

customer, and may be rescinded at a customer's election.

The commenter questioned how the proposed rule change would benefit public customers.⁹ The commenter maintained that if CBOE is willing to forgive its cancellation fees, "then * * * there was never a problem with cancels from public customers but only [the Exchange] trying to concentrate power and punish the public customer." The Commission is not today considering CBOE's cancellation fee.¹⁰ Instead, the Commission is approving a proposed rule change that would give public customers more flexibility in how they participate in CBOE's marketplace. In sum, the Commission believes that the proposed rule change would provide an additional choice to public customers.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice of filing thereof in the **Federal Register**. The Commission believes that accelerated approval of the Exchange's proposal relating to Voluntary Professionals is appropriate because it is similar to an ISE rule that recently was approved by the Commission.¹¹ The Commission believes that CBOE's proposal does not raise any new issues that were not considered by the Commission in connection with the ISE proposal.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change (SR-CBOE-2008-09), as modified by Amendment No. 2, be, and hereby is, approved on an accelerated basis.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹²

Acting Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-58331; File No. SR-FINRA-2008-016]

Self-Regulatory Organizations; Financial Industry Regulatory Authority, Inc.; Order Approving a Proposed Rule Change To Align the Reporting Requirements and Dissemination Protocols for OTC Equity Transactions Involving Foreign Securities With All Other OTC Equity Securities

August 8, 2008.

I. Introduction

On April 25, 2008, the Financial Industry Regulatory Authority, Inc. ("FINRA") (f/k/a National Association of Securities Dealers, Inc. ("NASD")) filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act" or "Exchange Act")¹ and Rule 19b-4 thereunder,² a proposal: (1) To amend NASD Rule 6620 to align the reporting requirements for over-the-counter ("OTC") equity transactions involving foreign securities with the reporting requirements for other OTC equity transactions; and (2) to align the dissemination protocols for all last sale reports of OTC equity transactions. On June 12, 2008, FINRA submitted Amendment No. 1 to the proposed rule change. The proposal was published for comment in the **Federal Register** on June 26, 2008.³ The Commission received five comments regarding the proposal.⁴ This order approves the proposed rule change, as modified by Amendment No. 1.

II. Description of the Proposed Rule Change

Currently, NASD rules require that transactions in OTC Equity Securities (which term encompasses domestic

equity securities, American Depositary Receipts ("ADRs"), and Canadian issues) that are executed between 8 a.m. and 8 p.m. Eastern Time be reported to the OTC Reporting Facility within 90 seconds of execution.⁵ Thus, transactions in all ADRs and Canadian issues, including those that are not registered with the Commission and thus are not subject to the Commission's reporting requirements, are subject to 90-second reporting under NASD Rule 6620. Transactions in all other foreign equity securities are excluded from the 90-second reporting requirement and instead must be reported by 1:30 p.m. Eastern Time the day after the transaction is executed.⁶

Last sale information for transactions in domestic OTC Equity Securities reported pursuant to Rule 6620 is disseminated on a real-time basis, irrespective of whether the security is registered with the Commission. However, there is no uniformity regarding the dissemination of last sale information for transactions in ADRs and foreign securities. Last sale reports of ADRs and Canadian issues that are quoted on the OTC Bulletin Board ("OTCBB"), which has an eligibility requirement that OTCBB issuers must be reporting issuers,⁷ are disseminated on a real-time basis. However, only summary information is disseminated at the end of each trading day for OTC ADRs and Canadian issues that are not quoted on the OTCBB, whether or not they are registered with the Commission. Transactions in foreign securities, other than Canadian issues and ADRs, that are quoted on the OTCBB are disseminated on a real-time basis if they are received on the day of the trade. However, as noted above, there is no current requirement to report these trades to FINRA within 90 seconds of execution, or even on the trade date. If an OTC transaction in a foreign security is not reported on the trade date, last sale information for that transaction is not disseminated.

FINRA now proposes: (1) To require all transactions in OTC Equity Securities to be reported within 90 seconds of execution; and (2) to

⁵ See NASD Rule 6620(a). For purposes of the NASD Rule 6600 Series, "OTC Equity Securities" means equity securities for which real-time trade reporting is not otherwise required. See NASD Rule 6600. NASD Rule 6610(d) further defines "OTC Equity Security" as "any non-exchange-listed security and certain exchange-listed securities that do not otherwise qualify for real-time trade reporting."

⁶ See NASD Rule 6620(a)(3)(C)(iii). Although not required, a member may choose to report transactions in foreign securities within 90 seconds of execution. See NASD Rule 6620 n.1.

disseminate last sale information regarding those transactions on a real-time basis. Thus, the proposed rule change would eliminate the distinctions between domestic, foreign, ADR, and Canadian securities and would require prompt reporting and real-time dissemination for all OTC transactions.⁸ FINRA believes that the proposal would substantially improve the transparency of the OTC market.

FINRA represented that it would announce the effective date of the proposed rule change in a Regulatory Notice to be published no later than 60 days following Commission approval of this proposed rule change. The effective date would be 30 days following publication of that Regulatory Notice.

III. Summary of Comments

The Commission received letters from five commenters.⁹ All of the commenters supported the proposal. The commenters stated that the proposal would lead to greater transparency, better price discovery, and/or better trading practices, and should therefore foster a strong and competitive U.S. OTC market in foreign securities.¹⁰ The commenters also unanimously stated that the proposal would provide industry participants with the ability to monitor the quality of executions that they receive in foreign securities, which they believe would increase competition among broker-dealers and enhance best execution practices in the industry.¹¹ Two commenters noted that the proposal would help prevent improper trading practices, such as front-running.¹²

IV. Discussion and Findings

After careful consideration of the proposal and the comments submitted, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities association.¹³ In

⁸ The single exception would be for transactions in foreign equity securities executed over-the-counter in a foreign country and reported to the regulator of securities markets for that country. See NASD Rule 6620(g)(2)(B). Transactions in foreign equity securities executed on and reported to a foreign securities exchange also are exempted from the FINRA reporting requirements. See NASD Rule 6620(g)(2)(A).

particular, the Commission finds that the proposed rule change is consistent with Section 15A(b)(6) of the Act,¹⁴ which requires, among other things, that FINRA rules be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest.

FINRA stated in its proposal that it believed that prompt last sale reporting and real-time dissemination of trade reports for all OTC transactions in ADRs, foreign securities, and Canadian issues would enhance the amount of market information available to investors and better enable investors to monitor the executions they receive in these securities. The Commission notes that all the commenters agreed with this statement.¹⁵

In its request for comments, the Commission specifically requested comment regarding whether the proposed rule change would significantly change the factors considered by foreign private issuers in deciding whether to list on a U.S. securities exchange and register with the Commission, and whether the proposed rule change would serve to promote the U.S. over-the-counter market for unregistered foreign securities.¹⁶ In response to the first inquiry, one commenter stated that it did not believe that the proposal would "in any way serve to encourage foreign firms to trade their issues in the United States without registration."¹⁷ Regarding the second inquiry, the commenters noted the benefits of greater transparency that would allow U.S. broker-dealers to better compete with foreign markets, and U.S. investors to better assess the executions that they receive, when effecting OTC transactions in foreign securities.¹⁸

The Commission believes that it is appropriate to eliminate the distinctions in trade reporting and dissemination that currently exist for OTC transactions in domestic, foreign, ADR, and Canadian securities. The Commission believes that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities association.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁹ that the proposed rule change (File No. SR-FINRA-2008-016), as modified by Amendment No. 1, be, and it hereby is, approved.
