#### Defense Science Board

**AGENCY:** Department of Defense.

**ACTION:** Notice of Advisory Committee meeting.

**SUMMARY:** The Defense Science Board Task Force on Management Oversight of Acquisition Organizations will meet in closed session on December 17, 2004, at SAIC, 4001 N. Fairfax Drive, Arlington, VA. This Task Force will review the contracting and acquisition of several organizations. Two organizations will provide classified programs (SOCOM and MDA). The military departments will provide actual examples of acquisitions using source selection data to include proprietary information. The inclusion of classified and proprietary information does not lend itself to an open meeting.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings, the Defense Science Board Task Force will assess whether all major acquisition organizations within the Department have adequate management and oversight processes, including what changes might be necessary to implement such process where needed. The task force will also review whether simplification of the acquisition structure could improve both efficiency and oversight.

In accordance with Section 10(d) of the Federal Advisory Committee Act,

Public Law 92–463, as amended (5 U.S.C. App. 2), it has been determined that these Defense Science Board Task Force meetings concern matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, these meetings will be closed to the public.

**ACTION:** Notice of Advisory Committee Meeting.

**SUMMARY:** The Defense Science Board Task Force on Mobility will meet in closed session on January 12, 2005, in Arlington, VA. This Task Force will identify the acquisition issues in improving our strategic mobility capabilities.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At this meeting, the Defense Science Board Task Force will review: The part transport plays in our present-day military capability—the technical strengths and weakness the operational opportunities and constraints; the possible advantage of better alignment of current assets with those in production and those to be delivered in the very near future; how basing and deployment strategies—CONUS-basing, repositioning (ashore or afloat), and seabasing—drive our mobility effectiveness; the possible advantages available from new transport technologies and systems whose expected IOC dates are either short term (~12 years) or, separately, the long term (~25 years).

In accordance with Section 10(d) of the Federal Advisory Committee Act, Public Law 92–463, as amended (5 U.S.C. App. 2), it has been determined that this Defense Science Board Task Force meeting concerns matters listed in 5 U.S.C. 552b(c)(1) and that, accordingly, the meeting will be closed to the public.

**SUMMARY:** The Defense Science Board Task Force on Munitions system Reliability will meet in closed session on December 22, 2004, at SAIC, 4001 N. Fairfax Drive, Arlington, VA. This Task Force will review the efforts thus far to improve the reliability of munitions systems and identify additional steps to be taken to reduce the amount of unexploded ordnance resulting from munitions failures. The Task Force will: conduct a methodologically sound assessment of the failure rates of U.S. munitions in actual combat use; review ongoing efforts to reduce the amount of unexploded ordnance resulting from munitions systems failures, and evaluate whether there are ways to improve or accelerate these efforts; and identify other feasible measures the U.S. can take to reduce the threat that failed munitions pose to friendly forces and noncombatants.

**ACTION:** Notice of Advisory Committee meeting.

**SUMMARY:** The Defense Science Board Task Force on Global Positioning System will meet in closed session on January 13, 2005, at Strategic Analysis Inc., 3601 Wilson Boulevard, Arlington, VA. The Task Force will review a range of issues dealing with Galileo (or some other future radio navigation satellite system) and provide recommendations to address these issues.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings, the Defense Science Board Task Force will address: Provision of capabilities and services within GPS to ensure its viability in commercial markets; the impact on frequency spectrum use, signal waveforms and power management; access and denial issues throughout the spectrum of conflict; possible alternatives to a global radio navigation system including the development of small compact timing devices and/or navigation units; and vulnerabilities and upgrade strategies for all global radio navigation satellite systems (GRNSS). In addition, the Task Force will assess areas in which DoD should seek strong partnering relationships outside DoD, both within government and industry. It will recommend research and development areas that are uniquely in DoD interest and might not be accomplished by the private sector.

In accordance with Section 10(d) of the Federal Advisory Committee Act, Public Law 92-463, as amended (5 U.S.C.
