

between pipelines and their affiliates as well as transactions between non-pipeline capacity holders and their affiliates.

This conference will be structured as a roundtable debate with staff as moderator. Panel participants will be selected after the submission of comments and will be announced in a subsequent notice. The debate roundtable format is intended to encourage a discussion of the issues, and, accordingly, participants will not be afforded the opportunity to make oral presentations at the conference. Parties are therefore encouraged to submit written comments by January 5, 2001 to: (1) provide input on how to structure the discussion; (2) identify issues and examples to foster a meaningful dialog; and (3) suggest questions the staff moderator may wish to pose to the panel.

Comments should include a one-page single spaced position summary. Each comment should indicate whether the party is interested in participating in the roundtable. To limit the number of panelists, parties with common positions are encouraged to select an appropriate spokesperson to allow balanced representation of each industry segment, such as pipelines, local distribution companies, producers, industrial end-users, electric utilities, marketer groups, state regulatory bodies, consumer groups, or other recognized industry trade organizations or groups. Comments should be addressed to the Secretary, Federal Energy Regulatory Commission, 888 First Street, NE, Washington, D.C. 20426, and should refer to Docket No. PL00-1-000. Each request to participate must include a contact person, telephone number and e-mail address.

Commenters are encouraged to address the following areas:

Current Regulatory Approach: Comments should address the effectiveness of the current standards of conduct under Part 161 of the Commission's regulations, 18 CFR part 161 (2000), including a discussion of experiences in which the rules have been successful or unsuccessful, and whether the costs imposed by the current rules exceed the benefits. Comments should also address whether the affiliate transaction and index of customer reporting under sections 284.13(b)(1)(ix) and 284.13(c)(1)(ix), respectively, are effective in monitoring affiliate market activity.

Potential Affiliate Concerns: Comments should discuss whether, and in what circumstances, affiliate transactions pose the potential for anticompetitive or discriminatory

effects or explain why such effects are not likely. Comments asserting that affiliate transactions do pose anticompetitive/discriminatory risks should provide examples or scenarios in which there is the potential for such effects. Comments also should address whether the same or different risks apply depending on the nature of the affiliate, gas or power marketer, asset manager, electric generator, or local distribution company. Comments should explore the impact of the changing market conditions on the potential, if any, for a pipeline or capacity holder, to give preferential treatment to an affiliate. Comments may also consider the potential market or consumer benefits of permitting affiliate transactions. Comments should focus on whether the problem or benefit relates to the ability to acquire services, construction of facilities, the rates at which services are acquired, the quality of that service, or other factors.

Potential Approaches for Dealing with Affiliates: Comments should address whether there may be better methods of regulating affiliate transactions that should be used in lieu of the current standards of conduct and reporting requirements. Some alternatives that could be considered are: maintaining open and fair bidding procedures; prohibitions on affiliates holding capacity on the affiliated pipeline; limitations on an affiliate's capacity market share; changes in open-season bidding evaluations to break-up large capacity packages; or divestiture of affiliates. Similar approaches could be considered for affiliates of non-pipeline capacity holders. Comments need to address the costs and benefits of adopting these approaches and whether there is a potential adverse impact on the market, such as the risk of unsubscribed pipeline capacity, potential cost shifts, or difficulties in planning new pipeline construction without reliance on affiliate contracts.

Comments should consider whether changes to the current standards of conduct approach should be made in light of the current operation and changing nature of the industry. Specifically, comments should discuss the options of eliminating, expanding or modifying the standards of conduct, whether there is a need for uniform standards of conduct for all sellers or holders of jurisdictional capacity, and whether there should continue to be distinctions in the treatment of affiliate relationships, and ownership rules, between the gas and electric industries.

Background

Appendix A to 31 CFR chapter V contains the names of blocked persons, specially designated nationals, specially designated terrorists, foreign terrorist organizations, and specially designated narcotics traffickers designated pursuant to the various economic sanctions programs administered by the Office of Foreign Assets Control ("OFAC"). Pursuant to section 804(b) of the Foreign Narcotics Kingpin Designation Act, 21 U.S.C. 1903(b), on June 1, 2000, President Clinton identified twelve individuals as significant foreign narcotics traffickers. In accordance with section 598.314 of the Foreign Narcotics Kingpin Sanctions Regulations, 31 CFR part 598, those twelve individuals are added to appendix A as specially designated narcotics traffickers. The notes to the appendixes to 31 CFR chapter V are amended to add the term "[SDNTK]" to refer to those persons designated as specially designated narcotics traffickers under the Foreign Narcotics Kingpin Sanctions Regulations.

As of June 1, 2000, all property and interests in property, including but not limited to all accounts, that are or come within the United States or that are or come within the possession or control of

U.S. persons, including their overseas branches, that are owned or controlled by those twelve persons are blocked. All transactions or dealings by U.S. persons or within the United States in property or interests in property of those twelve persons are prohibited unless licensed by the Office of Foreign Assets Control or otherwise authorized.

In addition, the Office of Foreign Assets Control is adding to appendix A the names of three individuals and five entities who have been determined to play a significant role in international narcotics trafficking centered in Colombia, to materially assist in or provide financial support or technological support for, or goods or services in support of the narcotics trafficking activities of other specially designated narcotics traffickers, or to be owned or controlled by, or to act for or on behalf of, persons designated in or pursuant to Executive Order 12978 of October 21, 1995, "Blocking Assets and Prohibiting Transactions with Significant Narcotics Traffickers" (the "Order"), and section 536.312 of the Narcotics Trafficking Sanctions Regulations, 31 CFR part 536 (collectively "Specially Designated Narcotics Traffickers" or "SDNTs"). All real and personal property in which the SDNTs have any interest, including but not limited to all accounts, that are or come within the United States or that are or come within the possession or control of U.S. persons, including their overseas branches, are blocked. All transactions by U.S. persons or within the United States in property or interests in property of SDNTs are prohibited unless licensed by the Office of Foreign Assets Control or exempted by statute. Supplementary information is added to an existing SDNT entry for one individual, and that entry is revised in its entirety.

The Office of Foreign Assets Control also is removing from appendix A the entries for two individuals because it has been determined that they no longer meet the criteria for designation as SDNTs under the Order and the Narcotics Trafficking Sanctions Regulations. All real and personal property of these two individuals, including all accounts in which they have any interest, that had been blocked solely due to their designation as SDNTs, is unblocked; and all lawful transactions involving U.S. persons and these individuals previously barred as a result of their designation are permissible.

Designations of foreign persons blocked pursuant to the Order are effective upon the date of determination by the Director of the Office of Foreign

Assets Control, acting under authority delegated by the Secretary of the Treasury. Public notice of blocking is effective upon the date of filing with the **Federal Register**, or upon prior actual notice.

Finally, in furtherance of section 303 of the Antiterrorism and Effective Death Penalty Act of 1996, 18 U.S.C. 2339B ("AEDPA"), implemented in part by the Foreign Terrorist Organizations Sanctions Regulations, 31 CFR part 597 (the "FTO Regulations"), the Office of Foreign Assets Control is adding the name of one foreign terrorist organization to appendix A to 31 CFR chapter V. Section 303 of AEDPA, as implemented in section 597.201 of the FTO Regulations, requires financial institutions in possession or control of funds in which a foreign terrorist organization or its agent has an interest to block such funds except as authorized pursuant to the FTO Regulations, and to file reports in accordance with the FTO Regulations.

The foreign terrorist organization, The Islamic Movement of Uzbekistan, was designated by the Secretary of State in a notice published in the **Federal Register** on September 25, 2000 (65 FR 57641), pursuant to section 302 of AEDPA, 8 U.S.C. 1189, which authorizes the Secretary of State, in consultation with the Secretary of the Treasury and the Attorney General, to designate organizations meeting stated requirements as FTOs, with prior notification to Congress of the intent to designate.

Because this rule involves a foreign affairs function, Executive Order 12866 and the provisions of the Administrative Procedure Act (5 U.S.C. 553), requiring notice of proposed rulemaking, opportunity for public participation, and delay in effective date, are inapplicable. Because no notice of proposed rulemaking is required for this rule, the Regulatory Flexibility Act (5 U.S.C. 601-612) does not apply.

For the reasons set forth in the preamble, and under the authority of 3 U.S.C. 301; 18 U.S.C. 2339B, 21 U.S.C. 1901-1908; 31 U.S.C. 321(b), 50 U.S.C. 1601-1651; 50 U.S.C. 1701-1706; E.O. 12978, 60 FR 54579, 3 CFR, 1995 Comp., p. 415, the appendixes to 31 CFR chapter V are amended as set forth below:

BILLING CODE 4810-25-P

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 64

[Docket No. FEMA-7747]

Suspension of Community Eligibility

AGENCY: Federal Emergency Management Agency, FEMA.

ACTION: Final rule.

SUMMARY: This rule identifies communities, where the sale of flood insurance has been authorized under the National Flood Insurance Program (NFIP), that are suspended on the effective dates listed within this rule because of noncompliance with the floodplain management requirements of the program. If the Federal Emergency Management Agency (FEMA) receives documentation that the community has adopted the required floodplain management measures prior to the effective suspension date given in this rule, the suspension will be withdrawn by publication in the **Federal Register**.

EFFECTIVE DATES: The effective date of each community's suspension is the third date ("Susp.") listed in the third column of the following tables.

ADDRESSES: If you wish to determine whether a particular community was suspended on the suspension date, contact the appropriate FEMA Regional Office or the NFIP servicing contractor.

FOR FURTHER INFORMATION CONTACT: Donna M. Dannels, Branch Chief, Policy, Assessment and Outreach Division, Mitigation Directorate, 500 C Street, SW., Room 411, Washington, DC 20472, (202) 646-3098.

SUPPLEMENTARY INFORMATION: The NFIP enables property owners to purchase flood insurance which is generally not otherwise available. In return, communities agree to adopt and administer local floodplain management aimed at protecting lives and new construction from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits flood insurance coverage as authorized under the National Flood Insurance Program, 42 U.S.C. 4001 *et seq.*, unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed in this document no longer meet that statutory requirement for compliance with program regulations, 44 CFR part 59 *et seq.* Accordingly, the communities will be suspended on the effective date in the third column. As of that date, flood insurance will no longer be

available in the community. However, some of these communities may adopt and submit the required documentation of legally enforceable floodplain management measures after this rule is published but prior to the actual suspension date. These communities will not be suspended and will continue their eligibility for the sale of insurance. A notice withdrawing the suspension of the communities will be published in the **Federal Register**.

In addition, the Federal Emergency Management Agency has identified the special flood hazard areas in these communities by publishing a Flood Insurance Rate Map (FIRM). The date of the FIRM if one has been published, is indicated in the fourth column of the table. No direct Federal financial assistance (except assistance pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act not in connection with a flood) may legally be provided for construction or acquisition of buildings in the identified special flood hazard area of communities not participating in the NFIP and identified for more than a year, on the Federal Emergency Management Agency's initial flood insurance map of the community as having flood-prone areas (section 202(a) of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4106(a), as amended). This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column. The Associate Director finds that notice and public comment under 5 U.S.C. 553(b) are impracticable and unnecessary because communities listed in this final rule have been adequately notified.

Each community receives a 6-month, 90-day, and 30-day notification addressed to the Chief Executive Officer that the community will be suspended unless the required floodplain management measures are met prior to the effective suspension date. Since these notifications have been made, this final rule may take effect within less than 30 days.

National Environmental Policy Act

This rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Considerations. No environmental impact assessment has been prepared.

Regulatory Flexibility Act

The Associate Director has determined that this rule is exempt from the requirements of the Regulatory Flexibility Act because the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits
