## DEPARTMENT OF ENERGY

### Bonneville Power Administration; Summit/Westward Project

**AGENCY:** Bonneville Power Administration (BPA), Department of Energy (DOE).

**ACTION:** Notice of availability of Revised Record of Decision (ROD).

**SUMMARY:** This notice announces the availability of the Revised ROD to offer contract terms for an optional electrical interconnection of the proposed Summit/Westward Project into the Federal Columbia River Transmission System at a point near the existing Wauna Substation of the Clatskanie People's Utility District (CPUD), Columbia County, Oregon. The project developer, Westward Energy, LLC, is evaluating this interconnection plan along with BPA's previous offer for interconnection at BPA's Allston Substation (documented in a ROD dated July 25, 2003). BPA's decision to offer contract terms is consistent with our Business Plan Final Environmental Impact Statement (DOE/EIS-0183, June 1995) and the Business Plan ROD (August 1995). In a related action, BPA has also decided to facilitate CPUD construction of a new 230-kilovolt transmission line by allowing joint use of BPA right-of-way through partial reconstruction of BPA's 115-kilovolt Allston-Astoria No. 1 transmission line from single-circuit H-frame wood-pole design to double-circuit single metal-pole design. Terms of BPA's participation in this project will be documented in a Construction Agreement.

**ADDRESSES:** Copies of the Business Plan EIS and ROD, the Summit/Westward ROD of July 25, 2003, and this Revised ROD may be obtained by calling BPA's toll-free document request line, 1-800-622-4520. These documents are also available on our Web site at <http://www.efw.bpa.gov>.

## ENVIRONMENTAL PROTECTION AGENCY

[ER-FRL-6657-2]

### Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under Section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act, as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564-7167.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 2, 2004 (69 FR 17403).

#### Draft EISs

*ERP No. D-NAS-K11114-HI Rating EC2*, Outrigger Telescopes Project, Proposed for the W.M. Keck Observatory Site within the Mauna Kea Science Reserve, Funding, Construction, Installation and Operation, Island of Hawaii.

*Summary:* EPA expressed concerns about the cumulative impacts to native Hawaiian cultural resources, visual resources, and species impacts, and asked for more information supporting the selection of the proposed alternative.

*ERP No. D-NOA-K91013-HI Rating EC2*, Seabird Interaction Mitigation Methods, To Reduce Interaction with Seabird in Hawaii-Based Longline Fishery and Pelagic Squid Fishery Management, To Establish an Effective Management Framework for Pelagic Squid Fisheries, Fishery Management Plan, Pelagic Fisheries of the Western Pacific Region, Exclusive Economic Zone of the U.S. and High Sea.

*Summary:* EPA expressed concerns over the impacts to seabirds associated with the preferred alternative, and requested more information on the effects of the newly-established U.S. squid fishery of protected species.

*ERP No. D-NOA-L91025-00 Rating EC2*, 2005-2006 Pacific Coast Groundfish Fishery, Proposed Acceptable Biological Catch and Optimum Yield Specifications and

Management Measures, WA, OR and CA.

*Summary:* EPA expressed concerns about projected exceedences for optimum yields for canary and widow rockfish, impacts on essential fish habitat, and the need to increase observer coverage for better accounting of bycatch.

*ERP No. D-NOA-L99010-AK Rating LO*, Pribilof Islands Setting for the Annual Subsistence Harvest of Northern Fur Seals, To Determine and Publish the Take Ranges, Pribilof Islands, AK.

*Summary:* EPA does not object to the proposed harvest levels or their associated impacts.

*Summary:* EPA supports improved grazing management, but expressed environmental concerns about continued impacts to water quality from delays in reducing grazing pressure (AUMs) on allotments with less than properly functioning streams for 3-5 years or longer. EPA recommends more timely implementation of grazing improvements, including AUM reductions, on allotments with non-functioning and functioning-at-risk streams.

*ERP No. F-AFS-L65372-AK* Threemile Timber Sale, Implementation, Petersburg Ranger District, Tongass National Forest, AK.

*Summary:* No comment letter was sent to the preparing agency.

*ERP No. F-AFS-L65373-AK* Gravina Island Timber Sale, Implementation, Timber Harvest and Related Activities, Ketchikan-Misty Fiords Ranger District, Tongass National Forest, AK.

*Summary:* The Final EIS responded to EPA's concerns by developing a new alternative that combined helicopter and land-based timber extraction and selecting an alternative that is less damaging to riparian areas and greatly limited road access, protecting deer habitat and intertidal areas which are
