Georgia Power Company; Notice of Georgia Power's Morgan Falls Operations Technical Workshop

August 16, 2004.

In response to stakeholder feedback received at the July 2004 Morgan Falls Study Plan Meetings, Georgia Power is convening a Morgan Falls Operations Technical Workshop. The Workshop will be held September 1, 2004 from 8:30 a.m. until 12 noon (e.s.t.) at the Georgia Power corporate office address provided below. The purpose of the Workshop is to provide stakeholders with a better basic understanding of project operations. A description of project operation was previously provided in the Pre-Application Document, Scoping Document I, the Proposed Study Plan, and at Scoping Meetings, but because of its complexity, several stakeholder groups had requested at the Study Plan Meetings additional discussions of the operations of the Morgan Falls Project. A Morgan Falls Operations primer, based on

stakeholder feedback received at the Study Plan Meetings, will be distributed for review prior to the Technical Workshop.

Workshop Meeting Location: Georgia Power Company, J. K. Davis Conference Center, First Floor, Room 7, 241 Ralph McGill Boulevard, NE., Atlanta, Georgia 30308.

For building security clearance, please RSVP to George Martin at (404) 506-1357 or gmartin@southernco.com. If you have any questions, please contact Mr. Martin or Janet Hutzel at (202) 502-8675 or janet.hutzel@ferc.gov.

An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. When in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment,

including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: NSPS for the Graphic Arts Industry (40 CFR Part 60, Subpart QQ) (Renewal).

Abstract: The New Source Performance Standards (NSPS) for subpart QQ were proposed on October 28, 1980, and promulgated on November 8, 1982. These standards apply to each publication rotogravure printing press (not including proof presses) commencing construction, modification or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 60, subpart QQ.

Owners or operators subject to this subpart are required to establish and maintain records, make reports, install, use and maintain monitoring equipment or methods as required, and provide other information as EPA may deem necessary. Owners or operators of the affected facilities described have certain notification, reporting, and recordkeeping requirements that are mandatory for compliance under this rule. These are a one-time-only notification of the actual dates of startup, keeping records of monthly emissions calculations, and reporting of the initial performance test. Any owner or operator subject to the provisions of this part will maintain a file of these measurements, and retain the file for at least two years following the date of such reports and records.

Notifications are used to inform the Agency or delegated authority when a source becomes subject to the standard. The reviewing authority may then inspect the source to check if the pollution control devices are properly installed and operated and the standard is being met. Performance test reports are needed as these are the Agency's records of a source's initial capability to comply with the emission standard.

All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information

unless it displays a currently valid OMB Control Number. The OMB Control Numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 37 (rounded) hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners/operators of Graphic Arts Industry.

Estimated Number of Respondents: 19.

Frequency of Response: Semiannually, initially.

Estimated Total Annual Hour Burden: 1,718.

Estimated Total Annual Costs: \$108,663, which includes \$0 annualized capital/startup costs, \$0 O & M costs, and \$108,663 annual labor costs.

Changes in the Estimates: There is a decrease of 2,153 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease in the burden from the most recently approved ICR is due to a more accurate estimate of existing and anticipated new sources.

Dated: August 2, 2004.

Oscar Morales,

Director, Collection Strategies Division.
