**The Honorable Nancy Pelosi
Speaker of the House of Representatives
Washington, DC 20515-6501**

Dear Madam Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 08-95, concerning the Department of the Army's proposed Letter(s) of Offer and Acceptance to Iraq for defense articles and services estimated to cost \$2.4 billion. After this letter is delivered to your office, we plan to issue a press statement to notify the public of this proposed sale.

Sincerely,

Richard J. Millies
Acting Director

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Iraq – Helicopters and Related Munitions

The Government of Iraq has requested a possible sale of 24 Bell Armed 407 Helicopters or 24 Boeing AH-6 Helicopters, 24 Rolls Royce 250-C-30 Engines, 565 M120 120mm Mortars, 665 M252 81mm Mortars, 200 AGM-114M HELLFIRE missiles, 24 M299 HELLFIRE Guided Missile Launchers, 16 M36 HELLFIRE Training Missiles, 15,000 2.75-inch Rockets, 24 M280 2.75-inch Launchers, 24 XM296 .50 Cal. Machine Guns with 500 Round Ammunition Box, and 24 M134 7.62mm Mini-Guns, 81mm ammunition, 120mm ammunition, test measurement and diagnostics equipment, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, U.S. Government and contractor engineering and logistics personnel services, and other related elements of logistics support. The estimated cost is \$2.4 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraqi government and serves the interests of the Iraqi people and the U.S.

The proposed sale of these helicopters, missiles, and mortar systems will be used to develop new Iraqi Air Force (IAF) squadrons and/or wings, and to enhance the ability of the IAF to sustain itself in its efforts to bring stability to Iraq.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The principal contractors will be Bell Helicopter Textron, Inc. in Hurst, Texas or Boeing Integrated Defense Systems in Seattle, Washington. There are no known offset agreements proposed in connection with this potential sale.

With the volume and wide range of items and equipment in this proposed sale, levels of U.S. Government and Contractor technical assistance will be required but cannot be fully defined at this time.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 08-95**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act****Annex
Item No. vii****(vii) Sensitivity of Technology:**

1. The AGM-114M HELLFIRE missile is a laser-guided penetrator weapon which homes in on a laser spot that can be projected by ground observers. It can be launched from helicopters and other platforms. The missile's ability to engage single or multiple targets directly or indirectly and to fire in single, rapid, or ripple (salvo) rounds gives combined arms forces a decided battlefield advantage. The blast fragmentation incorporates an Insensitive Munitions warhead which improves helicopter survivability. There are no known foreign counterparts. The highest level for release of the HELLFIRE missile is Secret, based upon the software. The highest level of classified information that could be disclosed by a proposed sale or by testing of the end item is Secret; the highest level that must be disclosed for production, maintenance, or training is Confidential. Vulnerability data, countermeasures, vulnerability/susceptibility analyses, and threat definitions are classified Secret or Confidential.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
