BILLING CODE 4210-33-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4889-N-02]

Change in Effective Date in Notice for Designation of Difficult Development Areas Under Section 42 of the Internal Revenue Code of 1986

AGENCY: Office of the Secretary, HUD.

ACTION: Notice.

SUMMARY: This document amends a notice that designates 2004 Difficult Development Areas (the 2004 notice), by extending 2003 eligibility for areas that were designated as 2003 Difficult Development Areas in a notice published in 2002 (the 2003 notice), but were not so designated in the 2004 notice. The amendment is necessary because publication of the 2004 notice only two weeks prior to its effective date did not provide adequate notice to affected entities. This notice (1) changes the definition of effective date to relate it to the filing date of an application for Low-Income Housing Tax Credits or tax-exempt bond financing, (2) extends the effective date for areas designated as Difficult Development Areas in the 2003 notice that were not Difficult Development Areas in the 2004 notice, and (3) changes the definition of effective date for the Difficult Development Areas and Qualified

Census Tracts in the 2004 notice to relate it to the filing date of an application for Low-Income Housing Tax Credits or tax-exempt bond financing, but does not change the dates themselves.

SUPPLEMENTARY INFORMATION:

Background

On December 19, 2003, HUD published the 2004 notice in the **Federal Register** designating Difficult Development Areas and Qualified Census Tracts for calendar year 2004. The 2004 notice provides that the lists of Difficult Development Areas are effective if the credits are allocated after December 31, 2003; and, in the case of a building described in section 42(h)(4)(B) of the Internal Revenue Code (Code), the lists are effective if the

bonds are issued and the building is placed in service after December 31, 2003.

Section 42(d)(5)(C) of the Code defines a Difficult Development Area as any area designated by the Secretary of HUD as an area that has high construction, land, and utility costs relative to the area median gross income. All designated Difficult Development Areas in metropolitan statistical areas (MSAs) may not contain more than 20 percent of the aggregate population of all MSAs, and all designated areas not in MSAs (nonmetropolitan areas) may not contain more than 20 percent of the aggregate population of all nonmetropolitan areas. In the case of buildings located in Difficult Development Areas, eligible basis can be increased by as much as 130 percent of what it would otherwise be. This means that the available Low-Income Housing Tax Credits also can be increased by as much as 30 percent.

HUD typically issues a notice in the **Federal Register** in the last quarter of a calendar year designating Difficult Development Areas for the forthcoming calendar year. HUD uses a ranking procedure to select Difficult Development Areas, subject to the 20 percent population cap. Because income and housing cost conditions change, new areas are added to the lists of designated Difficult Development Areas each year and some old areas are dropped from the lists. The 2004 lists published on December 19, 2003, do not include 10 metropolitan areas and 68 nonmetropolitan areas on the 2003 lists of Difficult Development Areas and include 3 metropolitan areas and 47 nonmetropolitan areas not on the 2003 lists of Difficult Development Areas.

Determination

HUD recognizes that, with every new designation of Difficult Development Areas, some metropolitan areas and nonmetropolitan areas lose their designation and rental projects planned in these areas lose their eligibility for
