

NOW, THEREFORE, I, GEORGE W. BUSH, President of the United States of America, do hereby proclaim May 15, 2002, as Peace Officers Memorial Day and May 12 through May 18, 2002, as Police Week. I call on Americans to observe these events with appropriate ceremonies and activities. I also call on Governors of the United States and the Commonwealth of Puerto Rico, as well as appropriate officials of all units of government, to direct that the flag be flown at half-staff on Peace Officers Memorial Day. I further encourage all Americans to display the flag at half-staff from their homes on that day.

IN WITNESS WHEREOF, I have hereunto set my hand this tenth day of May, in the year of our Lord two thousand two, and of the Independence of the United States of America the two hundred and twenty-sixth.

GEORGE W. BUSH

Proclamation 7559 of May 10, 2002

National Defense Transportation Day and National Transportation Week, 2002

*By the President of the United States of America
A Proclamation*

The importance of America's transportation system became evident to all Americans on September 11, 2001. Airliners were diverted, airports closed, and travelers were stranded for days as transportation systems across the country were disrupted. In the aftermath of September 11, the men and women in the transportation industry have helped restore function and trust to a system that was traumatized. Today, Americans and America's goods and services are being more safely moved to their destinations, as our communities continue the process of important restructuring.

We have helped secure our transportation system with the passage of the Aviation and Transportation Security Act, which greatly enhanced the protections for America's passengers and goods. And we are determined to ensure that Americans have the transportation system and mobility that is necessary for a vibrant economy and meaningful quality of life.

We live in a time of unprecedented travel, when goods and services, regardless of origin, can be available in a short amount of time. Thanks to imagination, innovation, and investment in transportation, we can safely commute to work, receive overnight mail, buy fresh fruit and vegetables, and travel with relative ease to destinations around the world. We also continue to make progress in developing a transportation system that offers choices and protects the environment through cleaner, more fuel-efficient vehicles and new, environmentally sound infrastructure.

To recognize Americans who work in transportation and who contribute to our Nation's prosperity, defense, and progress, the United States Congress, by joint resolution approved May 16, 1957, as amended, (36 U.S.C. 120), has designated the third Friday in May of each year as "National Defense Transportation Day," and, by joint resolution approved May 14, 1962, as

Proc. 7560

Title 3—The President

amended, (36 U.S.C. 133), declared that the week during which that Friday falls be designated as “National Transportation Week.”

NOW, THEREFORE, I, GEORGE W. BUSH, President of the United States of America, do hereby proclaim Friday, May 17, 2002, as National Defense Transportation Day and May 12 through May 18, 2002, as National Transportation Week. I encourage all Americans to recognize how our modern transportation system has enhanced our economy and contributed to our freedom.

IN WITNESS WHEREOF, I have hereunto set my hand this tenth day of May, in the year of our Lord two thousand two, and of the Independence of the United States of America the two hundred and twenty-sixth.

GEORGE W. BUSH

Proclamation 7560 of May 13, 2002

National Hurricane Awareness Week, 2002

*By the President of the United States of America
A Proclamation*

Hurricanes can devastate our communities, endangering thousands of human lives and causing billions of dollars in property damage. Stemming from the ocean, the atmosphere, and heat from the sea, hurricanes bring with them the potential for high winds, tornadoes, torrential rains, flooding, and ocean water storm surges. Their fierce and destructive power requires that we all take steps to reduce our vulnerability to this natural hazard.

According to the Federal Emergency Management Agency (FEMA) and the National Oceanic and Atmospheric Administration, an average of ten tropical storms develop annually over the Atlantic Ocean, Caribbean Sea, and Gulf of Mexico. Every year, an average of six of these storms grow strong enough to become hurricanes. Approximately five hurricanes strike the United States coastline every 3 years. Out of these, two will have winds above 111 miles per hour, qualifying them as major hurricanes. The resulting high winds and high waves can seriously damage homes, businesses, public buildings, and critical infrastructure, and ultimately have the potential to injure people and claim lives.

To help avoid damage and help ensure the public’s safety from hurricane hazards, FEMA recommends a variety of preventative steps for both individuals and communities. For example, construction measures can help minimize property destruction. These include installing storm shutters over exposed glass and adding hurricane straps to hold the roof of a structure to its walls and foundation. More complex measures, such as elevating coastal homes and businesses, can further reduce a property’s susceptibility. In addition, communities can reduce their vulnerability by adopting wind- and flood-resistant building codes and by implementing sound land-use planning.

More than 50 million people live along hurricane-prone coastlines in the United States, with millions of tourists visiting these areas annually. Dur-
