

requirement under FFDC section 408(d) in response to a petition submitted to the Agency. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled *Regulatory Planning and Review* (58 FR 51735, October 4, 1993). Because this rule has been exempted from review under Executive Order 12866 due to its lack of significance, this rule is not subject to Executive Order 13211, *Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use* (66 FR 28355, May 22, 2001). This final rule does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, or impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104-4). Nor does it require any special considerations under Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994); or OMB review or any Agency action under Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997). This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, section 12(d) (15 U.S.C. 272 note). Since tolerances and exemptions that are established on the basis of a petition under FFDC section 408(d), such as the exemption in this final rule, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) do not apply. In addition, the Agency has determined that this action will not have a substantial direct effect on States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999). Executive Order 13132 requires EPA to develop an accountable process to ensure “meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications.” “Policies that have federalism implications” is defined in the Executive Order to

include regulations that have “substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.” This final rule directly regulates growers, food processors, food handlers and food retailers, not States. This action does not alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of FFDC section 408(n)(4). For these same reasons, the Agency has determined that this rule does not have any “tribal implications” as described in Executive Order 13175, entitled *Consultation and Coordination with Indian Tribal Governments* (65 FR 67249, November 6, 2000). Executive Order 13175, requires EPA to develop an accountable process to ensure “meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications.” “Policies that have tribal implications” is defined in the Executive Order to include regulations that have “substantial direct effects on one or more Indian tribes, on the relationship between the Federal Government and the Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.” This rule will not have substantial direct effects on tribal governments, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified in Executive Order 13175. Thus, Executive Order 13175 does not apply to this rule.

**XIII. Congressional Review Act**

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this final rule in the **Federal Register**. This final rule is not a “major rule” as defined by 5 U.S.C. 804(2).

**International Bureau Filing System (IBFS)**

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** In this document, the Federal Communications Commission (FCC) codifies the use of the International Bureau Filing System (IBFS) as an official method of filing applications related to satellite and international telecommunications services with the Commission. In addition, this document modifies the Commission Rules to reflect mandatory electronic filing

requirements adopted in the First Space Station Reform Order and the Third Space Station Reform Order. In doing so, we amend the Commission's rules to accommodate electronic filing via IBFS. Electronic filing has proven to improve the speed and efficiency of application processing and also to expedite the availability of application information for public use and inspection.

**DATES:** Effective May 19, 2004.

**FOR FURTHER INFORMATION CONTACT:** Jacqueline Ponti, 202-418-0436 or Mary Jane Solomon, 202-418-0593.

**SUPPLEMENTARY INFORMATION:** In incorporating IBFS into the Code of Federal Regulations, applicants now have assurance in the viability of their online filings through IBFS.

Applicants may voluntarily file the following applications through IBFS.

- International Accounting Rate Change Filings.
- Submarine Cable Landing License Applications.

- Requests for Assignment of Data Network Identification Codes
- Foreign Carrier Affiliation

Notification Filings.

### Subpart Y—International Bureau Filing System

#### § 1.9000 What is the purpose of these rules?

(a) These rules are issued under the Communications Act of 1934, as amended, 47 U.S.C. 151 *et seq.*, and the Submarine Cable Landing License Act, 47 U.S.C. 34–39.

(b) These rules allow you to file many International and Satellite Services applications electronically via the Internet using the International Bureau Filing System.

(c) These rules require electronic filing of all Satellite Space Station applications, except Digital Broadcast Service (DBS) and Digital Audio Radio Service (DARS) applications.

(d) These rules require electronic filing of applications for routine earth station applications.

(e) These rules require electronic filing of applications for Earth Stations to Access a Non-U.S. Satellite Not Currently Authorized to Provide the Proposed Service in the Proposed Frequencies in the United States.

(f) This section describes requirements and conditions pertaining to electronic filing.

(g) More licensing and application descriptions and directions are in parts 1 (§ 1.767), 25, 63 (§ 63.18), and 64 of this chapter.

#### § 1.9001 Definitions.

**Application.** A request for an earth or space station radio station license, an international cable landing license, or an international service authorization, or a request to amend a pending application or to modify or renew licenses or authorizations. The term also includes the other requests that may be filed in IBFS such as transfers of control and assignments of license applications, earth station registrations, and foreign carrier affiliation notifications.

**Authorizations.** Generally, a written document or oral statement issued by us

giving authority to operate or provide service.

**International Bureau Filing System.** The International Bureau Filing System (IBFS) is a database, application filing system, and processing system for all International and Satellite services. IBFS supports electronic filing of many applications and related documents in the International Bureau, and provides public access to this information.

**International Services.** All international services authorized under parts 1, 63 and 64 of this chapter.

**Official Filing Date.**

1. You file your Satellite Space Station Application (other than DBS and DARS) or your Application for Earth Stations to Access a Non-U.S. Satellite Not Currently Authorized to provide the Proposed Service in the Proposed Frequencies in the United States in IBFS.
  2. You file all other applications in IBFS and then do one of the following:  
Send your payment (via check, bank draft, money order, credit card, or wire transfer) and FCC Form 159 to Mellon Bank.  
Pay by online credit card (through IBFS).
- Determine your application type is fee-exempt or your application qualifies for exemption to charges as provided in Part 1 of the Commission's Rules.

*Satellite Space Station Applications (other than DBS and DARS) and Applications for Earth Stations to Access a Non-U.S. Satellite Not Currently Authorized to Provide the Proposed Service in the Proposed Frequencies in the United States.* We consider a Satellite Space Station application (other than DBS and DARS) and an Application for an Earth Station to Access a Non-U.S. Satellite Not Currently Authorized to Provide the Proposed Service in the Proposed Frequencies in the United States officially filed the moment you file them through IBFS. The system tracks the

date and time of filing (to the millisecond). For purposes of the queue discussed in § 25.158 of this chapter, we will base the order of the applications in the queue on the date and time the applications are filed, rather than the "Official Filing Date" as defined here.

**All Other Applications.** We consider all other applications officially filed once you file the application in IBFS and applicable filing fees are received and approved by the FCC, unless the application is determined to be fee-exempt. We determine your official filing date based on one of the following situations:

- Your official filing date is the date and time (to the millisecond) you file your application and receive a confirmation of filing and submission ID.
- Your official filing date is:  
The date Mellon Bank stamps your payment as received.
- The date your online credit card payment is approved. (Note: you will receive a remittance ID and an authorization number if your transaction is successful).
- The date you file in IBFS and receive a confirmation of filing and submission ID.

**Satellite Services.** All satellite services authorized under part 25 of this chapter.

**Submission ID.** The Submission ID is the confirmation number you receive from IBFS once you have successfully filed your application. It is also the number we use to match your filing to your payment. Your IBFS Submission ID will always start with the letters "IB" and include the year in which you file as well as a sequential number, (e.g., IB2003000123).

**Us.** In this subpart, "us" refers to the Commission.

**We.** In this subpart, "we" refers to the Commission.

**You.** In this subpart, "you" refers to applicants, licensees, your representatives, or other entities authorized to provide services.

**§ 1.9002 What happens if the rules conflict?**

The rules concerning parts 1, 25, 63 and 64 of this chapter govern over the electronic filing in this subpart.

**§ 1.9003 When can I start operating?**

You can begin operating your facility or providing services once we grant your application to do so, under the conditions set forth in your license or authorization.

**§ 1.9004 What am I allowed to do if I am approved?**

If you are approved and receive a license or authorization, you must operate in accordance with, and not beyond, your terms of approval.

**§ 1.9005 What is IBFS?**

(a) The International Bureau Filing System (IBFS) is a database, application filing system, and processing system for all International and Satellite Services. IBFS supports electronic filing of many applications and related documents in the International Bureau, and provides public access to this information.

(b) We maintain applications, notifications, correspondence, and other materials filed electronically with the International Bureau in IBFS.

**§ 1.9006 Is electronic filing mandatory?**

Electronic filing is mandatory for:

(a) Satellite license applications other than DBS and DARS applications,

(b) Applications for earth stations to access a non-U.S. satellite not currently authorized to provide the proposed service in the proposed frequencies in the United States, and

(c) Routine earth station applications. Except for these applications, electronic filing is voluntary at this time. However, we encourage you to use IBFS to increase time-savings and efficiency.

**§ 1.9007 What applications can I file electronically?**

(a) You can file most International and Satellite applications electronically. In cases where a paper form exists, we attempted to keep the same format for the online version of the form. In some cases (such as International Section 214 applications filed under § 63.18), although a paper form does not exist, there is an electronic form to facilitate filing.

(b) The following applications are available on IBFS for electronic filing:

- (1) International Accounting Rate Change Filings,
- (2) Submarine Cable Landing License Applications,
- (3) Requests for Assignment of Data Network Identification Codes,
- (4) Foreign Carrier Affiliation Notification Filings,
- (5) International Section 214 Applications,
- (6) International Section 214 Special Temporary Authority,
- (7) International Signaling Point Code Filings,
- (8) Recognized Operating Agency Filings,
- (9) Renewal of Radio License in Specific Services, and
- (10) Space and Earth Station Applications
  - (i) Earth Station Authorizations—Form 312

- (ii) Earth Station Special Temporary Authority
  - (iii) Space Station Authorizations—Form 312
  - (iv) Space Station Special Temporary Authority
  - (v) Modifications of Authorization—Form 312
  - (vi) Amendments to Pending Applications—Form 312
  - (vii) Transfers of Control of License—Form 312
  - (viii) Assignments of License—Form 312
- (c) Many applications require exhibits or attachments. If attachments are required, you must attach documentation to your electronic application before filing. We accept attachments in the following formats: Word, Adobe Acrobat, Excel and Text.
- (d) For paper filing rules and procedures, see parts 1, 25, 63 or 64.

#### **§ 1.9008 What are IBFS file numbers?**

- (a) We assign file numbers to electronic applications in order to facilitate processing.
- (b) We only assign file numbers for administrative convenience; they do not mean that an application is acceptable for filing.
- (c) For a description of file number information, see The International Bureau Filing System File Number Format Public Notice, DA-04-568 (released February 27, 2004).

#### **§ 1.9009 What are the steps for electronic filing?**

- (a) *Step 1: Register for an FCC Registration Number (FRN).* (See Subpart W, §§ 1.8001 through 1.8004.)
  - (1) If you already have an FRN, go to Step 2.
  - (2) In order to process your electronic application, you must have an FRN. You may obtain an FRN either directly from the Commission Registration System (CORES) at <http://www.fcc.gov/e-file/>, or through IBFS as part of your filing process. If you need to know more about who needs an FRN, visit CORES at <http://www.fcc.gov/e-file/>.
  - (3) If you are a(n):
    - (i) Applicant,
    - (ii) Transferee and assignee,
    - (iii) Transferor and assignor,
    - (iv) Licensee/Authorization Holder, or
    - (v) Payer, you are required to have and use an FRN when filing applications and/or paying fees through IBFS.
  - (4) We use your FRN to give you secured access to IBFS and to pre-fill the application you file.
    - (a) *Step 2: Register with IBFS.*
      - (1) If you are already registered with IBFS, go to Step 3.

(2) In order to complete and file your electronic application, you must register in IBFS, located at <http://www.fcc.gov/ibfs>.

- (3) You can register your account in:
  - (i) Your name,
  - (ii) Your company's name, or
  - (iii) Your client's name.
- (4) IBFS will issue you an account number as part of the registration process. You will create your own password.

(5) If you forget your password, send an e-mail to the IBFS helpline at [ibfsinfo@fcc.gov](mailto:ibfsinfo@fcc.gov) or contact the helpline at (202) 418-2222 for assistance.

(c) *Step 3: Log into IBFS, select the application you want to file, provide the required FRN(s) and password(s) and fill out your application.* You must completely fill out forms and provide all requested information as provided in parts 1, 25, 63 and 64 of this chapter.

(1) You must provide an address where you can receive mail delivery by the United States Postal Service. You are also encouraged to provide an e-mail address. This information is used to contact you regarding your application and to request additional documentation, if necessary.

(2) *Reference to material on file.* You must answer questions on application forms that call for specific technical data, or that require yes or no answers or other short answers. However, if documents or other lengthy showings are already on file with us and contain the required information, you may incorporate the information by reference, as long as:

- (i) The referenced information is filed in IBFS or, if manually filed, the information is more than one "8½ inch by 11 inch" page.
- (ii) The referenced information is current and accurate in all material respects; and
- (iii) The application states where we can find the referenced information as well as:

(A) The application file number, if the reference is to previously-filed applications

(B) The title of the proceeding, the docket number, and any legal citation, if the reference is to a docketed proceeding.

(a) *Step 4. File your application.* If you file your application successfully through IBFS, a confirmation screen will appear showing you the date and time of your filing and your submission ID. Print this verification for your records as proof of online filing.

(b) *Step 5: Pay for your application.*

(1) Most applications require that you pay a fee to us before we can begin processing your application. You can

determine the amount of your fee in three ways:

- (i) You can refer to § 1.1107,
- (ii) You can refer to the International and Satellite Services fee guide located at <http://www.fcc.gov/fees/appfees.html>, or
- (iii) You can run a draft Form 159 through IBFS, in association with a filed application, and the system will automatically enter your required fee on the form.

(2) A complete FCC Form 159 must accompany all fee payments. You must provide the FRN for both the applicant and the payer. You also must include your IBFS Submission ID number on your FCC Form 159 in the box labeled "FCC Code 2." In addition, for applications for transfer of control or assignment of license, call signs involved in the transaction must be entered into the "FCC Code 1" box on the FCC Form 159. (This may require the use of multiple rows on the FCC Form 159 for a single application where more than one call sign is involved.)

(i) You may use a paper version of FCC Form 159, or

(ii) You can generate a pre-filled FCC Form 159 from IBFS using your IBFS Submission ID. For specific instructions on using IBFS to generate your FCC Form 159, go to the IBFS Web site (<http://www.fcc.gov/ibfs>) and click on the "Getting Started" button.

(3) You have 3 payment options:

- (i) Pay by credit card (through IBFS or by regular mail),
- (ii) Pay by check, bank draft or money order, or
- (iii) Pay by wire transfer or other electronic payments.

(4) You have 14 calendar days from the date you file your application in IBFS to submit your fee payment to Mellon Bank. Your FCC Form 159 must be stamped "received" by Mellon Bank by the 14th day. If not, we will dismiss your application.

(5) If you send your Form 159 and payment to Mellon Bank in paper form, you should mail your completed Form 159 and payment to the address specified in § 1.1107 of the Commission's rules. If you file electronically, do not send copies of your application with your payment and Form 159.

(6) For more information on fee payments, refer to Payment Instructions found on the IBFS Internet site at <http://www.fcc.gov/ibfs>.

(7) Step 5 is not applicable if your application is fee exempt.

**§ 1.9010 Do I need to send paper copies with my electronic applications?**

(a) If you file electronically through IBFS, the electronic record is the official record.

(b) If you file electronically, you do not need to submit paper copies of your application.

(c) If you submit paper copies of your application with your payment, we will consider them as copies and may not retain them.

**§ 1.9011 Who may sign applications?**

(a) "Signed" in this section refers to electronically filed applications. An electronic application is "signed" when there is an electronic signature. An electronic signature is the typed name of the person "signing" the application, which is then electronically transmitted via IBFS.

(b) For all electronically filed applications, you (or the signor) must actually sign a paper copy of the application, and keep the signed original in your files for future reference.

(c) You only need to sign the original of applications, amendments, and related statements of fact.

(d) Sign applications, amendments, and related statements of fact as follows (either electronically or manually):

- (1) By you, if you are an individual;
- (2) By one of the partners, if you are a partnership;
- (3) By an officer, director, or duly authorized employee, if you are a corporation; or
- (4) By a member who is an officer, if you are an unauthorized association.

(e) If you file applications, amendments, and related statements of fact on behalf of eligible government entities, an elected or appointed official who may sign under the laws of the applicable jurisdiction must sign the document. Eligible government entities are:

- (1) States and territories of the United States,
- (2) Political subdivisions of these states and territories,
- (3) The District of Columbia, and
- (4) Units of local government.

(f) If you are either physically disabled or absent from the United States, your attorney may sign applications, amendments and related statements of facts on your behalf.

(1) Your attorney must explain why you are not signing the documents.

(2) If your attorney states any matter based solely on his belief (rather than knowledge), your attorney must explain his reasons for believing that such statements are true.

(g) It is unnecessary to sign applications, amendments, and related statements of fact under oath. However, willful false statements are punishable by a fine and imprisonment, 18 U.S.C. 1001, and by administrative sanctions.

**§ 1.9012 When can I file on IBFS?**

IBFS is available 24 hours a day, seven (7) days a week for filing.

**§ 1.9013 How do I check the status of my application after I file it?**

You can check the status of your application through the "Search Tools" on the IBFS homepage. The IBFS homepage is located at [www.fcc.gov/ibfs](http://www.fcc.gov/ibfs).

**§ 1.9014 What happens after officially filing my application?**

(a) We give you an IBFS file number.

(b) We electronically route your application to an analyst who conducts an initial review of your application. If your application is incomplete, we will either dismiss the application, or contact you by telephone, letter or email to ask for additional information within a specific time. In cases where we ask for additional information, if we do not receive it within the specified time, we will dismiss your application. In either case, we will dismiss your application without prejudice, so that you may file again with a complete application.

(c) If your application is complete, and we verify receipt of your payment, it will appear on an "Accepted for Filing" Public Notice, unless public notice is not required. An "Accepted for Filing" Public Notice gives the public a certain amount of time to comment on your filing. This period varies depending upon the type of application.

(1) Certain applications do not have to go on an "Accepted for Filing" Public Notice prior to initiation of service, but instead are filed as notifications to the Commission of prior actions by the carriers as authorized by the rules. Examples include pro forma notifications of transfer of control and assignment and certain foreign carrier notifications.

(2) Each "Accepted for Filing" Public Notice has a report number. Examples of various types of applications and their corresponding report number (the "x" represents a sequential number) follow.

Type of application	Report No.
325-C Applications .....	325-xxxx
Accounting Rate Change .....	ARC-xxxxx
Foreign Carrier Affiliation Notification .....	FCN-xxxxx

Streamlined .....	TEL-xxxxxS
Non-streamlined .....	TEL-xxxxxNS and/or DA
Submarine Cable Landing:

Non-streamlined .....	SCL-xxxxxNS and/or DA

(d) After the Public Notice, your application may undergo legal, technical and/or financial review as deemed necessary. In addition, some applications require coordination with other government agencies.

(e) After review, we decide whether to grant or deny applications or whether to

take other necessary action. Grants, denials and any other necessary actions are noted in the IBFS database. Some filings may not require any affirmative action, such as some Foreign Carrier Affiliation Notification Filings. Other filings, such as some International Section 214 Applications, International

Accounting Rate Change Filings and Requests for assignment of Data Network Identification Codes, may be granted automatically on a specific date unless the applicant is notified otherwise prior to that date, as specified in the rules.

(f) We list most actions taken on public notices. Each "Action Taken" Public Notice has a report number.

Examples of various types of applications and their corresponding

report number (the "x" represents a sequential number) follow.

(g) Other actions are taken by formal written Order, oral actions that are followed up with a written document, or grant stamp of the application. In all

**§ 1.9015 Are there exceptions for emergency filings?**

(a) Sometimes we grant licenses, modifications or renewals even if no one files an application. Instances where this may occur include:

(1) If we find there is an emergency involving danger to life or property, or because equipment is damaged;

(2) If the President proclaims, or if Congress declares, a national emergency;

(3) During any war in which the United States is engaged and when grants, modifications or renewals are necessary for national defense, security or in furtherance of the war effort; or

(4) If there is an emergency where we find that it is not feasible to secure renewal applications from existing licensees or to follow normal licensing procedures.

(b) Emergency authorizations stop at the end of emergency periods or wars. After the emergency period or war, you must submit your request by filing the appropriate form either manually or electronically.

(c) The procedures for emergency requests, as described in this section, are as specified in §§ 25.120 and 63.25 of this chapter.

#### Pipeline Safety: Pipeline Integrity Management in High Consequence Areas (Gas Transmission Pipelines)

**AGENCY:** Office of Pipeline Safety (OPS), Research and Special Programs Administration (RSPA), DOT.

**ACTION:** Final rule; correction.

**SUMMARY:** This document corrects a final rule published in the **Federal Register** on December 15, 2003, (68 FR 69778) and a correction document to that rule published in the **Federal Register** on April 6, 2004 (69 FR 18228). The final rule of December 15, 2003, requires operators to develop integrity management programs for gas transmission pipelines located where a leak or rupture could do the most harm, *i.e.*, where a gas transmission pipeline could impact a high consequence area (HCA). This document makes minor corrections to the rule.

**DATES:** *Effective Date:* The effective date is May 26, 2004.

**FOR FURTHER INFORMATION CONTACT:** Mike Israni by phone at (202) 366–4571, by fax at (202) 366–4566, or by e-mail at [mike.israni@rspa.dot.gov](mailto:mike.israni@rspa.dot.gov), regarding the subject matter of the final rule.

#### SUPPLEMENTARY INFORMATION:

##### Background

On December 15, 2003, RSPA/OPS published a final rule (68 FR 69778) that requires operators of gas transmission pipelines to develop and implement a comprehensive integrity management program for pipeline segments located in areas where a failure would have the greatest impact to the public or property. On April 6, 2004, RSPA/OPS published a correction rule that made editorial and typographical corrections to the final rule and addressed a petition for reconsideration filed by the Interstate Natural Gas Association of America.

##### Purpose for This Document

The April 6, 2004, correction rule contained errors. This correction document corrects those errors and corrects additional errors identified in the December 15, 2003, final rule.

##### Corrections and Clarifications

In the April 6, 2004, correction rule, RSPA/OPS amended the definition of “high consequence areas” by clarifying that an operator using Method (1) to identify these areas would have to calculate and evaluate potential impact circles on any transmission line in a Class 1 or Class 2 location. RSPA/OPS removed the phrase “outside a Class 3 or Class 4 location” to clarify that an operator does not have to evaluate segments that have already been classified as “high consequence areas.” However, RSPA/OPS erroneously used the term “potential impact radius” in paragraph (1)(iv) instead of the term “potential impact circle.” In this correction rule, RSPA/OPS is replacing the word “radius” with “circle.”

Section 192.925 sets forth the requirements for external corrosion direct assessment. This was change number 9 in the April 6, 2004 correction rule. In that document, RSPA/OPS revised the introductory text in paragraph (b) to clarify what an operator is required to do if the External Corrosion Direct Assessment detects pipeline coating damage. RSPA/OPS has since become aware that the **Federal Register** read this instruction as revising paragraph (b) and as deleting the further requirements in subparagraphs (b)(1) through (b)(4). RSPA/OPS did not intend for the revision to delete these requirements. This correction rule adds back to the final rule the missing requirements of paragraphs (b)(1) through (b)(4). This correction rule presents § 192.925(b) in its entirety, with the revised language in the introductory paragraph.

In the April 6, 2004, correction rule, we revised paragraph (d) of § 192.935 to include requirements for additional preventive and mitigative measures for a pipeline operating below 30% SMYS located in a Class 3 or Class 4 area. In the requirements, we referenced the reassessment requirements of §§ 192.941(b) and 192.941(c). RSPA/OPS did not mean to add these references as they only add confusion to the final rule. In this correction rule, RSPA/OPS is removing the references to the reassessment requirements of §§ 192.941(b) and 192.941(c) to avoid further confusion.

Section I of Appendix E provides additional guidance on determining a high consequence area. The second sentence in this section erroneously states that an operator must use method (a) or (b) from the definition in § 192.903 to identify a “high consequence area.” The sentence is now corrected to state that an operator must
