

**DEPARTMENT OF THE INTERIOR****Bureau of Land Management**

[ES-960-1420-BJ-TRST] ES-052760,  
Group No. 165, Wisconsin

**Eastern States: Filing of Plat of Survey**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of Filing of Plat of Survey; Wisconsin.

**SUMMARY:** The Bureau of Land Management (BLM) will file the plat of survey of the lands described below in the BLM-Eastern States, Springfield, Virginia, 30 calendar days from the date of publication in the **Federal Register**.

**FOR FURTHER INFORMATION CONTACT:** Bureau of Land Management, 7450 Boston Boulevard, Springfield, Virginia 22153. Attn: Cadastral Survey.

**SUPPLEMENTARY INFORMATION:** This survey was requested by the Bureau of Indian Affairs.

The lands we surveyed are:

**Fourth Principal Meridian, Wisconsin**

*T. 52 N., R. 4 W.*

The plat of survey represents the dependent resurvey of a portion of the east and south boundaries, a portion of the subdivisional lines; the subdivision of sections 26, 27, 28 and 33, in Township 52 North, Range 4 West, Fourth Principal Meridian, Wisconsin, and was accepted December 14, 2004. We will place a copy of the plat we described in the open files. It will be available to the public as a matter of information.

If BLM receives a protest against this survey, as shown on the plat, prior to the date of the official filing, we will stay the filing pending our consideration of the protest.

We will not officially file the plat until the day after we have accepted or dismissed all protests and they have become final, including decisions on appeals.

Dated: December 14, 2004.

**Stephen D. Douglas,**  
*Chief Cadastral Surveyor.*

**DEPARTMENT OF THE INTERIOR****National Park Service**

**Notice of Intent to Repatriate Cultural Items: U.S. Department of Agriculture, Forest Service, Chugach National Forest, Anchorage, AK**

**AGENCY:** National Park Service.

**ACTION:** Notice.

Notice is here given under the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3005, of the intent to repatriate cultural items in the possession of the U.S. Department of Agriculture, Forest Service, Chugach National Forest, Anchorage, AK, that meet the definition of "unassociated funerary objects" under 25 U.S.C. 3001.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the cultural items. The National Park Service is not responsible for the determinations in this notice.

The cultural items are 10 adzed planks.

In 1980, U.S. Department of the Interior, Bureau of Indian Affairs (BIA) and U.S. Department of the Interior, National Park Service, Cooperative Park Studies Unit (CPSU) archeologists conducted a survey of Mummy Island I, a 14 (h)(1) selection in Prince William Sound, AK. Cultural items, along with human remains, were collected from five areas at the site. The cultural items are 10 adzed planks. The human remains were reinterred at the original location on October 9, 1990. Chugach National Forest does not have physical custody or control of human remains from the Mummy Island I site.

On October 2, 1990, U.S. Department of Agriculture, Forest Service, Chugach National Forest archeologists conducted an intentional excavation at Mummy Island I in preparation for the reburial of the human skeletal remains that were collected by BIA/CPSU in 1980. Archeological evidence indicates that the Mummy Island I site is a prehistoric Chugach/Sugpiaq rockshelter.

Officials of Chugach National Forest have determined that, pursuant to 25 U.S.C. 3001 (3)(B), the 10 cultural items are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of a Native American individual. Officials of the Chugach National Forest also have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the unassociated funerary objects and the Native Village of Chenega, which is represented by Chugach Alaska Corporation.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the unassociated funerary objects should contact Linda Yarborough, Forest Archeologist, Chugach National Forest, 3301 C Street, Suite 300, Anchorage, AK 99503, telephone (907) 271-2511, fax (907) 271-2725, before January 21, 2005. Repatriation of the unassociated funerary objects to the Chugach Alaska Corporation on behalf of the Native Village of Chenega may proceed after that date if no additional claimants come forward.

The Chugach National Forest is responsible for notifying Chugach Alaska Corporation, Chenega Corporation, Native Village of Chenega, Tatitlek Corporation, Native Village of Tatitlek, English Bay Corporation, Native Village of Nanwalek, Port Graham Corporation, Native Village of Port Graham, Eyak Corporation, and Native Village of Eyak that this notice has been published.

**DEPARTMENT OF THE INTERIOR****National Park Service**

**Notice of Inventory Completion: U.S. Department of Agriculture, Forest Service, Lassen National Forest, Susanville, CA, and Phoebe A. Hearst Museum of Anthropology, University of California, Berkeley, Berkeley, CA**

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects in the control of the U.S. Department of Agriculture, Forest Service, Lassen National Forest, Susanville, CA, and in the physical custody of the Phoebe A. Hearst Museum of Anthropology, University of California, Berkeley, Berkeley, CA. The human remains and associated funerary objects were removed from Tehama County, CA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains and

associated funerary objects. The National Park Service is not responsible for the determinations in this notice.

A detailed assessment of the human remains was made by Lassen National Forest professional staff in consultation with representatives of the Pit River Tribe, California; and Redding Rancheria, California.

In 1952 and 1953, human remains representing a minimum of 59 individuals were removed from Kingsley Cave (CA-Teh-1), Tehama County, CA. Kingsley Cave is a habitation site on an unmarked tributary of Mill Creek. The site was excavated by University of California, Berkeley staff under the direction of M.A. Baumhoff. No known individuals were identified. The 405 associated funerary objects are 1 shell ornament, 1 shell, 319 clamshell beads, 43 olivella shell beads, 1 stone bead, 5 pine nut beads, 2 glass beads, 7 stone projectile points and projectile point fragments, 3 stone scrapers, 1 pestle, 1 abalone shell, 3 bone tool fragments, 1 cordage fragment, 15 fragments of organic material, and 2 lots of animal bone.

Based on characteristics of the human remains and associated funerary objects, and the presence of two glass beads, the human remains are dated to the proto-historic and historic periods, and to a lesser extent from the late prehistoric period.

In 1956, human remains representing a minimum of three individuals were removed from Payne Cave (CA-Teh-193), Tehama County, CA. The human remains were removed during authorized excavations by the University of California Archaeological Survey. No known individuals were identified. No associated funerary objects are present.

Based on characteristics of non-funerary objects removed during the excavations, the human remains are dated to the proto-historic and historic periods.

Based on physical characteristics of the human remains, manner of burial, and the nature of the associated funerary objects, the human remains are determined to be Native American. Ethnographic and historical accounts indicate that both caves are located in areas associated with the Yana people during the late prehistoric and historic periods. The present-day descendants of the Yana people are the Pit River Tribe, California; and Redding Rancheria, California.

Officials of Lassen National Forest have determined that, pursuant to 25 U.S.C. 3001 (9-10), the human remains described above represent the physical remains of at least 62 individuals of

Native American ancestry. Officials of Lassen National Forest also have determined that, pursuant to 25 U.S.C. 3001 (3)(A), the 405 objects described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony. Lastly, officials of Lassen National Forest have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and associated funerary objects and the Pit River Tribe, California; and Redding Rancheria, California.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains and associated funerary objects should contact Laurie Tippin, Forest Supervisor, Lassen National Forest, Susanville, CA 96130, telephone (530) 257-2151, before January 21, 2005. Repatriation of the human remains and associated funerary objects to the Pit River Tribe, California; and Redding Rancheria, California, may proceed after that date if no additional claimants come forward.

The Lassen National Forest is responsible for notifying the Pit River Tribe, California; and Redding Rancheria, California, that this notice has been published.

Dated: November 2, 2004

## DEPARTMENT OF THE INTERIOR

### National Park Service

#### Notice of Intent to Repatriate Cultural Items: American Museum of Natural History, New York, NY

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3005, of the intent to repatriate cultural items in the possession of the American Museum of Natural History, New York, NY, that meet the definition of "unassociated funerary objects" under 25 U.S.C. 3001.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal

agency that has control of the cultural items. The National Park Service is not responsible for the determinations in this notice.

The 20 cultural items are a Chilkat blanket and a shaman's kit that consists of 7 masks, 1 waist robe, 1 shoulder robe, 1 bead, 1 crown, 1 headdress ornament, 1 carving, 2 bracelets, 1 charm, 1 club, 1 pair of earrings, and 1 nose ring.

The Chilkat blanket is woven from mountain goat wool and is ornamented to represent a hawk. The blanket is fringed along the sides and bottom. All seven masks from the shaman's kit are carved from wood, painted, and ornamented in various designs. The first mask is painted red, green, and brown and is ornamented with devilfish tentacles encircling the face. The second mask is painted red, green, and brown and represents a sun dog spirit. The third mask is painted red, green, and brown, is ornamented with bear skin, and represents the spirit living on a small lake. The fourth mask is painted green and brown, is ornamented with black bear fur across the forehead and copper at the nostrils and lips, and represents a land otter man. The fifth mask is painted green, red, and brown, is ornamented with brass at the eyes, nostrils, and lips, and represents the spirit of the trout canoe. The sixth mask is painted green, red, and brown, and represents the spirit living in the stars. The seventh mask is painted green, red, and brown, is ornamented with a copper tongue, and represents the deer spirit. The waist robe is made from a caribou hide that is ornamented with deer hoofs, crested puffin bills, and feathers. The shoulder robe is made from moose hide and represents a whale. The bead is made of carved bone. The crown is made of mountain goat horns. The headdress ornament is made from wood and is carved to represent a bear's head below the dorsal fin of a killer whale. The carving represents a salmon upon which is carved the figure of a crab. The two bracelets are made of bone and one is carved with intersecting lines. The charm is made of stone and is carved to represent an eagle. The club is made of carved wood and represents a salmon with a human head in its mouth. The earrings are made of bone and are carved to represent a salmon. The nose ring is made of ivory.

At an unknown date, Lieutenant George Thornton Emmons acquired the Chilkat blanket. In 1894, the American Museum of Natural History purchased the Chilkat blanket from Lieutenant Emmons and accessioned it into its collection that same year.
