

[Proposed class or classes of copyrighted work(s) to be exempted]= DVD's and Music CD's.

[Brief summary of the argument(s) in support of the exemption proposed above]= As a father of 2, we have purchased DVD movies and music CD's for our kid's entertainment. On trips we have saved the DVD movies to the hard drive of a laptop computer to be able to watch them while on the road, hotel, or airplane. This way we don't have the kids damaging or loosing the original DVDs. As I understand the proposed the changes I will no longer be able to use DVD's or Music CD's in this way.
