(2) If the Panel's decision is that the request of the appellant to amend the record is denied, in addition to the notification required by paragraph (d) of this section, the Chairman shall advise the appellant:

**POSTAL SERVICE**

**39 CFR Part 20**

**Discontinuance of Volume Discount Availability for IPA and ISAL Mailers**

**AGENCY:** Postal Service.

**ACTION:** Final rule.

**SUMMARY:** This final rule deletes *International Mail Manual (IMM)* 292.212, 292.213, and 293.75, which authorized mailers who spent \$2 million or more combined on International Priority Airmail (IPA) and International Surface Air Lift (ISAL) in the preceding Postal Service fiscal year to receive discounted postage rates.

**EFFECTIVE DATE:** November 3, 2004.

**FOR FURTHER INFORMATION CONTACT:** Rick Klutts, 202-268-7268.

**SUPPLEMENTARY INFORMATION:** On July 28, 2004, the Postal Service published for comment in the *Federal Register* (69 FR 45002-45003) a proposed rule to delete standards that authorize postage discounts for mailers who spend \$2 million or more combined on International Priority Airmail (IPA) and International Surface Air Lift (ISAL) in the preceding Postal Service fiscal year. The Postal Service proposed to discontinue these discounts due to recent Postal Service reviews of costs for providing these services. These cost reviews identified increases in transportation, terminal dues, and other costs that have all risen while published rates for IPA and ISAL have remained static since 2001. When costs rise above the rate we are charging, we are obliged to adjust prices and discounts (in this case IPA and ISAL) so they are not subsidized by other domestic or international product offerings. These changes do not affect the standards for existing or prospective customers who use IPA or ISAL mail and participate or would like to participate in the International Customized Mail (ICM) service agreement program as defined in IMM 297.

The Postal Service requested comments on the proposed rule by August 18, 2004. Comments were received from two parties, one who voiced opposition to the proposal, and one whose comment was outside the scope of the proposed rule.

An industry organization respondent questioned the rationale for the proposal and requested a more detailed cost analysis; this commenter also cited a 1998 report to Congress that states there is adequate cost coverage for these products. In addition, the commenter suggested a correlation between the proposed discontinuance of volume

discounts and International Customized Mail (ICM) agreements. As pointed out in the supplementary information, the Postal Service is obligated to offer its services at a rate that covers both average attributable cost and institutional cost. When costs rise above the rate we are charging, adjustments to prices and discounts (in this case IPA and ISAL) are required so they are not subsidized by other domestic or international product offerings. Moreover, since 1998, transportation costs, terminal dues costs, and other costs have risen while published rates for IPA and ISAL have remained static since 2001.

The other comment was made by an international mailer who enters mail under an ICM agreement. The mailer stated that IPA was a very good service and they did not want to lose their current discount. Since this proposed rule does not address ICMs, this comment falls outside the scope of this rulemaking and therefore will not be addressed at this time. Additionally, nothing in this change precludes this mailer from entering IPA and ISAL mailings under their existing ICM agreement.

For the reasons discussed above, the Postal Service adopts the following amendments to the *International Mail Manual*, which is incorporated by reference in the *Code of Federal Regulations*. See 39 CFR Part 20.1.

#### SUPPLEMENTARY INFORMATION:

Throughout this document whenever "we," "us," or "our" is used, we mean EPA. This section provides additional information by addressing the following questions:

What is a SIP?

What is the Federal approval process for a SIP?

What does Federal approval of a state regulation mean to me?

What is being addressed in this document?

Have the requirements for approval of a SIP revision been met?

What action is EPA taking?

#### What Is a SIP?

Section 110 of the Clean Air Act (CAA) requires states to develop air pollution regulations and control strategies to ensure that state air quality meets the national ambient air quality standards established by EPA. These ambient standards are established under section 109 of the CAA, and they currently address six criteria pollutants. These pollutants are: carbon monoxide, nitrogen dioxide, ozone, lead, particulate matter, and sulfur dioxide.

Each state must submit these regulations and control strategies to us for approval and incorporation into the Federally-enforceable SIP.

Each Federally-approved SIP protects air quality primarily by addressing air pollution at its point of origin. These SIPs can be extensive, containing state regulations or other enforceable documents and supporting information such as emission inventories, monitoring networks, and modeling demonstrations.
