As part of the OIA Connector Scoping Meeting, information on the OIA Intermodal Center will be presented. The FDOT in consultation with the FTA, and the Greater Orlando Aviation Authority (GOAA) is preparing NEPA documentation for a new Intermodal Center at OIA in order to accommodate high-speed rail, light rail, and other private/public modes of transportation. The study will comply with FDOT, FTA, Federal Aviation Administration (FAA), Federal Railroad Administration (FRA), and the Transportation Security Administration (TSA) requirements. The OIA Intermodal Center project is freestanding and capable of independent operation.

## 7. FTA Procedures

In accordance with FTA policy, all Federal laws, regulations, and executive orders affecting project development, including but not limited to the regulations of the Council on Environmental Quality and FTA implementing NEPA (40 CFR parts 1500–1508, and 23 CFR part 771), the 1990 Clean Air Act Amendments, section 404 of the Clean Water Act, Executive Order 12898 regarding Environmental Justice, the National Historic Preservation Act, the Endangered Species Act, and section 4(f) of the DOT Act, will be addressed to the maximum extent practicable during the NEPA process. In addition, following selection and adoption of the LPA, FDOT may seek FTA Section 5309 New Starts funding for the LPA, and therefore, will be subject to the FTA New Starts Regulations (49 CFR part 611). This New Starts regulation requires submission of information specified by FTA to support FDOT's request to initiate Preliminary Engineering. The Alternatives Analysis and subsequent Preliminary Engineering activities are to be executed in conjunction with the NEPA process.
