FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA 04-1650; MM Docket No. 02-290; RM-10527, RM-10772, RM-10773]

Radio Broadcasting Services; Franklin, ID and Richfield, UT

AGENCY: Federal Communications Commission.

ACTION: Final rule, correction.

SUMMARY: The Federal Communications Commission published in the **Federal Register**, of June 25, 2004, a document which granted multiple channels substitutions and changes of community of license in Utah, Colorado, Idaho and Wyoming. The amendatory language requested removal of channels not currently listed in Section 73.202(b), FM Table of Allotments for Franklin, Idaho and Richfield, Utah. This document corrects the amendatory language under Idaho by removing Channel 249A at Franklin in lieu of Channel 248C1. Additionally, the published document substituted Channel 249C for Channel 248C at Richfield, Utah, reallocated Channel 249C to Elsinore, Utah, and modified the license of Station KLGL to specify operation on Channel 249C at Elsinore. In this case, the FM Table of Allotments lists Channel 248 for Richfield, Utah not Channel 248C, therefore this document corrects the amendatory language under Utah by removing Channel 248 at Richfield instead of Channel 248C.

DATES: Effective July 26, 2004.

SUPPLEMENTARY INFORMATION: The FCC published a document in the **Federal Register** of June 25, 2004, (69 FR 35531) granting multiple channels substitutions and changes of community of license in Utah, Colorado, Idaho and Wyoming. In FR Doc. 04-14483, published in the **Federal Register** of June 25, 2004, (69 FR 35531), the amendatory language inadvertently listed the removal of channels not currently reflected in the FM Table of Allotments for Franklin,

Idaho and Richfield, Utah. This document corrects the amendatory language to reflect the removal of channels currently listed in the FM Table of Allotments for Franklin, Idaho and Richfield, Utah.

ACTION: Final rule.

SUMMARY: NMFS is re-arranging the Pacific Coast Groundfish regulations so that they read in a more logical order. This final rule also amends references to Paperwork Reduction Act (PRA) information-collection requirements to reflect this reorganization of regulatory language. The purpose of this final rule is to make the regulations more concise, better organized, and thereby easier for the public to use.

DATES: Effective July 15, 2004.

This final rule also is accessible via the Internet at the Office of the **Federal Register's** website at www.gpoaccess.gpo.gov/su_docs/aces/aces140.html and at the NMFS Northwest Region website at www.nwr.noaa.gov/1sustfsh/gfsh/gdfsh/gdfsh01.html.

Background

On September 4, 2003, NMFS approved Amendment 17 to the Pacific Coast Groundfish Fishery Management Plan (FMP). Through Amendment 17, the FMP will now set groundfish harvest specifications and management measures via a biennial process. The first two-year management period will occur from January 1, 2005, through December 31, 2006. The Pacific Fishery Management Council (Council) made its final recommendation on 2005-2006 groundfish specifications and management measures at its June 2004 meeting in Foster City, CA. After receiving the Council's recommendations, NMFS will develop a proposed rule to implement the 2005-2006 specifications and management measures through a public notice-and-comment rulemaking process. The proposed rule, which is to be published in the **Federal Register**, will announce a public comment period and may be followed by a final rule, also published in the **Federal Register**.

NMFS expects that the rulemaking for the 2005-2006 Pacific Coast groundfish harvest specifications and management measures will result in revisions to the Pacific Coast groundfish regulations at 50 CFR part 660, subpart G. NMFS has reviewed its Federal groundfish regulations in anticipation of the need to incorporate the 2005-2006 specifications and management measures rulemaking into the overall Federal groundfish regulations at 50 CFR part 660, subpart G. As a result of this review, NMFS has determined that Federal groundfish regulations should be reorganized so that they are more logically arranged and better able to incorporate the broad array of regulatory measures included in a specifications and management measures package.

This final rule reorganizes Federal groundfish regulations at 50 CFR part 660, subpart G, so that: broadly applicable regulations, including definitions and prohibitions, are found in §§ 660.301-660.306; prohibitions in
