

Service Bulletin 747-53-2483, Revision 1, dated August 28, 2003; describe procedures for submitting certain information to the manufacturer, this AD does not require that action.

Alternative Methods of Compliance (AMOCs)

(k)(1) The Manager, Seattle ACO, has the authority to approve AMOCs for this AD, if requested in accordance with the procedures found in 14 CFR 39.19.

(2) An AMOC that provides an acceptable level of safety may be used for any repair required by this AD, if it is approved by a Boeing Company Designated Engineering Representative who has been authorized by the Manager, Seattle ACO, to make those findings. For a repair method to be approved, the approval must specifically refer to this AD.

Issued in Renton, Washington, on October 21, 2004.

Kalene C. Yanamura,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2002-13247; Airspace Docket No. 02-AAL-5]

RIN 2120-AA66

Proposed Modification and Revocation of Federal Airways; AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM); withdrawal.

SUMMARY: This action withdraws the notice of proposed rulemaking (NPRM) published in the **Federal Register** on November 7, 2002. In that action, the FAA proposed to modify one jet route (J-133); and revoke one jet route 711 (J-711) in Alaska. The FAA has decided to withdraw the proposed rule since the Hinchinbrook Nondirectional Radio Beacon (NDB) is being decommissioned. The replacement of the Hinchinbrook NDB and the revision of several airways in Alaska will be reflected in a subsequent NPRM.

FOR FURTHER INFORMATION CONTACT: Ken McElroy, Office of System Operations and Safety, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION: On November 7, 2002, an NPRM was published in the **Federal Register**

proposing to amend 14 Code of Federal Regulations (14 CFR) part 73 (part 73) to revise J-133 between the Sitka, AK, NDB, and the Hinchinbrook, AK, NDB (67 FR 67800). The Hinchinbrook NDB will be decommissioned and replaced with the Orca Bay NDB. The replacement of the Hinchinbrook NDB and the revision of several airways in Alaska will be reflected in a subsequent NPRM.

List of Subjects in 14 CFR part 71

Airspace, Incorporation by reference, Navigation (air).

The Withdrawal

In consideration of the foregoing, the NPRM for FAA Docket No. FAA-2002-13247 and Airspace Docket No. 02-AAL-5, as published in the **Federal Register** on November 7, 2002 (67 FR 67800), is hereby withdrawn.

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854; 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

Issued in Washington, DC, on October 21, 2004.

Reginald C. Matthews,

Manager, Airspace and Rules.

BILLING CODE 4910-13-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[CGD05-04-169]

RIN 1625-AA09

Drawbridge Operation Regulations: New Jersey Intracoastal Waterway, Point Pleasant Canal, NJ

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to change the regulations that govern the operation of the Route 13/Lovelandtown Bridge across Point Pleasant Canal, at New Jersey Intracoastal Waterway (NJICW) mile 3.9, in Point Pleasant, NJ. The bridge will be closed to navigation beginning 8 a.m. on January 3, 2005, through 5 p.m. on March 31, 2005. This closure is necessary to facilitate extensive mechanical rehabilitation and to maintain the bridge's operational integrity.

DATES: Comments and related material must reach the Coast Guard on or before December 28, 2004.

ADDRESSES: You may mail comments and related material to Commander

(obr), Fifth Coast Guard District, Federal Building, 4th Floor, 431 Crawford Street, Portsmouth, Virginia 23704-5004, or they may be hand delivered to the same address between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays. The Commander (obr), Fifth Coast Guard District maintains the public docket for this rulemaking. Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, will become part of this docket and will be available for inspection or copying at the above address.

FOR FURTHER INFORMATION CONTACT:

Waverly W. Gregory, Jr., Bridge Administrator, Fifth Coast Guard District, at (757) 398-6222.

SUPPLEMENTARY INFORMATION:

Request for Comments

We encourage you to participate in this rulemaking by submitting comments and related material. If you do so, please include your name and address, identify the docket number for this rulemaking CGD05-04-169, indicate the specific section of this document to which each comment applies, and give the reason for each comment. Please submit all comments and related material in an unbound format, no larger than 8½ by 11 inches, suitable for copying. If you would like confirmation to know if they were received, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period. We may change this proposed rule in view of those comments.

Public Meeting

We do not now plan to hold a public meeting. But you may submit a request for a meeting by writing to the Commander, Fifth Coast Guard District at the address under **ADDRESSES** explaining why one would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time at a place announced by a later notice in the **Federal Register**.

Background and Purpose

The New Jersey Department of Transportation (NJDOT) owns and operates the vertical-lift span of the Route 13/Lovelandtown Bridge across Point Pleasant Canal, in Point Pleasant, New Jersey. The bridge has a vertical clearance in the closed and full open position of 30 feet and 65 feet, at mean high water, respectively. The current regulations are outlined under the general regulations at 33 CFR 117.5,

which require the bridge to open on signal.

Carr & Duff, Inc., (the contractor), on behalf of NJDOT, has requested a change to the existing regulations for the Route 13/Lovelandtown Bridge to facilitate necessary repairs. The repairs consist of the reinstallation of the motor, brakes and new electrical gear and control systems of the bridge. To facilitate the repairs, the vertical-lift span of the drawbridge will be locked in the closed-to-navigation position from 8 a.m. on January 3, 2005, through 5 p.m. on March 31, 2005.

The Coast Guard reviewed the bridge logs. The logs revealed for the months of January, February and March 2004, the bridge opened for vessels 5, 2, and 9 times, respectively. Vessel operators with mast height lower than 30 feet still can transit thorough the drawbridge across Point Pleasant Canal during the rehabilitation. With 24 hours advance notice, the contractor will provide a bridge opening between the hours of 9 a.m. and 2 p.m. Monday through Friday for vessels with mast height greater than 30 feet requiring an opening of draw span during the proposed closure period. Calling the Bridge Operations Office at (732) 528-9494 or the contractor at (215) 416-1235 will provide for advance opening requests. Also, the Atlantic Ocean is an alternate route for vessels with a mast height greater than 30 feet. Therefore, vessels should not be negatively impacted by this proposal.

Discussion of Proposed Rule

The Coast Guard proposes to amend the regulations governing the Route 13/Lovelandtown Bridge across Point Pleasant Canal, ICW mile 3.9, which currently opens on signal. The Coast Guard proposes to temporarily amend 33 CFR 117.733 by adding a new paragraph (c) which would contain the operating schedule for the Route 13/Lovelandtown Bridge across Point Pleasant Canal, ICW mile 3.9, in Point Pleasant. This proposed rule would allow the bridge to remain closed to navigation from 8 a.m. on January 5, 2005, to 5 p.m. on March 31, 2005, and the advance notice condition for opening the bridge. Upon completion of the repairs, the bridge would return to the current operating schedule.

Regulatory Evaluation

This proposed rule is not a "significant regulatory action" under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office

of Management and Budget has not reviewed it under that Order. It is not "significant" under the regulatory policies and procedures of the Department of Homeland Security.

We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation under the regulatory policies and procedures of DHS is unnecessary.

We reached this conclusion based on the fact that the proposed changes have only a minimal impact on maritime traffic transiting the bridge. Vessel operators with mast height lower than 30 feet still can transit thorough the drawbridge across Point Pleasant Canal during the rehabilitation. For vessels with mast height greater than 30 feet requiring an opening of draw span during the proposed closure period, the contractor will provide a bridge opening between the hours of 9 a.m. and 2 p.m. Monday through Friday if requested 24 hours in advance. Also, the Atlantic Ocean is an alternate route for vessels with a mast height greater than 30 feet.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601-612), we have considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. The term "small entities" comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule would not have a significant economic impact on a substantial number of small entities.

This proposed rule would not have a significant economic impact on a substantial number of small entities because vessels with mast height greater than 30 feet requiring an opening of draw span during the proposed closure period, the contractor will provide a bridge opening between the hours of 9 a.m. and 2 p.m. Monday through Friday if requested with 24 hours in advance. This should not prove to be problematic to commercial operations because they normally schedule the movement of their equipment well in advance. Vessel operators with mast height lower than 30 feet still can transit thorough the drawbridge. Also, the Atlantic Ocean is an alternate route for vessels with a mast height greater than 30 feet.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this proposed rule would have

a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Public Law 104-121), we want to assist small entities in understanding this proposed rule so that they can better evaluate its effects on them and participate in the rulemaking process. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact Waverly W. Gregory, Jr., Bridge Administrator, Fifth Coast Guard District, (757) 398-6222.

Collection of Information

This proposed rule would call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520.).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this proposed rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531-1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this proposed rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This proposed rule would not affect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice

Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to security that might disproportionately affect children.

Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this proposed rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies.

This proposed rule does not use technical standards. Therefore, we did

not consider the use of voluntary consensus standards.

Environment

We have analyzed this proposed rule under Commandant Instruction M16475.1D, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (32)(e) of the Instruction, from further environmental documentation.

List of Subjects in 33 CFR Part 117

Bridges.

Regulations

For the reasons discussed in the preamble, the Coast Guard proposes to temporarily amend 33 CFR part 117 as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 33 CFR 1.05–1(g); Department of Homeland Security Delegation No. 0170.1; section 117.255 also issued under the authority of P.L. 102–587, 106 Stat. 5039.

2. From 8 a.m. on January 3, 2005, through 5 p.m. on March 31, 2005, add a new temporary paragraph (l) to § 117.733 to read as follows:

§ 117.733 New Jersey Intracoastal Waterway.

* * * * *

(l) The draw of the Route 13/ Lovelandtown Bridge across Point Pleasant Canal, at mile 3.9, at Point Pleasant, need not be opened for the passage of vessels from 8 a.m. on January 3, 2005, through 5 p.m. on March 31, 2005. However, between 9 a.m. to 2 p.m. Monday to Friday, the draw shall open on signal if at least 24 hours advance notice is given by calling (732) 528–9494 or (215) 416–1235.

Dated: October 19, 2004.

Sally Brice-O'Hara,

*Rear Admiral, U. S. Coast Guard,
Commander, Fifth Coast Guard District.*

BILLING CODE 4910–15–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 50

[FRL–7831–3]

Air Quality Criteria for Particulate Matter

AGENCY: Environmental Protection Agency.

ACTION: Notice of Availability of Final Document.

SUMMARY: This notice announces the availability of a final document, Air Quality Criteria for Particulate Matter (EPA/600/P–99/002aF, EPA/600/P–99/002bF) that was prepared by the U.S. Environmental Protection Agency's (EPA) National Center for Environmental Assessment (NCEA) of the Office of Research and Development (ORD).

DATES: This document will be available the week of October 25, 2004.

ADDRESSES: The document will be made available electronically through the NCEA Web site (<http://www.epa.gov/ncea/publications>). A limited number of paper or CD-ROM copies will be available from the EPA's National Service Center for Environmental Publications (NSCEP), P.O. Box 42419, Cincinnati, OH 45242; telephone: 1 (800) 490–9198 or (513) 489–8190; facsimile: (513) 489–8695. Please provide your name, your mailing address, the title and the EPA number of the requested publication.

FOR FURTHER INFORMATION CONTACT: For questions on availability of the document, contact Diane Ray, NCEA, telephone: (919) 541–3789, fax: (919) 541–1818, or email ray.diane@epa.gov. For technical information, contact Robert Elias, Ph.D., NCEA, fax: (919) 541–1818 or email: elias.robert@epa.gov.

SUPPLEMENTARY INFORMATION: Section 108 (a) of the Clean Air Act directs the Administrator to identify certain pollutants which "may reasonably be anticipated to endanger public health and welfare" and to issue air quality criteria for them. These air quality criteria are to "accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air. * * *" EPA is then to establish National Ambient Air Quality Standards (NAAQS) for each pollutant for which EPA has issued criteria. Section 109 (d) of the Act requires "thorough" periodic review and, if appropriate, revision of
