## **Appendix 4**

### **Bibliography of Industry-Funded Research**

## BIBLIOGRAPHY OF INDUSTRY FUNDED RESEARCH

## 1. Published Reports

Abood LG, Grassi S, Noggle HD. Comparison of the binding of optically pure (-)- and (+)-[3H]nicotine to rat brain membranes. *Neurochem-Res.* 1985;10(2):259-267.

Abood LG, Lu X, Banerjee S. Receptor binding characteristics of a 3H-labeled azetidine analogue of nicotine. *Biochem-Pharmacol.* 1987;36(14):2337-2341.

Abood LG, Grassi S, Junig J, Crane A, Costanzo M. Specific binding and metabolism of (-)- and (+)-[3H]-nicotine in isolated rat hepatocytes and hepatocyte membranes. *Arch-Int-Pharmacodyn-Ther.* 1985;273(1):62-73.

Abood LG, Lowy K, Tometsko A, Booth H. Electrophysiological, behavioral, and chemical evidence for a noncholinergic, stereospecific site for nicotine in rat brain. *J-Neurosci-Res.* 1978;3(5-6):327-333.

Abood LG, Lowy K, Tometsko A, MacNeil M. Evidence for a noncholinergic site for nicotine's action in brain: Psychopharmacological, electrophysiological and receptor binding studies. *Arch-Int-Pharmacodyn-Ther.* 1979;237(2):213-229.

Abood LG, Lowy K, Booth H. Acute and chronic effects of nicotine in rats and evidence for a non-cholinergic site of action. *NIDA-Res-Monogr.* 1979:136-149.

Abood LG, Grassi S, Costanzo M, Junig J. Behavioral and biochemical studies in rats after chronic exposure to nicotine. *NIDA-Res-Monogr.* 1984;54:348-355.

Abood LG, Grassi S. Tritiated Methylcarbamylcholine a new radioligand for studying brain nicotinic receptors. *Biochemical Pharmacology.* 1990;35(23):4199-4202.

Adem A, Nordberg A, Jossan SS, Sara V, Gillberg PG. Quantitative autoradiography of nicotinic receptors in large cryosections of human brain hemispheres. *Neurosci-Lett.* 1989;101(3):247-252.

Adem A, Jossan SS, d'Argy R, et al. Distribution of nicotinic receptors in human thalamus as visualized by 3H-nicotine and 3H-acetylcholine receptor autoradiography. *J-Neural-Transm.* 1988;73(1):77-83.

Andersson K, Fuxe K, Agnati LF, Eneroth P. Effects of acute central and peripheral administration of nicotine on ascending dopamine pathways in the male rat brain. Evidence for nicotine induced increases of dopamine turnover in various telencephalic dopamine nerve terminal systems. *Med-Biol*. 1981;59(3):170-176.

Andersson K, Eneroth P, Fuxe K, Mascagni F, Agnati LF. Effects of chronic exposure to cigarette smoke on amine levels and turnover in various hypothalamic catecholamine nerve terminal systems and on the secretion of pituitary hormones in the male rat. *Neuroendocrinology*. 1985;41(6):462-466.

Andersson K. Mecamylamine pretreatment counteracts cigarette smoke induced changes in hypothalamic catecholamine neuron systems and in anterior pituitary function. *Acta-Physiol-Scand*. 1985;125(3):445-452.

Andersson K, Siegel R, Fuxe K, Eneroth P. Intravenous injections of nicotine induce very rapid and discrete reductions of hypothalamic catecholamine levels associated with increases of ACTH, vasopressin, and prolactin secretion. *Acta-Physiol-Scand*. 1983;118(1):35-40.

Andersson K, Fuxe K, Eneroth P, Gustafsson JA, Agnati LF. Mecamylamine induced blockade of nicotine induced inhibition of gonadotrophin and TSH secretion and of nicotine induced increases of catecholamine turnover in the rat hypothalamus. *Acta-Physiol-Scand-Suppl*. 1980;479:27-29.

Andersson K, Hockey GRJ. Effects of cigarette smoking on incidental memory. *Psychopharmacology*. 1977;52:223-226.

Andersson K, Fuxe K, Eneroth P, Mascagni F, Agnati LF. Effects of acute intermittent exposure to cigarette smoke on catecholamine levels and turnover in various types of hypothalamic DA and NA nerve terminal systems as well as on the secretion of adenohipophyseal hormones and corticosterone. *Acta-Physiol-Scand*. 1985;124(2):277-285.

Andersson K, Fuxe K, Eneroth P, Agnati LF, Gustafsson JA. Interactions of nicotine and pentobarbitone in the regulation of telencephalic and hypothalamic catecholamine levels and turnover and of adenohipophyseal hormone secretion in the normal male rat. *Naunyn-Schmiedebergs-Arch-Pharmacol*. 1982;321(4):287-292.

Andersson K, Eneroth P, Agnati LF. Nicotine-induced increases of noradrenaline turnover in discrete noradrenaline nerve terminal systems of the hypothalamus and the median eminence of the rat and their relationship to changes in the secretion of adenohipophyseal hormones. *Acta-Physiol-Scand*. 1981;113:227-231.

Andersson K, Fuxe K, Eneroth P, Jansson A, Harfstrand A. Effects of withdrawal from chronic exposure to cigarette smoke on hypothalamic and preoptic catecholamine nerve terminal systems and on the secretion of pituitary hormones in the male. *Naunyn-Schmiedeberg's-Arch-Pharmacol.* 1989;339(4):387-396.

Andersson K, Fuxe K, Agnati LF. Effects of single injections of nicotine on the ascending dopamine pathways in the rat. Evidence for increases of dopamine turnover in the mesostriatal and mesolimbic dopamine neurons. *Acta-Physiol-Scand.* 1981;112(3):345-347.

Andersson K, Fuxe K, Eneroth P, Agnati LF. Effects of acute central and peripheral administration of nicotine on hypothalamic catecholamine nerve terminal systems and on the secretion of adenohipophyseal hormones in the male rat. *Med-Biol.* 1982;60(2):98-111.

Andersson K, Fuxe K, Eneroth P, Agnati LF. Involvement of cholinergic nicotine-like receptors as modulators of amine turnover in various types of hypothalamic dopamine and noradrenaline nerve terminal systems and of prolactin, LH, FSH and TSH secretion in the castrated male rat. *Acta-Physiol-Scand.* 1982;116(1):41-50.

Andersson K, Fuxe K, Eneroth P, Harfstrand A, Agnati LF, et al. Involvement of D1 dopamine receptors in the nicotine-induced neuro- endocrine effects and depletion of diencephalic catecholamine stores in the male rat. *Neuroendocrinology.* 1988;48(2):188-200.

Armitage AK, Turner DM. Absorption of nicotine in cigarette and cigar smoke through the oral mucosa. *Nature.* 1970;226:1231-1232.

Armitage AK, Hall GH, Morrison CF. Pharmacological basis for the tobacco smoking habit. *Nature.* 1968;217(126):331-334.

Armitage AK, Houseman TH, Turner DM. The transfer of endogenous and exogenous radioisotopically labelled nicotine to mainstream cigarette smoke and its absorption into the blood of anaesthetized cats. *Q-J-Exp-Physiol-Cogn-Med-Sci.* 1974;59(1):55-61.

Armitage AK, Hall GH. The effects of nicotine on the electrocorticogram and spontaneous release of acetylcholine from the cerebral cortex of the cat. *J-Physiol-Lond.* 1967;191(2):115P-116P.

Armitage AK, Dollery C, Houseman T, Kohner E, Lewis PJ, Turner D. Absorption of nicotine from small cigars. *Clin-Pharmacol-Ther.* 1978;23(2):143-151.

Armitage AK, Dollery CT, Houseman TH, Kohner EM, Lewis PJ, Turner DM. Absorption of nicotine by man during cigar smoking [proceedings]. *Br-J-Pharmacol.* 1977;59(3):493P.

Armitage AK, Hall GH. Nicotine, Smoking and cortical activation. *Nature*. 1968;219(159):1179-1180.

Armitage AK, Hall GH, Sellers CM. Effects of nicotine on electrocortical activity and acetylcholine release from the cat cerebral cortex. *Br-J-Pharmacol*. 1969;35:152-160.
