

Name: Jeff Williams

Class of works: I am writing in support of Class #2 (DVD Region Coding):  
Audiovisual works stored on Digital Versatile Disks ("DVDs") that are not  
available in Region 1 DVD format and access to which is prevented by  
technological measures.

Summary:

Disc name: The Office - The Complete Series 1

While on vacation in England, I purchased a DVD of The Office, a British television series. The DVD is coded for regions 2 and 4. I was able to watch the DVD, since my computer's DVD player allows me to change its region up to five times. However, after changing it to region 2 and back to region 1, I have only three region changes left. I can only watch the DVD once more; if I watch it twice more, I will lose the ability to play region 1 DVDs.
