Class of works: I am writing in support of Class #2 (DVD Region Coding):
Audiovisual works stored on Digital Versatile Disks ("DVDs") that are not
available in Region 1 DVD format and access to which is prevented by
technological measures.

Summary:

Disc name: Shawshank Redemption

I was in England last summer for cultural exchange. I bought the Shawshank
Redemption on DVD at Gatwick airport while waiting for a flight home. When I
got home, my DVD player complained "wrong region" and refused to play. I am
saddened that two countries that share a common culture and language can't
watch each other's DVDs. Even if I were to return to England, I doubt the
merchant would refund my purchase price.

Therefore, I support a total repeal of the DMCA. At the very least, it's
anti-consumer and anti-fair-use provisions should be severely rolled back.
