SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On August 26, 2004 (69 FR 52505), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OW-2004-0030, which is available for public viewing at the Water Docket in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Water Docket is (202) 566-2426. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the

electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: Establishing No-Discharge Zones (NDZs) Under Clean Water Act Section 312 (Renewal).

Abstract: (A) Sewage No-discharge Zones: The need for EPA to obtain information for the establishment of no-discharge zones (NDZs) for vessel sewage in State waters stems from CWA sections 312(f)(3), (f)(4)(A), and (f)(4)(B), and subsequent regulations at 40 CFR 140.4(a-c). NDZs are established to provide State and local governments with additional protection of waters from treated or untreated vessel sewage. There are 3 ways in which NDZs for vessel sewage can be established. This ICR discusses the information requirements associated with the establishment of NDZs for vessel sewage. The responses to this collection of information are required to obtain the benefit of a sewage NDZ (see 33 U.S.C. 1322). The information collection activities discussed in this ICR do not require the submission of any confidential information.

(B) UNDS No-discharge Zones: Under section 312(n) of the Clean Water Act ("Uniform National Discharge Standards for Vessels of the Armed Forces" or "UNDS") NDZs for discharges from Armed Forces vessels may be established by either State prohibition or EPA prohibition following the procedures in 40 CFR part 1700. UNDS also provides that the Governor of any State may petition EPA and the Secretary of Defense to review any determination or standard promulgated under the UNDS program if there is significant new information that could reasonably result in a change to the determination or standard. This ICR discusses the information that will be required from a State if it decides to establish a NDZ by State prohibition or apply for a NDZ by EPA prohibition, and the information that will be required from a State if it decides to submit a petition for review. The responses to this collection of information are required to obtain the benefit of an UNDS NDZ or a review of an UNDS determination or standard (see 33 U.S.C. 1322(n)). The information collection activities discussed in this ICR do not require the submission of any confidential information.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are

identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 138 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Entities potentially affected by this action are State, Tribal, and local governments.

Estimated Number of Respondents: 16.

Frequency of Response: One-time reporting.

Estimated Total Annual Hour Burden: 2,207.

Estimated Total Annual Cost: \$87,000, which includes \$2,000 annualized capital or O&M costs and \$85,000 annual labor costs.

Changes in the Estimates: There is no change in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

Dated: October 26, 2004.

Title: Significant New Alternatives Policy (SNAP) (40 CFR Part 82, Subpart G) (Renewal).

Abstract: Information collected under this rulemaking is necessary to implement the requirements of the Significant New Alternatives Policy (SNAP) program for evaluating and regulating substitutes for ozone-depleting chemicals being phased out under the stratospheric ozone protection provisions of the Clean Air Act (CAA). Under CAA section 612, EPA is authorized to identify and restrict the use of substitutes for class I and class II ozone-depleting substances where EPA determines other alternatives exist that reduce overall risk to human health and the environment. The SNAP program, based on information collected from the manufacturers, formulators, and/or sellers of such substitutes, identifies acceptable substitutes. Responses to the collection of information are mandatory under section 612 for anyone who sells or, in certain cases, uses substitutes for

an ozone-depleting substance after April 18, 1994, the effective date of the final rule. Under CAA section 114(c), emissions information may not be claimed as confidential.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: For persons filing a SNAP Information Notice or petition, the reporting burden is estimated to average 150 hours per year. For persons filing a TSCA/SNAP Addendum, the reporting burden is estimated to average 46 hours per year. For persons filing a notification of test marketing activity, the reporting burden is estimated to average 2 hours per year. For persons keeping records of use of a substitute subject to narrowed use limits, the recordkeeping burden is estimated to average 27 hours per year. For persons keeping records of a small volume use, the recordkeeping burden is estimated to average 12 hours per year. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Manufacturers, importers, formulators and processors of substitutes for ozone-depleting substances.

Estimated Number of Respondents: 279.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 8972.

Estimated Total Annual Cost: \$546,834, which includes \$44,142 annualized capital/startup costs, \$260 annual O&M costs, and \$502,432 annual labor costs.

Changes in the Estimates: There is a decrease of 1391 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR

Burdens. This decrease is an adjustment to estimates based upon more widely available alternatives reducing the total number of users needing to keep records for alternatives subject to narrowed use limits.

Title: Environmental Impact Assessment of Nongovernmental Activities in Antarctica (Renewal).

Abstract: The Environmental Protection Agency's (EPA's) regulations at 40 CFR part 8, Environmental Impact Assessment of Nongovernmental Activities in Antarctica (Final Rule), were promulgated pursuant to the Antarctic Science, Tourism, and Conservation Act of 1996 (Act), 16 U.S.C. 2401 *et seq.*, as amended, 16 U.S.C. 2403a, which implements the Protocol on Environmental Protection (Protocol) to the Antarctic Treaty of 1959 (Treaty). The requirements of the Final Rule apply to operators of nongovernmental expeditions organized in or proceeding from the territory of the United States to Antarctica and include commercial and non-commercial expeditions.

Environmental Documentation. Persons subject to the Final Rule must prepare environmental documentation to support the operator's determination regarding the level of environmental impact of the proposed expedition. Environmental documentation includes a Preliminary Environmental Review Memorandum (PERM), an Initial Environmental Evaluation (IEE), or a Comprehensive Environmental Evaluation (CEE). The environmental document is submitted to the Office of Federal Activities (OFA).

The Protocol and the Final Rule also require an operator to employ procedures to assess and provide a regular and verifiable record of the actual impacts of an activity which proceeds on the basis of an IEE or CEE. The record developed through these measures needs to be designed to: (a) Enable assessments to be made of the extent to which environmental impacts of nongovernmental expeditions are consistent with the Protocol; and (b) provide information useful for minimizing and mitigating those impacts and, where appropriate, on the need for suspension, cancellation, or modification of the activity. Moreover, an operator needs to monitor key environmental indicators for an activity proceeding on the basis of a CEE. An operator may also need to carry out monitoring in order to assess and verify the impact of an activity for which an IEE would be prepared. For activities that require an IEE, an operator should be able to use procedures currently being voluntarily utilized by operators to provide the required information. Should an activity require a CEE, the operator should consult with EPA to: (a)
