

OFFICE OF FOREIGN ASSETS CONTROL

CHANGES TO LIST OF SPECIALLY DESIGNATED NATIONALS AND BLOCKED PERSONS

SINCE JANUARY 1, 1995

The following changes have occurred with respect to the Office of Foreign Assets Control Listing of Specially Designated Nationals and Blocked Persons since January 1, 1995:

• 01/10/95

To provide further guidance to existing prohibitions, FAC added hundreds more names to the list of Specially Designated Nationals and Blocked Persons—166 of these are Libyan (147 variations on the names of state-owned entities and 19 individual officials) and the rest are Iraqi (6 variations on the names of state-owned banks and 60 variations on the names of individual officials). FAC updated information for certain Iraqi individuals already listed as SDN's (as indicated at the conclusion of the entries for today's date). In preparation for the release of a "delimited" SDN list, FAC also swept the SDN list to make entries consistent with regard to "Street" rather than "St.," "Place" rather than "Pl.," "Road" rather than "Rd.," "Avenue" or "Avenida" rather than "Ave."

The names of the following Libyan government officials were specifically added to the list as Specially Designated Nationals of Libya:

The new entries are footnoted as follows:

"* No U.S. person may deal with any Libyan or Iraqi government official whether his name appears on this list or not. As a service to the users of this list, a few of Libya's and Iraq's highest-level government officials have been listed as SDN's of Libya and Iraq. This is not an exhaustive list of Libyan or Iraqi government officials, and the absence of the name of a Libyan or Iraqi government official from this list does not relieve U.S. persons from the responsibility to refrain from dealing with that official."

New procedures for clearing funds transfers involving North Korea:

U.S. financial institutions may now rely on originators or beneficiaries of funds transfers with regard to compliance with the sanctions against North Korea and are authorized by general license to process the post-February 14, 1995 transfer of funds in which North Korea or a national thereof has an interest. Persons subject to U.S. jurisdiction who are originators or ultimate beneficiaries of such funds transfers, however, including U.S. banking institutions that are themselves originators or beneficiaries, may not initiate or receive such transfers if the underlying transactions to which they relate are prohibited. Specific licenses may be issued on a case-by-case basis to authorize the unblocking of funds that were blocked by financial institutions pursuant to this part because of an interest of North Korea or a national thereof, that came into the financial institution's possession or control by wire transfer or check remittance prior to the effective date of the general license authorizing such activity. Such licenses will only authorize the return of funds to remitting parties, pro-

vided that no funds are released to the Government of North Korea, to any entity controlled by the Government of North Korea, to any person located in or controlled from North Korea, or to any entity organized under the laws of North Korea.
