

Recreation Area Management Plan. There would be no new convenience store or new shop building.

**Responsible Official:** The Ashley National Forest Supervisor, George Weldon is the responsible official. The address is Ashley National Forest, 355 N. Vernal Ave., Vernal, UT 84078.

**Nature of Decision To Be Made:** The decision to be made is whether to allow the upgrade of the Cedar Springs Marina, and whether to re-issue the Special Use Permit for 25 years, and also whether to increase the footprint (acreage) of the Special Use Permit as is proposed or to allow partial upgrade of the marina as in Alternative 3 or to not allow the upgrade as is found in the No Action Alternative.

**Scoping Process:** A scoping letter will be sent to interested parties. The letter will discuss the proposed project and purpose and need along with issues related to the project.

**Preliminary Issues:** The following are preliminary issues from early analysis. Fluctuating water levels have reduced public service at the marina, there is extreme parking congestion, antiquated facilities limit the proponents ability to provide valuable services to the public, compliance with the Flaming Gorge National Recreation Area Management Plan, and the strong public demand for marina services.

**Permits or Licenses Required:** Army Corp of Engineers 404 permit

**Comment Requested:** This notice of intent initiates the scoping process which guides the development of the environmental impact statement.

**Early Notice of Importance of Public Participation in Subsequent**

**Environmental Review:** A draft environmental impact statement will be prepared for comment. The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement state but that are not raised until after completion of the final environmental impact statement may be

waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45 day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

**Background**

The review covers five manufacturers/exporters: Agro Dutch Industries Ltd. (“Agro Dutch”), Dinesh Agro Products, Ltd. (“Dinesh Agro”), Premier Mushroom Farms (“Premier”), Saptarishi Agro Industries, Ltd. (“Saptarishi Agro”), and Weikfield Agro Products Ltd. (“Weikfield”). The period

of review is February 1, 2002, through January 31, 2003.

On March 8, 2004, the Department of Commerce (“the Department”) published the preliminary results of the fourth administrative review of the antidumping duty order on certain preserved mushrooms from India (69 FR 10659) (“Preliminary Results”). We invited parties to comment on the preliminary results of review. On March 22, 2004, we received a request for a public hearing from the petitioner.<sup>1</sup>

On May 5, 2004, the Department published in the **Federal Register** the postponement of the final results of the administrative review of the antidumping duty order on certain preserved mushrooms from India (69 FR 25063). We conducted a verification of Agro Dutch's sales data from May 18 through May 21, 2004. At our request, Agro Dutch submitted revised sales data bases on June 2, 2004, which incorporated revisions resulting from the verification.

We received case briefs from Weikfield on June 7, 2004, (brief dated June 2, 2004), and the petitioner, Agro Dutch, and Premier on June 10, 2004. The petitioner and Agro Dutch filed rebuttal briefs on June 17, 2004. Agro Dutch withdrew its rebuttal brief on June 22, 2004, and submitted a replacement brief on June 24, 2004.<sup>2</sup> On June 28, 2004, the petitioner withdrew its request for a public hearing. We have conducted this administrative review in accordance with section 751(a) of the Tariff Act of 1930, as amended (“the Act”).

The products covered by the order are certain preserved mushrooms, whether imported whole, sliced, diced, or as stems and pieces. The preserved mushrooms covered under the order are the species *Agaricus bisporus* and *Agaricus bitorquis*. “Preserved mushrooms” refer to mushrooms that have been prepared or preserved by cleaning, blanching, and sometimes slicing or cutting. These mushrooms are then packed and heated in containers including but not limited to cans or glass jars in a suitable liquid medium, including but not limited to water,

Bowman, Inc.; Modern Mushroom Farms, Inc.; Monterey Mushrooms, Inc.; Mount Laurel Canning Corp.; Mushrooms Canning Company; Southwood Farms; Sunny Dell Foods, Inc.; and United Canning Corp.

<sup>2</sup> The circumstances regarding the withdrawal and replacement of the Agro Dutch rebuttal brief are discussed in a June 28, 2004, memorandum to the file.
