Disc name: Eyes Wide Shut (and numerous others)

I spent several months living abroad, during which time I acquired a somewhat sizeable collection of region 2 DVDs. Upon returning to the United States I found myself with 40 or 50 DVDs that I could not play on my regular DVD player. My solution was to purchase a multi-region DVD player, which while effective, is significantly inconvenient, as it means that the player was expensive and has no warranty due to the aftermarket modifications that were made.
