BILLING CODE 7510-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Number 030-31768]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for License Amendment for Truman State University, Kirksville, MO

AGENCY: Nuclear Regulatory
Commission.

ACTION: Notice of availability of
Environmental Assessment and Finding
of No Significant Impact.

FOR FURTHER INFORMATION CONTACT: Dr.
Peter J. Lee, Division of Nuclear
Materials Safety, U.S. Nuclear
Regulatory Commission, Region III,
2443 Warrenville Road, Lisle, Illinois
60532-4352; telephone (630) 829-9870;
or by email at pjl2@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory
Commission (NRC) is considering the
issuance of a license amendment of
Material License No. 24-17224-02
issued to Truman State University (the
licensee), to terminate its license and
authorize release of its Kirksville,
Missouri facility for unrestricted use.

The NRC staff has prepared an
Environmental Assessment (EA) in
support of this licensing action in
accordance with the requirements of 10
CFR Part 51. Based on the EA, the NRC
has concluded that a Finding of No
Significant Impact (FONSI) is
appropriate. The amendment will be
issued following the publication of this
Notice.

II. EA Summary

The purpose of the proposed action is
to terminate Truman State University's
license and release its Kirksville,
Missouri facility for unrestricted use.
On July 25, 1990, the NRC authorized
Truman State University to use labeled
compounds of P-32, I-125, H-3, C-14,
etc. for research and development. On
December 18, 2003, Truman State
University submitted a license
amendment request to terminate its
license and release its Kirksville facility

for unrestricted use. Truman State
University has conducted surveys of the
facility and provided information to the
NRC to demonstrate that the site meets
the license termination criteria in
Subpart E of 10 CFR Part 20 for
unrestricted release. The staff has
examined Truman State University's
request and the information that the
licensee has provided in support of its
request, including the surveys
performed by Truman State University
to demonstrate compliance with 10 CFR
20.1402, "Radiological Criteria for
Unrestricted Use," to ensure that the
NRC's decision is protective of the
public health and safety and the
environment.

III. Finding of No Significant Impact

The staff has prepared the EA
(summarized above) in support of
Truman State University's proposed
license amendment to terminate its
license and release the Kirksville facility
for unrestricted use. Based on its
review, the staff has determined that the
affected environment and the
environmental impacts associated with
the decommissioning of Truman State
University's facility are bounded by the
impacts evaluated by the "Generic
Environmental Impact Statement in
Support of Rulemaking on Radiological
Criteria for License Termination of NRC-
Licensed Nuclear Facilities" (NUREG-
1496). No outdoor areas were affected
by the use of licensed materials.
Additionally, no non-radiological
impacts or other activities that could
result in cumulative impacts were
identified. The staff also finds that the
proposed release for unrestricted use of
the Truman State University's facility is
in compliance with 10 CFR 20.1402. On
the basis of the EA, the staff has
concluded that the environmental
impacts from the proposed action would
not be significant. Accordingly, the staff
has determined that a FONSI is
appropriate, and has determined that
the preparation of an environmental
impact statement is not warranted.

IV. Further Information

In accordance with 10 CFR 2.390 of
the NRC's "Rules of Practice," Truman
State University's request, the EA
summarized above, and the documents
related to this proposed action are
available electronically for public
inspection and copying from the
Publicly Available Records (PARS)
component of NRC's document system
(ADAMS). ADAMS is accessible from
the NRC Web site at [http://www.nrc.gov/
reading-rm/adams.html](http://www.nrc.gov/reading-rm/adams.html). These
documents include Truman State
University's NRC Form 314 dated

December 18, 2003, with enclosures
(Accession No. ML041120082); and the
EA summarized above (Accession No.
ML041190131). These documents may
also be viewed electronically on the
public computers located at the NRC's
Public Document Room (PDR), O 1 F21,
One White Flint North, 11555 Rockville
Pike, Rockville, MD 20852. The PDR
reproduction contractor will copy
documents for a fee. Persons who do not
have access to ADAMS or who
encounter problems in accessing the
documents located in ADAMS, should
contact the NRC PDR Reference staff by
telephone at 1-800-397-4209 or (301)
415-4737, or by e-mail to pdr@nrc.gov.

Dated at Lisle, Illinois, this 28th day of
April, 2004.

William G. Snell,

*Acting Chief, Decommissioning Branch,
Division of Nuclear Materials Safety, RIII.*

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Biweekly Notice; Applications and Amendments to Facility Operating Licenses

Involving No Significant Hazards Considerations

I. Background

Pursuant to section 189a.(2) of the
Atomic Energy Act of 1954, as amended
(the Act), the U.S. Nuclear Regulatory
Commission (the Commission or NRC
staff) is publishing this regular biweekly
notice. The Act requires the
Commission publish notice of any
amendments issued, or proposed to be
issued and grants the Commission the
authority to issue and make
immediately effective any amendment
to an operating license upon a
determination by the Commission that
such amendment involves no significant
hazards consideration, notwithstanding
the pendency before the Commission of
a request for a hearing from any person.

This biweekly notice includes all
notices of amendments issued, or
proposed to be issued from, April 16
through April 29, 2004. The last
biweekly notice was published on April
27, 2004 (69 FR 22877).

Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The Commission has made a
proposed determination that the
following amendment requests involve
