Notice of Initiation of Antidumping Duty Investigation: Outboard Engines from Japan

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Initiation of Antidumping Duty Investigation.

EFFECTIVE DATE: February 4, 2004.

FOR FURTHER INFORMATION CONTACT:

James Kemp at (202) 482-5346 or Salim Bhabhrawala at (202) 482-1784, AD/CVD Enforcement Office 5, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230.

INITIATION OF INVESTIGATION:

The Petition

On January 8, 2004, the U.S. Department of Commerce (the Department) received a petition filed in proper form by Mercury Marine, a division of Brunswick Corporation (the petitioner). The Department received supplemental information from the petitioner on

January 20, and January 22, 2004.

In accordance with section 732(b)(1) of the Tariff Act of 1930, as amended (the Act), the petitioner alleges that imports of outboard engines from Japan are, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Act, and that imports from Japan are materially injuring, or are threatening to materially injure, an industry in the United States.

The Department finds that the petitioner filed the petition on behalf of the domestic industry because the petitioner is an interested party as defined in section 771(9)(C) of the Act and the petitioner demonstrated sufficient industry support with respect to the antidumping investigation that the petitioner is requesting the Department to initiate. *See infra*, "Determination of Industry Support for the Petition."

Period of Investigation

The period of investigation (POI) is January 1, 2003, through December 31, 2003.

Scope of Investigation

For the purpose of this investigation, the products covered are outboard engines (also referred to as outboard motors), whether assembled or unassembled; and powerheads, whether assembled or unassembled. The subject engines are gasoline-powered spark-ignition, internal combustion engines designed and used principally for marine propulsion for all types of light recreational and commercial boats, including, but not limited to, canoes, rafts, inflatable, sail and pontoon boats. Specifically included in this scope are two-stroke, direct injection two-stroke, and four-stroke outboard engines.

Outboard engines are comprised of (1) a powerhead assembly, or an internal combustion engine, (2) a midsection
