IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.¹³ In particular, the Commission finds that the proposed rule change is consistent with section 6(b)(5) of the Act, which requires that the rules of an exchange be designed to promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system, and protect investors and the public interest.¹⁴ The Commission believes that an extension of the pilot program for an additional six months should allow the Exchange to gradually phase-out the AOR process and to continue to phase-in PCX Plus on an issue-by-issue basis.

¹³ In approving this proposal, the Commission has considered its impact on efficiency, competition, and capital formation. 15 U.S.C. 78c(f).

¹⁴ 15 U.S.C. 78f(b)(5).

Accordingly, the Commission finds good cause, pursuant to section 19(b)(2) of the Act,¹⁵ for approving the proposed rule change prior to the thirtieth day after the date of publication of notice thereof in the **Federal Register**. The Commission recognizes that during the last extension of the pilot program, PCX has represented that the AOR pilot program has been operating successfully. The Commission believes that granting accelerated approval to extend the pilot program for an additional six months will allow PCX to continue, without interruption, the existing operation of its AOR pilot.

V. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act,¹⁶ that the proposed rule change (SR-PCX-2004-97), is hereby approved on an accelerated basis, as a six-month pilot, scheduled to expire on March 31, 2005.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁷

J. Lynn Taylor,

Assistant Secretary.
