

Name: Patrick Harlan

Class of works: I am writing in support of Class #2 (DVD Region Coding):  
Audiovisual works stored on Digital Versatile Disks ("DVDs") that are not  
available in Region 1 DVD format and access to which is prevented by  
technological measures.

Summary:

Disc name: Futurama

I'm technically savvy enough to know that my DVD players are locked into  
playing only Region 1 encoded discs, but the DVD I purchased online was  
formatted for Region 2. In today's world economy, this is preposterous. If a  
corporation wants to limit where their products are sold, that's fine. But in  
a "free" society, the government should not make laws that prevent me from  
watching that which I purchased legally. I don't want to hack this DVD I  
bought to steal it; I just want to watch it.
