

determination at the Court of International Trade. No new information or argument has been presented in these reviews which would warrant reconsideration of this determination. Therefore, for the reasons stated in the *Final Results* of the 2001 administrative reviews, we continue to find that the Department does not have the statutory authority to adjust the assessment rate as requested by NHCI.

Preliminary Results of Reviews

In accordance with 19 CFR 351.221(b)(4)(i), we calculated an individual subsidy rate for each producer/exporter subject to these administrative reviews. For the period January 1, 2002, through December 31, 2002, we preliminarily determine the net subsidy rates for producers/exporters under review to be those specified in the chart shown below. If the final results of these reviews remain the same as these preliminary results, the Department intends to instruct the CBP to assess countervailing duties at these net subsidy rates. We will disclose our calculations to the interested parties in accordance with § 351.224(b) of the Department's regulations.

| Company | Ad valorem rate (percent) |
|-------------------------------|---------------------------|
| Norsk Hydro Canada, Inc. | 1.07 |
| Magnola Metallurgy, Inc. | 1.84 |

Cash Deposit Instructions

The Department also intends to instruct the CBP to collect cash deposits of estimated countervailing duties at the rate specified on the f.o.b. value of all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results of these administrative reviews.

We will instruct the CBP to continue to collect cash deposits for non-reviewed companies (except Timminco Limited which was excluded from the orders during the investigations) at the most recent company-specific or country-wide rate applicable to the company. Accordingly, the cash deposit rate that will be applied to non-reviewed companies covered by these orders is that established in *Pure and Alloy Magnesium From Canada; Final Results of the Second (1993) Countervailing Duty Administrative Reviews*, 62 FR 48607 (September 16, 1997) or the company-specific rate published in the most recent final results of an administrative review in which a company participated. These

rates shall apply to all non-reviewed companies until a review of a company assigned these rates is requested.

Public Comment

Interested parties may request a hearing within 30 days of the date of publication of this notice. Any hearing, if requested, will be held two days after the scheduled date for submission of rebuttal briefs (*see below*). Interested parties may submit written arguments in case briefs within 30 days of the date of publication of this notice. Rebuttal briefs, limited to issues raised in case briefs, may be filed no later than five days after the date of filing the case briefs. Parties who submit briefs in these proceedings should provide a summary of the arguments not to exceed five pages and a table of statutes, regulations, and cases cited. Copies of case briefs and rebuttal briefs must be served on interested parties in accordance with 19 CFR 351.303(f).

Representatives of parties to the proceeding may request disclosure of proprietary information under administrative protective order no later than 10 days after the representative's client or employer becomes a party to the proceeding, but in no event later than the date the case briefs, under 19 CFR 351.309(c)(1)(ii), are due.

The Department will publish a notice of the final results of these administrative reviews within 120 days from the publication of these preliminary results.

These administrative reviews and notice are in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: May 3, 2004.

Joseph A. Spetrini,

Acting Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

International Trade Administration

[A-122-838]

Initiation of Antidumping Duty Changed Circumstances Review: Certain Softwood Lumber Products From Canada

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: May 11, 2004.

ACTION: Notice of initiation of changed circumstances review.

SUMMARY: In accordance with 19 CFR 351.216(b) (2003), the Coalition for Fair

Lumber Imports Executive Committee, the petitioner in this case, filed a request for a changed circumstances review of the antidumping duty order on certain softwood lumber products from Canada, as described below. In response to this request, the Department of Commerce (the Department) is initiating a changed circumstances review of the antidumping order on certain softwood lumber from Canada.

FOR FURTHER INFORMATION CONTACT:

Amber Musser or Constance Handley, at (202) 482-1777 or (202) 482-0631, respectively; Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION: As a result of the antidumping duty order issued following the completion of the less-than-fair-value investigation of certain softwood lumber products from Canada, imports of softwood lumber from Canfor Corporation (Canfor) and Slocan Forest Products (Slocan), which were both respondents, received company-specific cash-deposit rates (*see Notice of Amended Final Determination of Sales at Less Than Fair Value and Antidumping Order: Certain Softwood Lumber Products from Canada*, 67 FR 36068 (May 22, 2002)). Both companies are participating as separate companies in the ongoing first administrative review of this order, which covers the period May 22, 2002, through April 30, 2003. The petitioner has provided the Department of Commerce (the Department) with information indicating that as of April 1, 2004, Canfor and Slocan completed the merger of their lumber operations.¹ As a result, the petitioner is requesting that the Department initiate a changed circumstances review to establish a new cash-deposit rate for the merged entity. *Id.*

Scope of the Order

The products covered by this order are softwood lumber, flooring and siding (softwood lumber products). Softwood lumber products include all products classified under headings 4407.1000, 4409.1010, 4409.1090, and 4409.1020, respectively, of the Harmonized Tariff Schedule of the United States (HTSUS), and any softwood lumber, flooring and siding described below. These softwood lumber products include:

(1) Coniferous wood, sawn or chipped lengthwise, sliced or peeled, whether or

¹ See letter from the petitioner to the Department, dated April 22, 2004.

not planed, sanded or finger-jointed, of a thickness exceeding six millimeters;

(2) Coniferous wood siding (including strips and friezes for parquet flooring, not assembled) continuously shaped (tongued, grooved, rabbeted, chamfered, v-jointed, beaded, molded, rounded or the like) along any of its edges or faces, whether or not planed, sanded or finger-jointed;

(3) Other coniferous wood (including strips and friezes for parquet flooring, not assembled) continuously shaped (tongued, grooved, rabbeted, chamfered, v-jointed, beaded, molded, rounded or the like) along any of its edges or faces (other than wood moldings and wood dowel rods) whether or not planed, sanded or finger-jointed; and

(4) Coniferous wood flooring (including strips and friezes for parquet flooring, not assembled) continuously shaped (tongued, grooved, rabbeted, chamfered, v-jointed, beaded, molded, rounded or the like) along any of its edges or faces, whether or not planed, sanded or finger-jointed.

Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise under investigation is dispositive. Preliminary scope exclusions and clarifications were published in three separate **Federal Register** notices.

Softwood lumber products excluded from the scope:

- Trusses and truss kits, properly classified under HTSUS 4418.90.
- I-joint beams.
- Assembled box spring frames.
- Pallets and pallet kits, properly classified under HTSUS 4415.20.
- Garage doors.
- Edge-glued wood, properly classified under HTSUS 4421.90.97.40 (formerly HTSUS 4421.90.98.40).
- Properly classified complete door frames.
- Properly classified complete window frames.
- Properly classified furniture.

Softwood lumber products excluded from the scope only if they meet certain requirements:

- Stringers (pallet components used for runners): if they have at least two notches on the side, positioned at equal distance from the center, to properly accommodate forklift blades, properly classified under HTSUS 4421.90.97.40 (formerly HTSUS 4421.90.98.40).
- Box-spring frame kits: if they contain the following wooden pieces—two side rails, two end (or top) rails and varying numbers of slats. The side rails and the end rails should be radius-cut at both ends. The kits should be individually packaged, they should

contain the exact number of wooden components needed to make a particular box spring frame, with no further processing required. None of the components exceeds 1" in actual thickness or 83" in length.

- Radius-cut box-spring-frame components, not exceeding 1" in actual thickness or 83" in length, ready for assembly without further processing. The radius cuts must be present on both ends of the boards and must be substantial cuts so as to completely round one corner. \$ Fence pickets requiring no further processing and properly classified under HTSUS 4421.90.70, 1" or less in actual thickness, up to 8" wide, 6" or less in length, and have finials or decorative cuttings that clearly identify them as fence pickets. In the case of dog-eared fence pickets, the corners of the boards should be cut off so as to remove pieces of wood in the shape of isosceles right angle triangles with sides measuring $\frac{3}{4}$ inch or more.

- U.S. origin lumber shipped to Canada for minor processing and imported into the United States, is excluded from the scope of this order if the following conditions are met: (1) the processing occurring in Canada is limited to kiln-drying, planing to create smooth-to-size board, and sanding, and (2) if the importer establishes to U.S. Customs and Border Protection's (CBP) satisfaction that the lumber is of U.S. origin.

- Softwood lumber products contained in single family home packages or kits,² regardless of tariff classification, are excluded from the scope of the orders if the following criteria are met:

1. The imported home package or kit constitutes a full package of the number of wooden pieces specified in the plan, design or blueprint necessary to produce a home of at least 700 square feet produced to a specified plan, design or blueprint;

2. The package or kit must contain all necessary internal and external doors and windows, nails, screws, glue, subfloor, sheathing, beams, posts, connectors and if included in purchase contract decking, trim, drywall and roof shingles specified in the plan, design or blueprint;

3. Prior to importation, the package or kit must be sold to a retailer of complete home packages or kits pursuant to a valid purchase contract referencing the

²To ensure administrability, we clarified the language of this exclusion to require an importer certification and to permit single or multiple entries on multiple days as well as instructing importers to retain and make available for inspection specific documentation in support of each entry.

particular home design plan or blueprint, and signed by a customer not affiliated with the importer;

4. The whole package must be imported under a single consolidated entry when permitted by CBP, whether or not on a single or multiple trucks, rail cars or other vehicles, which shall be on the same day except when the home is over 2,000 square feet;

5. The following documentation must be included with the entry documents:

- A copy of the appropriate home design, plan, or blueprint matching the entry;
- A purchase contract from a retailer of home kits or packages signed by a customer not affiliated with the importer;
- A listing of inventory of all parts of the package or kit being entered that conforms to the home design package being entered;
- In the case of multiple shipments on the same contract, all items listed immediately above which are included in the present shipment shall be identified as well.

We have determined that the excluded products listed above are outside the scope of this order provided the specified conditions are met. Lumber products that CBP may classify as stringers, radius cut box-spring-frame components, and fence pickets, not conforming to the above requirements, as well as truss components, pallet components, and door and window frame parts, are covered under the scope of this order and may be classified under HTSUS subheadings 4418.90.40.90, 4421.90.70.40, and 4421.90.98.40. Due to changes in the 2002 HTSUS whereby subheading 4418.90.40.90 and 4421.90.98.40 were changed to 4418.90.45.90 and 4421.90.97.40, respectively, we are adding these subheadings as well.

In addition, this scope language has been further clarified to now specify that all softwood lumber products entered from Canada claiming non-subject status based on U.S. country of origin will be treated as non-subject U.S.-origin merchandise under the countervailing duty order, provided that these softwood lumber products meet the following condition: upon entry, the importer, exporter, Canadian processor and/or original U.S. producer establish to CBP's satisfaction that the softwood lumber entered and documented as U.S.-origin softwood lumber was first produced in the United States as a lumber product satisfying the physical parameters of the softwood lumber

scope.³ The presumption of non-subject status can, however, be rebutted by evidence demonstrating that the merchandise was substantially transformed in Canada.

Initiation of Changed Circumstances Review

Pursuant to section 751(b)(1) of the Tariff Act of 1930, as amended (the Act), the Department will conduct a changed circumstances review upon receipt of information concerning, or a request from an interested party for a review of, an antidumping duty order which shows changed circumstances sufficient to warrant a review of the order. The petitioner contends that, now that Slocan and Canfor are no longer separate companies, they should have a combined cash-deposit rate. In accordance with 19 CFR 351.216(d), the Department finds there is sufficient information to warrant initiating a changed circumstances review. Therefore, pursuant to section 751(b)(1) of the Act and 19 CFR 351.216(d), we are initiating a changed circumstances administrative review to determine the facts surrounding the merger and what cash-deposit rate should be applied to entries produced and exported by the merged entity.

The Department will publish in the **Federal Register** a notice of preliminary results of changed circumstances antidumping duty administrative review in accordance with 19 CFR 351.221(b)(4) and 351.221(c)(3)(i), which will set forth the Department's preliminary factual and legal conclusions. Pursuant to 19 CFR 351.221(b)(4)(ii) interested parties will have an opportunity to comment on the preliminary results. The Department will issue its final results of review in accordance with the time limits set forth in 19 CFR 351.216(e).

This notice is in accordance with section 751(b)(1) of the Act.

Dated: May 4, 2004.

James J. Jochum,

Assistant Secretary for Import Administration.

Applications for Duty-Free Entry of Scientific Instruments

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 a.m. and 5 p.m. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

Docket Number: 03-053. *Applicant:* Case Western Reserve University, 10900 Euclid Avenue, Cleveland, OH 44106.

Instrument: Scanning Near-Field Optical Microscope, Model ALPHASNOM. *Manufacturer:* WITEC, Germany. *Intended Use:* The instrument is intended to be used to examine and investigate:

1. The location of nanometer sized minerals within collagen fibril templates and the alignment of collagen fibrils with respect to each other.
2. The rate of diffusion of Ca ions normal to the neuron membrane surface after stimulating Ca ion channels to conduct.
3. Relative placement of fluorescently labeled proteins residing on sphingolipid rafts on T cell membranes.
4. Alignment of liquid crystal molecules at a glass surface.
5. Surface diffusion of fluorescently labeled antibodies conjugated to proteins inserted in fluorosomes.

Application accepted by Commissioner of Customs: April 7, 2004.

Docket Number: 04-006. *Applicant:* The Jackson Laboratory, 600 Main Street, Bar Harbor, ME 04609.

Instrument: Electron Microscope, Model JEM-1230 (HC). *Manufacturer:* Jeol Ltd., Japan. *Intended Use:* The instrument is intended to be used to investigate:

1. Morphological studies in the area of eye research including corneal disease, glaucoma, and retinal degenerations.
2. Development of progressive ataxia correlated with progressive neuronal loss in the cerebellum of a novel mutant mouse strain.

3. Characterizing trophoblast stem (TS) cell differentiation *in vitro*.

4. Severe hemolytic anemia in mice (hereditary spherocytosis) with deficiencies of the red cell cytoskeletal proteins alpha spectrin, beta spectrin or ankyrin.

Application accepted by Commissioner of Customs: April 6, 2004.

Docket Number: 04-007. *Applicant:* Argonne National laboratory. *Instrument:* UHV STM Microscope with Cryostat. *Manufacturer:* Unisoku Scientific Instruments, Japan. *Intended Use:* The instrument is intended to be used for low temperature microscopy and spectroscopy of superconductors and semiconductors and to study surface reconstruction and conditioning, vortex imaging and measurement of phonon spectra in materials to obtain a better understanding of the mechanisms of superconductivity and other electronic phenomena.

Application accepted by Commissioner of Customs: April 10, 2004.

Docket Number: 04-008. *Applicant:* California Institute of Technology. *Instrument:* Dual Beam SEM/FIB System, Model Nova 600 NanoLab. *Manufacturer:* FEI Company, Japan. *Intended Use:* The instrument is intended to be used to investigate:

1. Deposition of contacts and local metallization for connecting nano-devices.
2. Definition of gratings and lenses on optical fibers as well as ring and sphere resonators.
3. Ion-beam assisted intermixing of semiconductors for low-loss optical devices.
4. Rapid prototyping of nano-electric and nano-photon devices.
5. Identification of corrosion products for surface analysis and mineral analysis.

Application accepted by Commissioner of Customs: April 19, 2004.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.
