

Name: Scott Zawalski

Class of works: I am writing in support of Class #2 (DVD Region Coding):  
Audiovisual works stored on Digital Versatile Disks ("DVDs") that are not  
available in Region 1 DVD format and access to which is prevented by  
technological measures.

Summary:

Disc name: Die Aerzte DVD

I bought this DVD that was supposedly region free or region 8 which isn't  
designated to any specific country. However, due to the region encoding my DVD  
player still denied me the privilege of watching something I had boughten  
with my money because it was not encoded as region 1. Region encoding cripples  
the ability of buying DVDs with other language tracks on them for your  
enjoyment. Not everyone that lives in America speaks only English, Spanish and  
French!
