Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for emergency clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Reporting of Sea Turtle Entanglement in Pot Gear Fisheries.

Form Number(s): None.

OMB Approval Number: None.

Type of Request: Emergency.

Burden Hours: 30.

Number of Respondents: 15.

Average Hours Per Response: 60 minutes for a telephone call.

Needs and Uses: This collection of information involves sea turtles becoming accidentally entangled in active or discarded fixed fishing gear. These entanglements may prevent the recovery of endangered and threatened sea turtle populations. NOAA Fisheries has established the Sea Turtle Disentanglement Network to promote reporting and increase successful disentanglement of sea turtles. Since

there is limited to no observer coverage of pot gear fisheries, NOAA Fisheries relies on the U.S. Coast Guard, fishing industry, stranding network, federal, state, and local authorities, and the public for this information.

The information provided will help NOAA Fisheries better assess pot gear fisheries (lobster, whelk/conch, crab, fish trap) and their impact on sea turtle populations in the northeast region (Maine to Virginia).

Affected Public: Business or other for-profit organizations; Individuals or households; Not-for-profit institutions; Federal Government; and State, Local or Tribal Government.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer: David Rostker, (202) 395-3897.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau plans to request clearance for the collection of data concerning the School Enrollment Supplement to be conducted in conjunction with the October 2004 CPS. Title 13, United States Code, Section 182, and Title 29, United States Code, Sections 1-9, authorize the collection of the CPS information. The Census Bureau and the Bureau of Labor Statistics (BLS) sponsor the basic annual school enrollment questions, which have been collected annually in the CPS for 40 years.

This survey provides information on public/private elementary school, secondary school, and college enrollment, and on characteristics of private school students and their families, which is used for tracking historical trends, policy planning, and support. This year's supplement will also contain questions that were last asked in October 1999. These questions concern language proficiency, disabilities, and grade retention for persons 3-24 years of age. This survey is the only source of national data on the age distribution and family characteristics of college students and the only source of demographic data on preprimary school enrollment. As part of the federal government's efforts to collect data and provide timely information to local governments for policymaking decisions, the survey provides national trends in enrollment and progress in school.

II. Method of Collection

The school enrollment information will be collected by both personal visit and telephone interviews in conjunction with the regular October CPS interviewing. All interviews are conducted using computer-assisted interviewing.
