

[Proposed class or classes of copyrighted work(s) to be exempted]= ALL classes

[Brief summary of the argument(s) in support of the exemption proposed above]= I used to be able to make archival copies of the electronic content that I purchased to avoid having to repurchase it again due to the fragile media being used to contain my purchased content. Now, not only is that ability being taken away, but even conversing about ways to copy the content is being made "actionable". Shameful! It takes away our First Amendment rights.
