or exceeds 75 percent.

Applications Available: May 22, 2000.
Deadline for Transmittal of Application: July 21, 2000.

Deadline for Intergovernmental Review: August 21, 2000.

Estimated Available Funds: \$990,000.
Estimated Range of Awards: \$50,000 to \$150,000.

Estimated Average Size of Awards: \$100,000.

Estimated Number of Awards: 8–10.
Project Period: Up to 36 months.

Note: The Department is not bound by any estimates in this notice. Funding estimates are for the first year of the project period only. Funding for the second and third years is subject to the availability of funds and the approval of continuation awards (34 CFR 75.253).

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR Parts 75, 77, 79, 80, 81, 82, 85, 86, 97, 98, and 99.

Priority: Absolute Priority: The Secretary gives absolute priority to media literacy projects, implemented in schools where the number of children from low-income families equals or exceeds 75 percent, that are designed both to: (1) enable students in those schools to critically interpret and analyze the images, including violent messages, transmitted through the electronic media, and (2) help students in those schools to create their own media-based arts projects presenting alternative non-violent messages through the use of film, video, hypermedia, website design and other contemporary communications media. Applicants should clearly state in the abstract how their application addresses both elements of this priority. Only projects that meet both elements of this priority will be considered for funding.

Selection Criteria: The Secretary uses the selection criteria published in 34 CFR 75.209 and 75.210 to evaluate applications for the Arts in Education Competitive Grant Program. The application package includes the selection criteria and the points assigned to each criterion.

Waiver of Proposed Rulemaking: It is the Secretary's practice, in accordance with the Administrative Procedure Act (5 U.S.C. 553) to offer interested parties the opportunity to comment on proposed rules. Section 437(d)(1) of the

General Education Provisions Act (GEPA), however, exempts from this requirement rules that apply to the first competition under a new or substantially revised program. Funding was provided for this new initiative in the fiscal year 2000 appropriations act enacted in October 1999. The Secretary, in accordance with section 437(d)(1) of GEPA, has decided to forego public comment in order to ensure timely grant awards.

Issued in Washington, DC on April 28, 2000.

Michael A. Mikolanis,

Office of the Departmental Representative to the Defense Nuclear Facilities Safety Board.

The Honorable John T. Conway, Chairman, Defense Nuclear Facilities Safety Board, 625 Indiana Avenue, NW, Suite 700, Washington, DC 20004-2901

Dear Mr. Chairman: The Department of Energy (DOE) acknowledges receipt of Defense Nuclear Facilities Safety Board (Board) Recommendation 2000-2, issued on March 8, 2000, regarding safety systems vital to the protection of the public, workers, and the environment. Along with the analysis contained in the March 2000 assessment prepared by the Office of the Assistant Secretary for Environment, Safety and Health on the impact of safety program weaknesses upon ventilation and confinement ventilation systems that perform safety functions, the

DOE has completed a preliminary analysis of the issues raised in the Board's recommendation. The conclusions drawn from both of these analyses are consistent with the safety issues described in Recommendation 2000-2.

The Department accepts the recommendations contained in Recommendation 2000-2 and will develop an implementation plan to accomplish the following actions:

1. Development of expert-based guidelines for surveying and assessing confinement ventilation systems and implementation of a plan to identify and correct root cause deficiencies.

2. Incorporation of open commitments remaining in the action plan addressing safety issues related to High Efficiency Particulate Air filters.

3. Evaluation of existing practices and industry models for use in establishing a cognizant system engineer concept to strengthen the engineering resources available for facility configuration management.

4. Assessment of the availability and sufficiency of DOE expertise, identification of actions necessary to ensure expertise can be brought to bear in the life-cycle management of vital safety systems and that Federal technical expertise on safety systems is available to interface with operating contractors when significant system problems arise.

5. Review of line oversight of contractor programs to determine whether safety systems, as well as programs essential to system operability, are being included in those programs. As necessary, identify corrective actions to improve implementation of line oversight programs.

I have asked Mr. Steven Cary, Senior Advisor to the Assistant Secretary for Environment, Safety and Health, to serve as the responsible manager for this recommendation. Mr. Cary will be the principal point of contact with the Board for this recommendation, and he will work with you and your staff to develop an acceptable implementation plan that meets our mutual expectations. If you have questions, please contact him at (202) 586-6151.

Yours sincerely,

Bill Richardson
